PROJECT NO. 53911

AGGREGATE DISTRIBUTED	§	PUBLIC UTILITY COMMISSION
ENERGY RESOURCE (ADER) ERCOT	§	
PILOT PROJECT	§	OF TEXAS

**RPOWER LLC
NOTICE OF INTEREST**

On August 14, 2025, Commissioner Glotfelty filed a memorandum in this proceeding in which he requested that any market participants that would like to participate in the Task Force for the Aggregate Distributed Energy Resource (ADER) ERCOT Pilot Project to submit a letter of interest in this proceeding. RPower LLC (RPower) would like to participate as a member of the Task Force and respectfully requests that Robyn Johnson, Vice President of Business Development for RPower, be designated as the company's representative.

Headquartered in The Woodlands, Texas, RPower is a Qualified Scheduling Entity (QSE) representing demand response customers and a retail electric provider (REP). The Distributed Energy Resource (DER) element of our company designs, installs, maintains, operates and optimizes microgrid systems to meet each customer's specific resilience and on-site power generation requirements. RPower's microgrids typically use natural gas generators and may include battery energy storage systems (BESS) if appropriate. Our resilience solutions help Texas businesses ensure the continuity of their operations through increasingly frequent and longer duration grid outages. Importantly, our microgrids are capable of and designed to provide energy and other reliability and resilience services to the grid.

RPower is directly involved in the deployment and use of DERs in the ERCOT Region and would welcome the opportunity to participate in the Task Force as it works to address barriers to the growth of the ADER Pilot Project, expand participation to meet (and exceed) the current 80

MW cap on the size of the Pilot Project, and make these aggregated resources a permanent fixture in the ERCOT market to support the reliability and resiliency of the grid.

Thank you for your consideration, and RPower looks forward to the opportunity to serve Texas in this important evolution of the ERCOT market.

Respectfully submitted,
