DOCKET NO. 53920

APPLICATION OF TEXAS WATER UTILITIES, L.P. AND CREEK WATER UTILITY LLC FOR SALE, TRANSFER, OR MERGER OF FACILITIES AND CERTIFICATE RIGHTS IN MARION COUNTY	§ § § § § §	PUBLIC UTILITY COMMISSION OF TEXAS
---	----------------------------	--

**JOINT SUPPLEMENTAL MOTION TO ADMIT EVIDENCE AND
PROPOSED NOTICE OF APPROVAL**

Texas Water Utilities, L.P. (Texas Water Utilities) and Creek Water Utility, LLC (Creek Water) (collectively, the Applicants), together with Public Utility Commission of Texas (Commission) Staff (collectively, the Parties) and file this Joint Supplemental Motion to Admit Evidence and Proposed Notice of Approval. In support thereof, the parties show the following:

I. BACKGROUND

On August 1, 2022, Monarch Utilities I L.P. (Monarch) and Creek Water filed an application for sale, transfer, or merger of facilities and certificate rights in Marion County, Texas, under Texas Water Code § 13.301 and 16 Texas Administrative Code § 24.239. On November 28, 2022, the administrative law judge (ALJ) issued Order No. 6, recognizing that the Commission had approved Monarch's name change to Texas Water Utilities, L.P. on November 15, 2022, and restyling the application accordingly. The Applicants seek the transfer of all facilities and service area held under Creek Water's water certificate of convenience and necessity (CCN) number 11028 to Texas Water Utilities, the cancellation of Creek Water's CCN number 11028, and the amendment of Texas Water Utilities' water CCN number 12983 to include the area previously included in Creek Water's water CCN number 11028.

On June 23, 2023, and July 18, 2023, the Applicants filed closing documents reflecting the consummation of the sale of Creek Water's assets to Texas Water Utilities and the cancellation of Creek Water's water CCN. On July 27, 2023, the ALJ issued Order No. 25, finding the closing documents to be sufficient and requiring the parties to jointly file a Proposed Notice of Approval by September 15, 2023. This deadline was extended to September 25, 2023, by Order No. 27, and a request to further extend it to October 2, 2023, is pending. TWU withdraws the request for extension and provides this filing in its place.

II. SUPPLEMENTAL MOTION TO ADMIT EVIDENCE

The Parties move to admit the following additional evidence into the record of this proceeding:

- (a) Texas Water Utilities' supplemental proof of notice, filed on June 9, 2023, and June 20, 2023 (Interchange Item Nos. 60 and 65);
- (b) Commission Staff's recommendation on supplemental notice, filed on June 23, 2023 (interchange Item No. 66);
- (c) Creek Water and Texas Water Utilities' notice of completed transaction, filed on June 23, 2023, and supplemented on July 18, 2023 (Interchange Item Nos. 67, 68, 75, and 76);
- (d) Commission Staff's recommendation on the sufficiency of the closing documents, filed on July 25, 2023 (Interchange Item No. 80);
- (e) Creek Water and Texas Water Utilities' consent forms attached to the joint supplemental motion to admit evidence, filed on September 26, 2023; and
- (f) The final map, certificate, and tariff attached to the joint supplemental motion to admit evidence, filed on September 26, 2023.

III. JOINT PROPOSED NOTICE OF APPROVAL

The Parties move for the adoption of the Joint Proposed Notice of Approval.

IV. CONCLUSION

The Parties respectfully request that the Commission grant the Joint Motion to Admit Evidence and file a Notice of Approval consistent with the Joint Proposed Notice of Approval.

Respectfully submitted,

DOCKET NO. 53920

APPLICATION OF TEXAS WATER UTILITIES, L.P. AND CREEK WATER UTILITY LLC FOR SALE, TRANSFER, OR MERGER OF FACILITIES AND CERTIFICATE RIGHTS IN MARION COUNTY	§ § § § § §	PUBLIC UTILITY COMMISSION OF TEXAS
---	----------------------------	--

JOINT PROPOSED NOTICE OF APPROVAL

This Notice of Approval addresses the application of Creek Water Utility LLC (Creek Water) and Texas Water Utilities, L.P. (Texas Water Utilities)¹ for approval of the sale, transfer, or merger of facilities and certificate rights in Marion County. The Commission approves the sale and transfer of Creek Water’s facilities and certificated water service area held under certificate of convenience and necessity (CCN) number 11028 to Texas Water Utilities under CCN number 12983, the cancellation of Creek Water’s CCN number 11028, and the amendment of Texas Water Utilities’ CCN number 12983 to include the facilities and service area previously included in Creek Water’s CCN number 11028.

I. Findings of Fact

The Commission makes the following findings of fact.

Applicants

1. Texas Water Utilities is a Texas limited partnership registered with the Texas secretary of state under file number 800034797.
2. Texas Water Utilities holds CCN number 12983 which obligates it to provide retail water service in its certificated service area in multiple counties, including Marion County.
3. Creek Water is a Texas limited liability company registered with the Texas secretary of state under file number 801403833.
4. Creek Water holds CCN number 11028 which obligates it to provide retail water service in its certificated service area in Marion County.

¹ This application was filed by Monarch Utilities I L.P. However, on May 23, 2022, Monarch filed an application to change its name to Texas Water Utilities L.P., which was approved on November 15, 2022. See *Application of Monarch Utilities I L.P. for a Certificate of Convenience and Necessity Name Change*, Docket No. 53636, Notice of Approval (Nov. 15, 2022).

5. Creek Water owns and operates one public water system in Marion County registered with the Texas Commission on Environmental Quality (TCEQ) as Creek Water Utility, identification number 1580020, which comprises the Crystal Cove and Copeland Creek subdivisions.

Application

6. On August 1, 2022, Creek Water and Texas Water Utilities filed the application at issue in this proceeding.
7. On September 2 and December 28, 2022, and February 3 and 17, 2023, Creek Water and Texas Water Utilities supplemented the application.
8. In the application, Creek Water and Texas Water Utilities seek approval of the following transaction: (a) the sale and transfer of all of Creek Water's facilities and certificated service area under water CCN number 11028 to Texas Water Utilities under CCN number 12983; (b) the cancellation of Creek Water's CCN number 11028; and (c) the amendment of Texas Water Utilities' CCN number 12983 to include the area previously included in Creek Water's CCN number 11028.
9. The total area affected subject to this transaction is comprised of approximately 289.50 acres, including 272.9 acres which will be singly certificated and 16.6 acres which will be dually certificated with Harleton Water Supply Corporation, and 94 current customers.
10. The requested area is located approximately five miles north of downtown Harleton, Texas, and is generally bounded on the north by Lake O' the Pines; on the east by Paul Conner Road; on the south by Old Jefferson Road; and on the west by Lake O' the Pines.
11. In Order No. 4 filed on October 7, 2022, the administrative law judge (ALJ) found the application administratively complete.

Notice

12. On November 21, 2022, the applicants filed the affidavit of George Freitag, Texas regulatory manager for Texas Water Utilities, attesting that notice, along with maps, was provided to all current customers, neighboring utilities, and affected parties on November 18, 2022.

13. In Order No. 7 filed on December 29, 2022, the ALJ found the notice sufficient.
14. On June 9, 2023, Texas Water Utilities filed the affidavit of Brian Bahr, Director of Rates and Regulatory Affairs for Texas Water Utilities, attesting that notice was provided on June 8, 2023, to all owners of tracts of land of 25 acres or more that are wholly or partially located in the requested area.
15. On June 20, 2023, Texas Water Utilities filed supplemental proof of notice to landowners.
16. In Order No. 25 filed on July 27, 2023, the ALJ found the notice to landowners sufficient.

Evidentiary Record

17. In Order No. 12 filed on March 13, 2023, the ALJ admitted the following evidence into the record:
 - (a) The application and confidential attachments filed on August 1, 2022;
 - (b) Texas Water Utilities' notice of appearance of counsel and response to Commission Staff's recommendation on administrative completeness filed on September 2, 2022;
 - (c) Texas Water Utilities' proof of notice and confidential mailing list filed on November 21, 2022;
 - (d) Commission Staff's recommendation on sufficiency of notice filed on December 28, 2022;
 - (e) The maps provided as part of Texas Water Utilities' notice filed on December 28, 2022;
 - (f) Texas Water Utilities' response to Commission Staff's first request for information and confidential attachments filed on February 3, 2023;
 - (g) Texas Water Utilities' responses and objections to Commission Staff's third request for information and attachments filed on February 17, 2023; and
 - (h) Commission Staff's recommendation on the transaction filed on February 22, 2023.

18. In Order No. 14 filed on March 15, 2023, the ALJ admitted Commission Staff's confidential attachment EB-1 filed on March 14, 2023, into the record.
19. In Order No. __ filed on September __, 2023, the ALJ admitted the following additional evidence into the record:
 - (a) Texas Water Utilities' supplemental proof of notice, filed on June 9, 2023, and June 20, 2023;
 - (b) Commission Staff's recommendation on supplemental notice, filed on June 23, 2023;
 - (c) Creek Water and Texas Water Utilities' notice of completed transaction, filed on June 23, 2023, and supplemented on July 18, 2023;
 - (d) Commission Staff's recommendation on the sufficiency of the closing documents filed on July 25, 2023;
 - (e) Creek Water and Texas Water Utilities' consent forms attached to the joint supplemental motion to admit evidence, filed on September 26, 2023; and
 - (f) The final map, certificate, and tariff attached to the joint supplemental motion to admit evidence, filed on September 26, 2023.

Sale

20. In Order No. 15 filed on March 15, 2023, the ALJ approved the transaction to proceed and required the applicants to file proof that the transaction had been completed and the customer deposits, if any, had been addressed.
21. On June 23, and July 18, 2023, the applicants filed proof of transaction documents with an effective date of May 18, 2023, and confirmed that there were no customer deposits to be addressed.
22. In Order No. 25 filed on July 27, 2023, the ALJ found the closing documentation sufficient.

Texas Water Utilities' Compliance History

23. Texas Water Utilities owns and operates 106 other public water systems.

24. Texas Water Utilities has been subject to enforcement actions by the Commission, TCEQ, Texas Department of State Health Service, the Office of the Attorney General, or the Environmental Protection Agency in the past five years for non-compliance with rules, orders, or state statutes.
25. Texas Water Utilities does not have a history of continuing mismanagement or misuse of revenues as a utility provider.
26. The Commission's complaint records, which date back to 2017, show one complaint against Texas Water Utilities.
27. Texas Water Utilities demonstrated a compliance history that is adequate for approval of the proposed transaction to proceed.

Adequacy of Existing Service

28. There are currently 94 customer connections in the requested area that are being served by Creek Water and such service has been continuous and adequate.
29. The last TCEQ compliance investigation of Creek Water was on March 28, 2022. Violations were noted as a result of the investigation; however, there are no active violations in the TCEQ database.
30. The Commission's complaint records, which date back to 2017, show nine complaints against Creek Water.
31. There is no evidence in the record that Creek Water has failed to comply with any Commission or TCEQ order.
32. Texas Water Utilities included plans to improve Creek Water's water system.
33. No additional construction is necessary for Texas Water Utilities to provide service to the requested area.

Need for Additional Service

34. There are 94 existing water customers in the requested area that are receiving service from Creek Water and have an ongoing need for service.
35. This application is to transfer only existing facilities, customers, and service area.
36. There is no evidence in the record indicating a need for additional service.

Effect of Approving the Transaction and Granting the Amendment

37. All retail public utilities in the proximate area were provided notice of the transaction taking place in this application, and none filed a protest or motion to intervene.
38. There is no evidence that approval of the transaction will have any adverse effect on any other retail public utility providing service in the proximate area.
39. Creek Water is the only utility affected by this sale and transfer.
40. There will be no adverse effect on landowners in the requested area because the requested area is currently certificated.
41. Approving the sale and transaction to proceed and granting the CCN amendment will obligate Texas Water Utilities to provide continuous and adequate water service to current and future customers in the requested area.

Ability to Serve: Managerial and Technical

42. Texas Water Utilities owns and operates 106 other public water systems registered with the TCEQ.
43. Texas Water Utilities has TCEQ-licensed operators who are responsible for the operation of its public water systems.
44. Texas Water Utilities filed documentation demonstrating it is taking steps to make improvements to the water system.
45. Texas Water Utilities has the managerial and technical capability to provide continuous and adequate service to the requested area.

Feasibility of Obtaining Service from Adjacent Retail Public Utility

46. It is not feasible for an adjacent utility to provide service to the requested area because Creek Water's existing facilities possess sufficient capacity to provide continuous and adequate service.
47. Utilities within a two-mile radius were noticed and no protests, adverse comments, or motions to intervene were filed by any adjacent retail public utility in this docket.

Regionalization or Consolidation

48. It will not be necessary for Texas Water Utilities to construct a physically separate water system to serve the requested area.
49. Because the requested area will not require construction of a physically separate sewer system, consideration of regionalization or consolidation with an adjacent retail public utility is not required.

Ability to Serve: Financial Ability and Stability

50. Texas Water Utilities has a debt-service ratio of greater than 1.25, satisfying the leverage test.
51. Texas Water Utilities demonstrated it has sufficient cash available to cover any projected operations and maintenance shortages during the first five years after the completion of the proposed sale and transfer, satisfying the operations test.
52. Texas Water Utilities filed a capital improvements plan and demonstrated that it has sufficient funding to purchase the system and make planned improvements.
53. Texas Water Utilities has demonstrated the financial capability and stability to provide continuous and adequate water service.

Financial Assurance

54. There is no need to require Texas Water Utilities to provide a bond or other financial assurance to ensure continuous and adequate service.

Environmental Integrity and Effect on the Land

55. The proposed transaction will not adversely affect the environmental integrity of the land.
56. The effect on the land should be minimal as facilities are repaired and new meters are installed to provide service to the requested area.
57. The effects on environmental integrity and on the land will not be adverse to such a degree that this transaction should not be approved.

Improvement of Service or Lowering Costs to Consumers

58. Reliability and quality of water service is expected to improve under Texas Water Utilities' management.
59. No lowering of cost to customers in the requested area will result from approving this transaction.

Map, Certificate, and Tariff

60. On September 11, 2023, Commission Staff emailed the final proposed map, certificate, and tariff to the applicants.
61. On September 26, 2023, Creek Water and Texas Water Utilities filed their consent forms concurring with the final proposed map, certificate, and tariff as applicable.
62. On September 26, 2023, the final map, certificate, and tariff were filed as attachments to the joint supplemental motion to admit evidence.

Initial Rates

63. Texas Water Utilities, as an entity, is entitled to request approval to charge initial rates and service charges that are shown in the water tariff issued to Texas Water Utilities at the time the application was filed.
64. Texas Water Utilities' tariff in force for its other water systems on the date the application was filed was approved in Docket No. 52494.²
65. The rates requested by Texas Water Utilities are as follows:

Minimum Monthly Charge 5/8" Meter – \$48.37	
0 – 2,000 gallons	\$6.48 per 1,000 gallons
2,001 – 10,000 gallons	\$7.98 per 1,000 gallons
10,001 – 20,000 gallons	\$9.05 per 1,000 gallons
20,000+ gallons	\$9.64 per 1,000 gallons

Informal Disposition

66. More than 15 days have passed since the completion of notice provided in this docket.

² *Application of R&N Enterprises and Monarch Utilities I, L.P. for Sale, Transfer, or Merger of Facilities and Certificate Rights in Cooke County*, Docket No. 52494, Notice of Approval (Sept. 1, 2022).

67. No person filed a protest or motion to intervene.
68. Creek Water, Texas Water Utilities, and Commission Staff are the only parties to this proceeding.
69. No party requested a hearing and no hearing is needed.
70. Commission Staff recommended approval of the application.
71. The decision is not adverse to any party.

II. Conclusions of Law

The Commission makes the following conclusions of law.

1. The Commission has authority over this proceeding under Texas Water Code (TWC) §§ 13.041, 13.241, 13.242, 13.244, 13.246, 13.251, 13.301, and 13.3011.
2. Creek Water and Texas Water Utilities are retail public utilities as defined by TWC § 13.002(19) and 16 Texas Administrative Code (TAC) § 24.3(31).
3. The Commission processed the application as required by the TWC, the Administrative Procedure Act,³ and Commission Rules.
4. The application meets the requirements of TWC § 13.244 and 16 TAC § 24.233.
5. The request for initial rates meets the requirements of TWC § 13.3011.
6. Creek Water and Texas Water Utilities provided notice of the application in compliance with TWC §§ 13.246(a) and 13.301(a)(2) and 16 TAC § 24.239(a) through (c).⁴
7. Creek Water and Texas Water Utilities have complied with the requirements of 16 TAC §24.239(k) and (l) with respect to customer deposits.
8. Creek Water and Texas Water Utilities completed the sale within the time frame required by 16 TAC § 24.239(m).
9. After consideration of the factors in TWC § 13.246(c), and 16 TAC §§ 24.11(e), 24.227(e), and 24.239(h), Texas Water Utilities demonstrated adequate financial,

³ Tex. Gov't Code §§ 2001.001–.903.

⁴ After this application was filed, 16 TAC § 24.239 was amended, effective March 29, 2023. Accordingly, all references and citations to 16 TAC § 24.239 in this Notice of Approval are made to the version in effect at the time the application was filed.

managerial, and technical capability for providing continuous and adequate service to the requested area as required by TWC §§ 13.251 and 13.301(b) and 16 TAC § 24.239(e).

10. Texas Water Utilities demonstrated adequate financial, managerial, and technical capability for providing adequate and continuous service to the requested area as required by TWC §§ 13.241(a) and 13.301(b).
11. Regionalization or consolidation concerns under TWC § 13.241(d) do not apply in this proceeding because construction of a physically separate water or sewer system is not required.
12. It is not necessary for Texas Water Utilities to provide a bond or other financial assurance under TWC §§ 13.246(d) and 13.301(c).
13. Creek Water and Texas Water Utilities demonstrated that the sale and transfer of Creek Water's water facilities and water service area held under CCN number 11028 to Texas Water Utilities, the cancellation of Creek Water's CCN number 11028, and the amendment of Texas Water Utilities' CCN number 12983 will serve the public interest and is necessary for the service, accommodation, convenience, and safety of the public as required by TWC §§ 13.246(b) and 13.301(d).
14. Under TWC § 13.257(r) and (s), Texas Water Utilities must record a certified copy of its certificate and the approved map, along with a boundary description of the service area in the real property records of Marion County within 31 days of receiving this Notice of Approval and submit to the Commission evidence of the recording.
15. The requirements for informal disposition under 16 TAC § 22.35 have been met in this proceeding.

III. Ordering Paragraphs

In accordance with these findings of fact and conclusions of law, the Commission issues the following orders.

1. The Commission approves the sale and transfer of all Creek Water's facilities and certificated service area held under CCN number 11028 to Texas Water Utilities, as shown on the attached map.

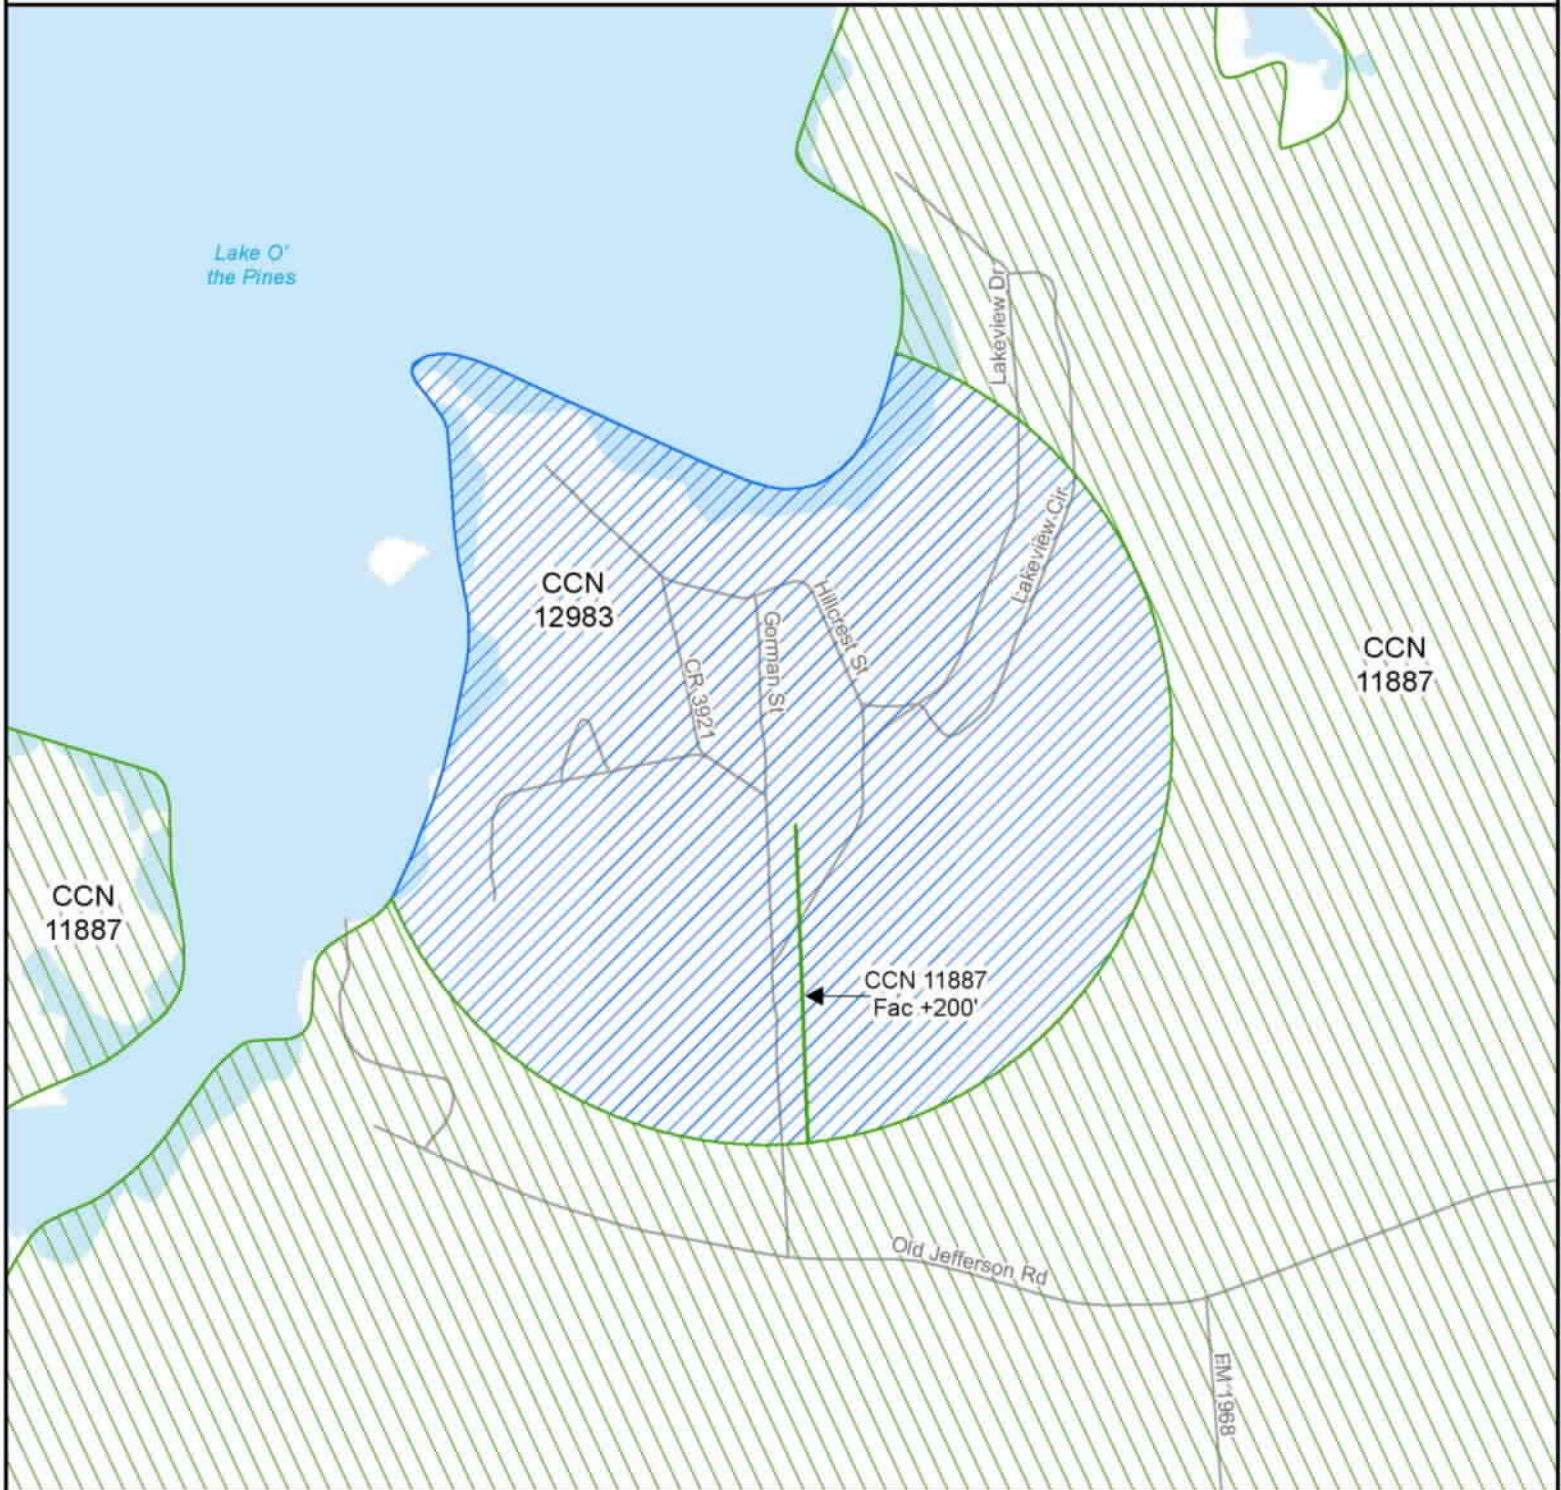

2. The Commission amends Texas Water Utilities' CCN number 12983 to include the area previously included in Creek Water's CCN number 11028, as shown on the map attached to this Notice of Approval.
3. The Commission cancels Creek Water's CCN number 11028.
4. The Commission approves the map and tariff attached to this Notice of Approval.
5. The Commission issues the certificate attached to this Notice of Approval
6. The Commission approves the initial rates requested by Texas Water Utilities to be applicable to the former customers of Creek Water as shown in the tariff attached to this Notice of Approval.
7. Texas Water Utilities must provide service to every customer and qualified applicant for service within the approved area under CCN number 12983 that requests water service and meets the terms of Creek Water's water service policies, and such service must be continuous and adequate.
8. Texas Water Utilities must comply with the recording requirements in TWC § 13.247(r) and (s) for the area in Marion County affected by the application and must submit to the Commission evidence of the recording no later than 45 days after receipt of this Notice of Approval.
9. Within ten days of the date of the Notice of Approval, Commission Staff must provide the Commission with a clean copy of the tariff approved by this Notice of Approval to be stamped Approved and retained by Central Records.
10. The Commission denies all other motions and any other requests for general or specific relief, if not expressly granted herein.

Signed at Austin, Texas the _____ day of September, 2023.

Passthrough for Bavarian Hills, Cascade Mobile Home Park, Coolcrest Water System, Country Springs Water Company, Garden Oaks, Oaks North Mobile Home Estates, Oak Village North and Stagecoach Hills

Green Valley Special Utility District (SUD).....\$0.3278 per 1,000 gallons

$$G = (Y/GP)/(1 - L)$$

Where:

G = pass-through gallonage charge

Y = cost of purchased water per Green Valley SUD for the most recent 12-month period

GP = total gallons purchased and produced (from well) for the most recent 12-month period

The pass-through gallonage charge must be trued up every twelve months, with a maximum line loss of 0.15.

San Antonio Water System (SAWS).....\$0.7025 per month

$$M = B/C$$

Where:

M = pass-through monthly base charge

B = base fee from San Antonio Water System

C = number of customers at the beginning of the billing period for which the pass-through rate takes effect

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

SECTION 1.0 RATE SCHEDULE (Continued)

Passthrough for Cascade Mobile Home Park

Cow Creek Groundwater Conservation District (GCD).....\$0.4125 per month

$M = Y/C$

Where:

M = pass-through monthly base charge

Y = cost of water production per Cow Creek GCD for the upcoming 12-month period/12

C = number of customers at the beginning of the pass-through period

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

Passthrough for Coolcrest Water System

Edwards Aquifer Authority.....\$2.5202 per month

$M = F/C$

Where:

M = pass-through monthly charge

F = management fees from Edwards Aquifer Authority for the year/12

C = number of customers at the beginning of the billing period for which the pass-through rate takes effect

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

Passthrough for Bavarian Hills, Country Springs Water Company, Oaks North Mobile Home Estates, and Stagecoach Hills

Trinity Glen Rose GCD.....\$0.1082 per 1,000 gallons

$G = B/(1 - L)$

Where:

G = gallonage charge

B = per thousand gallon charge from Trinity Glen Rose GCD

L = system average line loss for preceding 12 months, not to exceed 0.15

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

Passthrough for Oak Village North

Comal Trinity GCD.....\$0.0722 per 1,000 gallons

$G = B/(1 - L)$

Where:

G = gallonage charge

B = per thousand gallon charge from Comal Trinity GCD

L = system average line loss for preceding 12 months, not to exceed 0.15

The pass-through charges must be trued up every 12 months, with a maximum line loss of 0.15.

SECTION 1.0 RATE SCHEDULE (Continued)

Passthrough for Enchanted River Estates, Oakview Water System, Rim Rock Ranch, River Bend, and Windmill Ranch Subdivision

Canyon Lake.....\$10.6670 per month

$$B = Y/C$$

Where:

B = monthly base charge

Y = cost of purchased water per Canyon Lake for the upcoming 12-month period

C = number of customers at the beginning of the billing period for which pass-through rate takes effect

$$B = \$9,696/909 = \$10.6670 \text{ per month}$$

The pass-through charges must be trued up every 12 months, with a maximum line loss of 0.15.

Passthrough for Rim Rock Ranch and Windmill Ranch Subdivision

Comal Trinity GCD.....\$0.0722 per 1,000 gallons

$$G = B/(1 - L)$$

Where:

G = gallonage charge

B = per thousand gallon charge from Comal Trinity GCD

L = system average line loss for preceding 12 months, not to exceed 0.15

The pass-through charges must be trued up every 12 months, with a maximum line loss of 0.15.

Passthrough for Cedar Springs MHP, Center Point, Heritage Park Water System, Hills and Dales, Platten Creek Water System, Rocky Creek Subdivision Water System, Southern Hills, Verde Park Estates, Vista Hills, Woodhaven Mobile Home Park, Oak Ridge Estates Water System, and Windwood Oaks Water System

Raymond Jagge Lease.....\$0.1481 per month

$$M = [R/12]/C$$

Where:

M = monthly base charge

R = yearly water right lease fee by Raymond Jagge

C = customers at the beginning of the billing period for which the pass-through rate takes effect

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15

SECTION 1.0 RATE SCHEDULE (Continued)

Passthrough for Platten Creek Water System

Cow Creek GCD.....\$0.3604 per month

$$M = Y/C$$

Where:

M = pass-through monthly base charge

Y = cost of water production per Cow Creek GCD for the upcoming 12-month period/12

C = number of customers at the beginning of the billing period for which the pass-through rate takes effect

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15

Passthrough for Rocky Creek Subdivision Water System

Edwards Aquifer Authority.....\$1.7949 per month

$$M = F/C$$

Where:

M = pass-through monthly charge

F = management fees from Edwards Aquifer Authority for the year/12

C = number of customers at the beginning of the billing period for which the pass-through rate takes effect

CALCULATION:

$$M = (\$840/12)/C$$

$$M = \$70/C$$

$$M = \$70.00/39 = \$1.7949$$

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

Passthrough for Westwood Water System

Raymond Jagge Lease.....\$0.1481 per month

$$M = (R/12)/C$$

Where:

M = monthly base charge

R = yearly water right lease fee by Raymond Jagge

C = customers at the beginning of the billing period for which the pass-through rate takes effect

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

SECTION 1.0 RATE SCHEDULE (Continued)

Passthrough for Huntington Estates

Barton Springs Edwards Aquifer.....\$2.0569 per month

$G = T/C$

$T = ((R \times P) + F)/12$

Where:

G = pass-through charge, rounded to the nearest one cent

T = monthly charge to utility

C = number of customers at the beginning of the billing period for which the pass-through rate takes effect

R = gallonage charge (per 1,000 gallons)

P = permitted gallonage (in thousands of gallons)

F = annual permit fee

The pass-through charges must be trued up every twelve months, with a maximum line loss of 0.15.

Passthrough for Spring-Cypress Shopping Center and Target Center

North Harris County Regional Water Authority Pumpage Fees.....\$4.60 per 1,000 gallons
(Tariff Control No. 54051)

Passthrough for Cedar Bayou Park

Baytown Water Authority purchase water fee increase.....\$3.25 per 1,000 gallons
(Tariff Control No. 54051)

Passthrough for Cedar Bayou Park, Fairview Acres Subdivision, Glenwood Subdivision, Cedar Bayou Estates Homeowners Association Inc., Peterson Place Subdivision, and Rollan Heights Subdivision

Baytown Area Water Authority fee.....\$0.32 per 1,000 gallons
(Tariff Control No. 54051) (included in base gallonage charge)

The utility's cost attributable to annual fee, pumpage fee and/or consumption-based fee from the Baytown Area Water Authority and/or other such governmental authority shall be passed through to all customers affected by such fee using the following calculations:

Annual Fee:

Monthly minimum charge + (Annual Fee / Number of Customers affected) / 12 months

Volume Charge:

Monthly gallonage charge per 1,000 gallons + (Increase or decrease in pumpage fee X 1.15)

To implement or modify the Pass Through Adjustment Clause, the utility must comply with all notice requirements of 16 TAC § 24.25(b)(2)(F)(ii).

Example of a Pass Through Provision:

SECTION 1.0 RATE SCHEDULE (Continued)

Adjusted Gallonage Rate (AG) = $G + [B/(1 - L)]$, Where:

AG = adjusted gallonage charge, rounded to nearest one cent;

G = approved gallonage charge, per 1,000 gallons;

B = change in fee (per 1,000 gallons);

L = water or sewer line loss for preceding 12 months, not to exceed 0.15 (15%)

Passthrough for Aldine Village - PWS #1010931 Subdivision Only

City of Houston Groundwater Reduction Plan Fee.....\$1.38 per 1,000 gallons
(Tariff Control No. 54051)

Passthrough for Cypress Hill - PWS #1011792 Subdivision Only

North Harris County Regional Water Authority Groundwater Reduction Plan Fee.....\$4.60 per 1,000
(Tariff Control No. 54051) gallons

SECTION 1.0 RATE SCHEDULE (Continued)

Texas Water Utilities (Beacon Bay Marina and RV Park)

<u>Meter Size</u>	<u>Monthly Minimum Charge</u> (Residential meters include <u>1,000</u> gallons)	<u>Gallage Charge</u>
Residential 5/8" Meters	<u>\$36.50</u>	<u>\$3.30</u> per 1,000 gallons all usage
Beacon Bay RV Park	<u>\$85.00</u>	flat rate each meter

REGULATORY ASSESSMENT 1.0%
 PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL.

FORM OF PAYMENT: The utility will accept the following forms of payment:

Cash X, Check X, Money Order X, MasterCard X, Visa X, Electronic Fund Transfer X
 THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENT MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH PAYMENTS. AT THE CUSTOMER'S OPTION, ANY BILLING TRANSACTION OR COMMUNICATION MAY BE PERFORMED ON THE INTERNET. THIS INCLUDES THE UTILITY SENDING PAPERLESS BILLS BY EMAIL.

Section 1.02 - Miscellaneous Fees

TAP FEE Actual Cost
 TAP FEE IS THE UTILITY'S ACTUAL COST IN ACCORDANCE WITH COMMISSION RULES.

RECONNECTION FEE

THE RECONNECT FEE WILL BE CHARGED BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS BEEN DISCONNECTED FOR THE FOLLOWING REASONS:

- a) Non-payment of bill \$25.00
 - b) Customer's request \$50.00
- Or other reasons listed under section 2.0 of this tariff

TRANSFER FEE \$45.00
 THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

LATE CHARGE 10% of the delinquent bill
 A ONE-TIME PENALTY MAY BE MADE ON DELINQUENT BILLS BUT MAY NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

RETURNED CHECK CHARGE \$25.00

CUSTOMER DEPOSIT – RESIDENTIAL \$50.00

CUSTOMER DEPOSIT – NON-RESIDENTIAL 1/6TH EST. ANNUAL BILL

METER TEST FEE (actual cost of testing the meter up to) \$25.00
 THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS A SECOND METER TEST WITHIN A TWO-YEAR PERIOD AND THE TEST INDICATES THAT THE METER IS RECORDING ACCURATELY.

SEASONAL RECONNECTION FEE

BASE RATE FOR METER SIZE TIMES NUMBER OF MONTHS OFF THE SYSTEM NOT TO EXCEED SIX MONTHS WHEN LEAVE AND RETURN WITHIN A TWELVE-MONTH PERIOD.

SECTION 1.0 RATE SCHEDULE (Continued)

METER RELOCATION FEE Actual cost to relocate meter
THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS RELOCATION OF AN EXISTING METER.

METER CONVERSION FEE Actual cost to convert meter
THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS CHANGE OF SIZE OF AN EXISTING METER OR CHANGE IS REQUIRED BY MATERIAL CHANGE IN CUSTOMER'S SERVICE DEMAND.

LINE EXTENSION AND CONSTRUCTION CHARGES:
REFER TO SECTION 2.12 SPECIFIC UTILITY SERVICE RULES AND SECTION 3.02 UTILITY SPECIFIC EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES.

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE CLAUSE:
INCREASES IN INSPECTION FEES AND WATER TESTING COSTS IMPOSED BY STATE OR FEDERAL LAW MAY BE PASSED THROUGH AS AN ADJUSTMENT TO THE MONTHLY BASE RATE CHARGE UNDER THE TERMS AND CONDITIONS OF 16 TAC § 24.25(b)(2)(G) AFTER NOTICE TO CUSTOMERS AND UPON WRITTEN APPROVAL BY THE PUC.

SUPPLEMENTAL EMERGENCY SERVICE FEE
APPLICABLE TO NONRESIDENTIAL WATER SERVICE CUSTOMERS THAT REQUIRE SUPPLEMENTAL SERVICE OVER AND ABOVE THEIR EXISTING WATER SERVICE FROM TIME TO TIME. USAGE TO BE DETERMINED BY CUSTOMER. THE MINIMUM DIAMETER FOR SUPPLEMENTAL SERVICE METER SHALL BE 2 INCHES.

MONTHLY SUPPLEMENTAL SERVICE RATE \$14.64
PER INCH DIAMETER OF SERVICE CONNECTION PIPE AND USAGE IS BILLED AT HIGHEST TIER.

DAMAGE OR SERVICE DIVERSION FEE Actual Cost
ONE-TIME CHARGE, PER OCCURRENCE, FOR ALL LABOR, MATERIAL, EQUIPMENT, AND ALL OTHER ACTUAL COSTS NECESSARY TO REPAIR OR REPLACE ALL EQUIPMENT DAMAGED DUE TO NEGLIGENCE, METER TAMPERING OR BYPASSING, OR SERVICE DIVERSION.

WATER PASS-THROUGH GALLONAGE CHARGE ADJUSTMENT:
CHANGES IN FEES IMPOSED BY ANY NON-AFFILIATED THIRD PARTY WATER SUPPLIER OR UNDERGROUND WATER DISTRICTS HAVING JURISDICTION OVER THE UTILITY SHALL BE CHARGED THROUGH THE WATER PASS-THROUGH GALLONAGE CHARGE ADJUSTED ANNUALLY ACCORDING TO THE FOLLOWING TRUE-UP FORMULA INTENDED TO BALANCE REVENUE FROM THE CHARGE AGAINST ACTUAL PAYMENTS AND COLLECTIONS FROM THE PRIOR YEAR:

$$WPC = ((TAC - BAC) + TUC) / TWS$$

Where:

TAC = Total Annual Costs for 12-month period

BAC = Baseline Annual Purchased Water Costs from last Rate Application

TUC = True-up Costs either Over Collections or Under Collections

TWS = Total Water Sales for 12 months

The WPC must be trued up and adjusted every twelve months.

To implement, all notice requirements must be met. The utility may begin to charge the new filed WPC on the proposed effective date in the notice. Implementation of this WPC adjustment provision shall be governed by 16 TAC § 24.25(h).

SECTION 1.0 RATE SCHEDULE (Continued)

TEMPORARY WATER RATE:

Unless otherwise superseded by PUC order or rule, if the Utility is ordered by a court or governmental body of competent jurisdiction to reduce its pumpage, production or water sales, the Utility shall be authorized to increase its approved gallonage charge according to the formula:

$$TGC = cgc + \frac{(pr)(cgc)(r)}{(1.0-r)}$$

Where:

TGC = temporary gallonage charge

cgc = current gallonage charge

r = water use reduction expressed as a decimal fraction (the pumping restriction)

pr = percentage of revenues to be recovered expressed as a decimal fraction. For this tariff, pr shall equal 0.5.

To implement the Temporary Water Rate, the Utility must comply with all notice and other requirements of 16 TAC § 24.25(j).

FRANCHISE FEE PASS-THROUGH CLAUSE:

Charges a municipality makes for use of streets and alleys pursuant to Tax Code §182.025 or other applicable state law not to exceed 2% or the actual amount charged by the municipality shall be passed through utility-wide as an adjustment to the water gallonage charge according to the following formula:

$$AG = G + B,$$

Where:

AG = adjusted gallonage charge, rounded to the nearest one cent;

G = approved gallonage charge (per 1,000 gallons); and

B = projected franchise fees payable (per 1,000 gallons).

SURCHARGE FOR RATE-CASE EXPENSE (Docket No. 50944):

To be collected from all customers subject to Commission Docket No. 50944. It will be collected through a monthly surcharge of \$0.65 per water connection and \$0.65 per wastewater connection. The monthly surcharge shall cease when \$525,000 has been recovered in total from both Texas Water Utilities' water and wastewater customers. If the full amount of \$525,000 has not been recovered by June 1, 2023, bills rendered after June 1, 2023, shall continue to contain a surcharge not to exceed \$0.65 per water connection and \$0.65 per wastewater connection until the remaining balance per connection is collected.

SURCHARGE FOR RATE-CASE EXPENSE (Docket No. 47736):

To be collected from all customers subject to Commission Docket No. 47736, in the following systems: Enchanted River Estates, Oakview Water System, Rim Rock, River Bend, Windmill Ranch Subdivision, Bavarian Hills, Cascade Mobile Home Park, Coolcrest Water System, Country Springs Water Company, Garden Oaks, Oaks North Mobile Home Park, Oak Village North, Stagecoach Hills, Huntington Estates, Cedar Springs MHP, Center Point, Heritage Park Water System, Hills & Dale, Oak Ridge Estates Water System, Platten Creek Water System, Rocky Creek Subdivision Water System, Southern Hills, Verde Park, Vista Hills, Woodhaven Mobile Home Park, Windwood Oaks Water System. It will be collected through a monthly surcharge of \$4.56 per connection. The monthly surcharge shall cease when \$330,000 has been recovered. If the full amount of \$330,000 has not been recovered by May 31, 2022, bills rendered after June 1, 2022, shall continue to contain a surcharge not to exceed \$4.56 until the remaining balance per connection is collected.

SECTION 1.0 RATE SCHEDULE

Section 1.01 - Rates

<u>Meter Size</u>	<u>Monthly Minimum Charge</u>	<u>Gallonage Charge</u>
5/8" or 3/4"	\$14.50 (Includes 0 gallons)	\$1.75 per 1,000 gallons
1"	\$24.22	same for all meter sizes
1½"	\$48.29

3"	\$145.00	
4"	\$241.72	

FORM OF PAYMENT: The utility will accept the following forms of payment:

Cash , Check , Money Order , Credit Card , Other (specify) _____
 THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENTS MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH PAYMENTS.

REGULATORY ASSESSMENT 1.0%
 PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL AND TO REMIT THE FEE TO THE TCEQ.

Section 1.02 - Miscellaneous Fees

TAP FEE \$400.00
 TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD RESIDENTIAL 5/8" or 3/4" METER. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED ON THIS TARIFF.

TAP FEE (Unique costs) Actual Cost
 FOR EXAMPLE, A ROAD BORE FOR CUSTOMERS OUTSIDE OF SUBDIVISIONS OR RESIDENTIAL AREAS.

TAP FEE (Large meter) Actual Cost
 TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR METER SIZE INSTALLED.

METER RELOCATION FEE Actual Relocation Cost, Not to Exceed Tap Fee
 THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS THAT AN EXISTING METER BE RELOCATED.

METER TEST FEE \$25.00
 THIS FEE WHICH SHOULD REFLECT THE UTILITY'S COST MAY BE CHARGED IF A CUSTOMER REQUESTS A SECOND METER TEST WITHIN A TWO-YEAR PERIOD AND THE TEST INDICATES THAT THE METER IS RECORDING ACCURATELY. THE FEE MAY NOT EXCEED \$25.

RECONNECTION FEE

THE RECONNECT FEE MUST BE PAID BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS BEEN DISCONNECTED FOR THE FOLLOWING REASONS (OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF):

- a) Nonpayment of bill (Maximum \$25.00) \$25.00
- b) Customer's request that service be disconnected \$40.00

Orchard Crossing

(Formerly Utilities Investment Company, Inc.)

SECTION 1.0 RATE SCHEDULE (Continued)

TRANSFER FEE..... \$25.00

THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

LATE CHARGE (EITHER \$5.00 OR 10% OF THE BILL)..... \$5.00

PUC RULES ALLOW A ONE-TIME PENALTY TO BE CHARGED ON DELINQUENT BILLS. A LATE CHARGE MAY NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

RETURNED CHECK CHARGE..... \$20.00

RETURNED CHECK CHARGES MUST BE BASED ON THE UTILITY'S DOCUMENTABLE COST.

CUSTOMER DEPOSIT RESIDENTIAL (Maximum \$50)..... \$50.00COMMERCIAL & NON-RESIDENTIAL DEPOSIT..... 1/6TH OF ESTIMATED ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE:

WHEN AUTHORIZED IN WRITING BY PUC AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND WATER TESTING. [16 TAC § 24.25(b)(2)(G)]

LINE EXTENSION AND CONSTRUCTION CHARGES:

REFER TO SECTION 3.0--EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

UNDERGROUND WATER DISTRICT FEE PASS THROUGH CLAUSE:

CHANGES IN FEES IMPOSED BY UNDERGROUND WATER DISTRICTS HAVING JURISDICTION OVER THE ORCHARD CROSSING SUBDIVISION SHALL BE PASSED THROUGH AS AN ADJUSTMENT TO THE WATER GALLONAGE CHARGE ACCORDING TO THE FORMULA:

AG = (G + B) + L(G+B), where:

AG = adjusted gallonage charge, rounded to nearest one cent

G = approved per 1,000 gallons gallonage charge

B = change in district fee per 1,000 gallons

L = system average line loss for preceding 12 months, not to exceed 15%

COMMERCIAL & NON-RESIDENTIAL 1/6TH OF ESTIMATED ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE \$25.00

WHEN AUTHORIZED IN WRITING BY PUC AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND OTHER WATER TESTING. [16 TEXAS ADMINISTRATIVE CODE (TAC) § 24.25(b)(2)(G)].

LINE EXTENSION AND CONSTRUCTION CHARGES

REFER TO SECTION 3.0—EXTENSION POLICY FOR TERMS, CONDITIONS AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

PASS THROUGH ADJUSTMENT CLAUSE

Changes in fees imposed by any non-affiliated third party water supplier or underground water district having jurisdiction over the Utility shall be passed through as an adjustment to the water gallonage charge according to the following formula:

$R = G / (1 - L)$, Where:

- R = proposed pass-through rate;
- G = new gallonage charge from source (per 1000 gallons);
- L = actual line loss for preceding 12 months, not to exceed 0.15

SECTION 1.0 RATE SCHEDULE (Continued)

<u>Meter Size</u>	<u>Monthly Minimum Charge</u>	<u>Gallonge Charge</u>
5/8" or 3/4"	<u>\$26.00</u> (Includes 1,000 gallons)	<u>\$4.00</u> per 1,000 gallons Over the minimum

FORM OF PAYMENT: The utility will accept the following forms of payment:

Cash X, Check X, Money Order X, Credit Card X, Other (specify) _____
THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENTS
MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH
PAYMENTS.

REGULATORY ASSESSMENT 1.0%
PUCT RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL
AND TO REMIT FEE TO THE TCEQ.

Section 1.02 - Miscellaneous Fees

TAP FEE \$600.00
TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD
RESIDENTIAL CONNECTION. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED ON
THIS TARIFF.

TAP FEE (Unique Costs) Actual Cost
FOR EXAMPLE, A ROAD BORE FOR CUSTOMERS OUTSIDE OF SUBDIVISIONS OR RESIDENTIAL AREAS.

TAP FEE (Large Meter) Actual Cost
TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR TAP SIZE INSTALLED.

METER RELOCATION FEE Actual Relocation Cost, Not to Exceed Tap Fee
THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS THAT AN EXISTING METER BE RELOCATED.

SECTION 1.0 RATE SCHEDULE (Continued)

METER TEST FEE.....\$25.00

THIS FEE WHICH SHOULD REFLECT THE UTILITY'S COST MAY BE CHARGED IF A CUSTOMER REQUESTS A SECOND METER TEST WITHIN A TWO-YEAR PERIOD AND THE TEST INDICATES THAT THE METER IS RECORDING ACCURATELY. THE FEE MAY NOT EXCEED \$25.

RECONNECTION FEE

THE RECONNECT FEE MUST BE PAID BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS BEEN DISCONNECTED FOR THE FOLLOWING REASONS (OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF):

- a) Non-payment of bill (Maximum \$25.00).....\$25.00
- b) Customer's request that service be disconnected.....\$25.00

TRANSFER FEE.....\$25.00

THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

LATE CHARGE (EITHER \$5.00 OR 10% OF THE BILL).....\$5.00

PUC RULES ALLOW A ONE-TIME PENALTY TO BE CHARGED ON DELINQUENT BILLS. A LATE CHARGE MAY NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

RETURNED CHECK CHARGE.....\$20.00

RETURNED CHECK CHARGES MUST BE BASED ON THE UTILITY'S DOCUMENTABLE COST.

CUSTOMER DEPOSIT RESIDENTIAL (Maximum \$50).....\$50.00

COMMERCIAL & NON-RESIDENTIAL.....1/6TH OF ESTIMATED ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE

WHEN AUTHORIZED IN WRITING BY PUC AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND OTHER WATER TESTING. [16 TEXAS ADMINISTRATIVE CODE (TAC) § 24.25(b)(2)(G)].

LINE EXTENSION AND CONSTRUCTION CHARGES

REFER TO SECTION 3.0—EXTENSION POLICY FOR TERMS, CONDITIONS AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

SECTION 2.0 - SERVICE RULES AND REGULATIONS

Section 2.01 – Rules

The Utility will have the most current Public Utility Commission of Texas (PUC or Commission) Chapter 24 Rules available at its office for reference purposes. The Rules and this tariff shall be available for public inspection and reproduction at a reasonable cost. The latest Rules or Commission approved changes to the Rules supersede any rules or requirements in this tariff.

Section 2.02 - Application for and Provision of Water Service

All applications for service will be made on the Utility's standard application or contract form (attached in the Appendix to this tariff) and will be signed by the applicant before water service is provided by the Utility. A separate application or contract will be made for each service location.

After the applicant has met all the requirements, conditions, and regulations for service, the Utility will install tap, meter, and utility cut-off valve and/or take all necessary actions to initiate service. The Utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the Utility will provide the applicant with a written explanation of the construction required and an expected date of service.

Where service has previously been provided, service will be reconnected within one working day after the applicant has met the requirements for reconnection.

The customer will be responsible for furnishing and laying the necessary customer service pipe from the meter location to the place of consumption. Customers may be required to install a customer owned cut-off valve on the customer's side of the meter or connection.

Section 2.03 - Refusal of Service

The Utility may decline to serve an applicant until the applicant has complied with the regulations of the regulatory agencies (state and municipal regulations) and for the reasons outlined in the PUC Rules. In the event that the Utility refuses to serve an applicant, the Utility will inform the applicant in writing of the basis of its refusal. The Utility is also required to inform the applicant that a complaint may be filed with the Commission.

Section 2.04 - Customer Deposits

If a residential applicant cannot establish credit to the satisfaction of the Utility, the applicant may be required to pay a deposit as provided for in Section 1.02 of this tariff. The Utility will keep records of the deposit and credit interest in accordance with PUC Rules.

Residential applicants 65 years of age or older may not be required to pay deposits unless the applicant has an outstanding account balance with the Utility or another water or sewer utility that accrued within the last two years.

Nonresidential applicants who cannot establish credit to the satisfaction of the Utility may be required to make a deposit that does not exceed an amount equivalent to one-sixth of the estimated annual billings.

SECTION 2.0 - SERVICE RULES AND REGULATIONS (Continued)

Refund of deposit. - If service is not connected, or after disconnection of service, the Utility will promptly refund the customer's deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. The Utility may refund the deposit at any time prior to termination of utility service but must refund the deposit plus interest for any residential customer who has paid 18 consecutive billings without being delinquent. Deposits from non-residential customers may be held as long as that customer takes service.

Section 2.05 - Meter Requirements, Readings, and Testing

All water sold by the Utility will be billed based on meter measurements. The Utility will provide, install, own, and maintain meters to measure amounts of water consumed by its customers. One meter is required for each residential, commercial, or industrial facility in accordance with the PUC Rules.

Service meters will be read at monthly intervals and as nearly as possible on the corresponding day of each monthly meter reading period unless otherwise authorized by the Commission.

Meter tests. The Utility will, upon the request of a customer, and, if the customer so desires, in his or her presence or in that of his or her authorized representative, make without charge a test of the accuracy of the customer's meter. If the customer asks to observe the test, the test will be made during the Utility's normal working hours at a time convenient to the customer. Whenever possible, the test will be made on the customer's premises, but may, at the Utility's discretion, be made at the Utility's testing facility. If within a period of two years the customer requests a new test, the Utility will make the test, but if the meter is found to be within the accuracy standards established by the American Water Works Association, the Utility will charge the customer a fee that reflects the cost to test the meter up to a maximum \$25 for a residential customer. Following the completion of any requested test, the Utility will promptly advise the customer of the date of removal of the meter, the date of the test, the result of the test, and who made the test.

Section 2.06 - Billing

Bills from the Utility will be mailed monthly unless otherwise authorized by the PUC. The due date of the bills for utility service will be at least sixteen (16) days from the date of issuance. If the customer is a state agency, the due date for the bill may not be less than 30 days after issuance, unless otherwise agreed to by the agency. The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the Utility will constitute proof of the date of issuance. At the customer's option, bills may be sent in a paperless, electronic form by email. The date of the email will constitute the date of issuance. Payment for utility service is delinquent if full payment, including late fees and the regulatory assessment, is not received at the Utility or the Utility's authorized payment agency by 5:00 p.m. on the due date. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next workday after the due date.

A late penalty of 10% of the delinquent bill will be charged on bills received after the due date. The penalty on delinquent bills will not be applied to any balance to which the penalty was applied in a previous billing. The Utility must maintain a record of the date of mailing to charge the late penalty.

Each bill will provide all information required by the PUC Rules. For each of the systems it operates, the Utility will maintain and note on the monthly bill a telephone number (or numbers) which may be reached by a local call by customers.

At the Utility's option, a toll-free telephone number or the equivalent may be provided. In the event of a dispute between a customer and the Utility regarding any bill for utility service, the

SECTION 2.0 – SERVICE RULES AND REGULATIONS (Continued)

Utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the Utility will inform the customer that a complaint may be filed with the Commission.

Section 2.07 - Service Disconnection

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered.

The Utility may offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement has not been entered into within 30 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with the PUC Rules.

Section 2.08 - Reconnection of Service

Utility service may also be disconnected without notice for reasons as described in the PUC Rules.

Utility personnel must be available to collect payments and to reconnect service on the day of and the day after any disconnection of service unless service was disconnected at the customer's request or due to a hazardous condition.

Service will be reconnected within 36 hours after the past due bill and any other outstanding charges are paid or correction of the conditions which caused service to be disconnected.

Section 2.09 - Service Interruptions

The Utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the Utility will re-establish service within the shortest possible time. Except for momentary interruptions due to automatic equipment operations, the Utility will keep a complete record of all interruptions, both emergency and scheduled and will notify the Commission in writing of any service interruptions affecting the entire system or any major division of the system lasting more than four hours. The notice will explain the cause of the interruptions.

Prorated Bills - If service is interrupted or seriously impaired for 24 consecutive hours or more, the Utility will prorate the monthly base bill in proportion to the time service was not available to reflect this loss of service.

Section 2.10 - Quality of Service

The Utility will plan, furnish, and maintain production, treatment, storage, transmission, and distribution facilities of sufficient size and capacity to provide a continuous and adequate supply of water for all reasonable consumer uses. Unless otherwise authorized by the Commission, the Utility will maintain facilities as described in the TCEQ Rules and Regulations for Public Water Systems.

Section 2.11 - Customer Complaints and Disputes

If a customer or applicant for service lodges a complaint, the Utility will promptly make a suitable investigation and advise the complainant of the results. Service will not be disconnected pending completion of the investigation. If the complainant is dissatisfied with the Utility's response, the Utility must advise the complainant that he has recourse through the PUC complaint process. Pending

SECTION 2.0 – SERVICE RULES AND REGULATIONS (Continued)

resolution of a complaint, the Commission may require continuation or restoration of service.

The Utility will maintain a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint and the adjustment or disposition thereof, for a period of two years after the final settlement of the complaint.

SECTION 2.20 – SPECIFIC UTILITY SERVICE RULES AND REGULATIONS

This section contains specific utility service rules in addition to the rules previously listed under Section 2.0. It must be reviewed and approved by the Commission and in compliance with PUC Rules to be effective.

The Utility adopts the administrative rules of the PUC, as the same may be amended from time to time, as its company specific service rules and regulations. These rules will be kept on file at the Company's offices for customer inspection during regular business hours. In the event of a conflict between the PUC's amended rules and the provisions of this tariff, the amended rules shall prevail. Where necessary, any conflicting provision of this tariff shall be deemed to have been superseded by the PUC rule in question to the degree that the Utility may conduct its lawful business in conformance with all requirements of said rule.

All references in Utility's tariff, service contracts, or PUC rules shall mean the Utility's offices at 12535 Reed Road, Sugar Land, TX 77478. Customers may make payments, apply for service, and report service problems at the office. Use of the term "business office" shall refer to this office.

All payments for utility service shall be delivered or mailed to the Utility's business office. If the business office fails to receive payment before the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled. Utility service crews shall not be allowed to collect payments on customer accounts in the field.

Payment of an account by any means that has been dishonored and returned by the payor or payee's bank shall be deemed to be delinquent. All returned payments must be redeemed with a valid money order. If a customer has two returned payments within a twelve-month period, the customer shall be required to pay a deposit if one has not already been paid.

Customers shall not be allowed to use the Utility's cutoff valve on the Utility's side of the meter. Existing customers may install cutoff valves on their side of the meter and are encouraged to do so. All new customers must install customer-owned and -maintained cutoff valves on their side of the meter.

No water connection from any public drinking water supply system shall be made to any establishment where an actual or potential contamination or system hazard exists without an air gap separation between the drinking water supply and the source of potential contamination. The containment air gap is sometimes impractical and, instead, reliance must be placed on individual "internal" air gaps or mechanical backflow prevention devices.

Under these conditions, additional protection shall be required at the meter in the form of a backflow prevention device (in accordance with AWWA Standards C510 and C511, and AWWA Manual M14) on those establishments handling substances deleterious or hazardous to the public health. The water purveyor need not require backflow protection at the water service entrance if an adequate cross-connection control program is in effect that includes an annual inspection and testing by a certified backflow prevention device tester. It will be the responsibility of the water purveyor to ensure that these requirements are met.

Customer shall be liable for any damage or injury to utility-owned property or personnel shown to be caused by the customer, his invitees, his agents, his employees, or others directly under his control.

Limitation on Product/Service Liability - Public water utilities are required to deliver water to the customer's side of the meter or service connection that meets the potability and pressure standards of the TCEQ. The Utility will not accept liability for any injury or damage to individuals or their property

SECTION 2.20 – SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Continued)

occurring on the customer's side of the meter when the water delivered meets these state standards. The Utility makes no representations or warranties (expressed or implied) that customer's appliances will not be damaged by disruptions of or fluctuations in water service whatever the cause.

The Utility will not accept liability for injuries or damages to persons or property due to disruption of water service caused by: (1) acts of God, (2) acts of third parties not subject to the control of the Utility if the Utility has undertaken such preventive measures as are required by PUC rules, (3) electrical power failures in water systems not required by TCEQ rule to have auxiliary power supplies, or (4) termination of water service pursuant to the Utility's tariff and the PUC's rules. The Utility is not required by law and does not provide fire prevention or fire-fighting services. The Utility therefore does not accept liability for fire-related injuries or damages to persons or property caused or aggravated by the availability (or lack thereof) of water or water pressure (or lack thereof) during fire emergencies. The Utility will accept liability for any injury or damage to individuals or their property directly caused by defective utility plant (leaking water lines or meters) or the repairs to or construction of the Utility's facilities.

If the services of a registered professional engineer are required as a result of an application for service received by the Utility for service to that applicant's service extension only, the Utility and the applicant will select such engineer, and the applicant shall bear all expenses incurred therein.

If an applicant requires service other than the standard service provided by the Utility, such applicant will be required to pay all expenses incurred by the Utility in excess of the expenses that would be incurred in providing the standard service and connection. Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction (as may be allowed by PUC rule) for the actual costs of any additional facilities required to maintain compliance with the TCEQ minimum design criteria for water production, treatment, pumping storage and transmission.

Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be entitled to a written explanation of such costs before payment and/or commencement of construction.

If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant, or existing customer, shall have the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the Utility's rates in that portion of the Utility's service area in which the applicant's or existing customer's property(ies) is located.

Tap fees may be increased by unique costs not normally incurred as may be permitted by 16 TAC § 24.163(a)(1)(C).

The Utility adopts the Uniform Plumbing Code pursuant to 30 TAC § 290.46(i). The piping and other equipment on the premises furnished by the customer will be maintained by the customer at all times in conformity with the requirements of the TCEQ, the Uniform Plumbing Code and with the service rules and regulations of the Utility. The customer will bring out his service line to his property line at the point on the customer's property mutually acceptable to the customer and the Utility subject to such requirements as may exist by PUC rule. No water service smaller than 5/8" will be connected. No pipe or pipe fitting which contains more than 8.0% lead can be used for the installation or repair of plumbing at any connection, which provides water for human use. No solder or flux, which contains more than 0.2% lead, can be used at any connection that provides water for human use.

SECTION 2.20 – SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Continued)

The Utility will have the right of access to the customer's premises at all times reasonable for the purpose of installing, testing, inspecting or repairing water mains or other equipment used in connection with its provision of water service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of the Utility system including inspecting the customer's plumbing for code, plumbing or tariff violations. The customer shall allow the Utility and its personnel access to the customer's property to conduct any water quality tests or inspections required by law. Unless necessary to respond to equipment failure, leak or other condition creating an immediate threat to public health and safety or the continued provision of adequate utility service to others, such entry upon the customer's property shall be during normal business hours. The customer may require any Utility representative, employee, contractor, or agent seeking to make such entry identify themselves, their affiliation with the Utility, and the purpose of their entry.

Threats to or assaults upon Utility personnel shall result in criminal prosecution.

Except in cases where the customer has a contract with the Utility for reserve or auxiliary service, no other water service will be used by the customer on the same installation in conjunction with the Utility's service, either by means of a crossover valve or any other connection. Customer shall not connect, or allow any other person or party to connect, onto any water lines on his premises. Two places shall not be permitted to be supplied with one service pipe where there is a water main abutting the premises.

No connection shall be allowed which allows water to be returned to the public drinking water supply. No backflow prevention device shall be permitted to be installed in the customer's plumbing without notice to and written permission from the Utility. Any backflow prevention devices so installed shall be inspected annually by a licensed backflow prevention device inspector or appropriately licensed plumber and a written report of such inspection delivered to the Utility.

No application, agreement, or contract for service may be assigned or transferred without the written consent of the Utility.

It is agreed and understood that any and all meters, water lines, and other equipment furnished by the Utility (excepting the customer's individual service lines from the point of connection to customer's structures on customer's premises) are and shall remain the sole property of the Utility, and nothing contained herein or in a contract/application for service shall be construed to reflect a sale or transfer of any such meters, lines, or equipment to any customer. All tap and extension charges shall be for the privilege of connecting to said water lines and for installation, not purchase, of said meters and lines.

Applicants for service at new consuming facilities or facilities which have undergone extensive plumbing modifications are required to deliver to the Utility a certificate that their facilities have been inspected by a state-licensed inspector and that they are in compliance with all applicable plumbing codes and are free of potential hazards to public health and safety. Service may be denied until the certificate is received or any identified violations or hazards are remedied. The Utility is not required to perform these inspections for the applicant/customer, but will assist the applicant/customer to locate and obtain the services of a licensed inspector in a timely manner. When potential sources of contamination are identified which, in the opinion of the inspector or the Utility, require the installation of a state-approved backflow prevention device, such backflow prevention device shall be installed on the customer's service line or other necessary plumbing facilities by an appropriately licensed plumber/backflow prevention device specialist at the customer's expense. The backflow prevention device shall be maintained by the customer at his expense and inspected annually by a licensed inspector.

SECTION 2.20 – SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Continued)

Copies of the annual inspection report must be provided to the Utility. Failure to comply with this requirement may constitute grounds for termination of water service with notice.

All customers or service applicants shall provide access to meters and Utility cutoff valves at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply. Access to meters and cutoff valves shall be controlled by the provisions of 16 TAC § 24.169(c).

Where necessary to serve an applicant's property, the Utility may require the applicant to provide it a permanent recorded public utility easement on and across the applicant's real property sufficient to provide service to that applicant.

Service applicants may be required to comply with any pre-condition to receiving service not printed herein as may exist under TCEQ rule (customer service, health and safety, water conservation, or environmental), USEPA rule, TWDB rule, local water or conservation district rule or health department rule. Existing customers shall be required to comply with such rules, including modification of their plumbing and/or consumption patterns, after notice."

SECTION 3.0 STANDARD EXTENSION POLICY

Section 3.01 - Standard Extension Requirements

LINE EXTENSION AND CONSTRUCTION CHARGES. No contribution in aid of construction may be required of any customer except as provided for in this approved extension policy.

The customer will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the Utility and the customer, or sharing of costs between the customer and other applicants before beginning construction.

The Utility will bear the full cost of any oversizing of water mains necessary to serve other customers in the immediate area. The individual residential customer shall not be charged for any additional production, storage, or treatment facilities. Contributions in aid of construction may not be required of individual residential customers for production, storage, treatment or transmission facilities unless otherwise approved by the Commission under this specific extension policy.

COST UTILITIES SHALL BEAR. Within its certificate area, the Utility will pay the cost of the first 200 feet of any water main or distribution line necessary to extend service to an individual residential customer within a platted subdivision. However, if the residential customer requesting service purchased the property after the developer was notified of the need to provide facilities to the Utility, the Utility may charge for the first 200 feet. The Utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the Utility's facilities in accordance with the Utility's approved extension policy after receiving a written request from the Utility.

Developers may be required to provide contributions in aid of construction in amounts to furnish the system with all facilities necessary to comply with the TCEQ's Rules.

SECTION 3.20 SPECIFIC UTILITY EXTENSION POLICY

Section 3.20 - Specific Utility Extension Policy

This section contains the Utility's specific extension policy that complies with the requirements already stated under Section 3.01. It must be reviewed and approved by the Commission and in compliance with PUC Rules to be effective.

Residential customers not covered under Section 3.01 will be charged the equivalent of the costs of extending service to their property from the nearest transmission or distribution line even if that line does not have adequate capacity to serve the customer. However, if the customer places unique, non-standard service demands upon the system, the customer may be charged the full cost of extending service to and throughout their property, including the cost of all necessary transmission and storage facilities necessary to meet the service demands anticipated to be created by that property.

Developers may be required to provide contributions in aid of construction in amounts sufficient to furnish the development with all facilities necessary to provide for reasonable local demand requirements and to comply with TCEQ minimum design criteria for facilities used in the production, transmission, pumping, or treatment of water or TCEQ minimum requirements. For purposes of this subsection, a developer is one who subdivides or requests more than two meters on a piece of property. Commercial, industrial, and wholesale customers will be treated as developers.

The Utility adopts the administrative rules of the PUC, as amended from time to time, as its Company specific extension policy. These rules will be kept on file at the Company's business office for customer inspection during normal business hours. In the event of a conflict between the PUC's amended rules and the provisions of this tariff, the amended rules shall prevail. Where necessary, any conflicting provision of this tariff shall be deemed to have been superseded by the PUC rule in question to the degree that the Utility may conduct its lawful business in conformance with all requirements of said rule.

When an individual residential applicant requires an extension of a main line beyond 200 feet, the charge to that applicant shall be the actual cost of such extension in excess of 200 feet, plus the applicable tap fee plus such other approved costs as may be provided in this tariff and/or PUC rules.

Residential tap fees may be increased by other unique costs not normally incurred as permitted by PUC rule. Larger meter taps shall be made at actual cost associated with that tap which shall include such extraordinary expenses.

Any service extension to a subdivision (recorded or unrecorded) may be subject to the provisions and restrictions of 16 TAC § 24.163 and this tariff. When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge based upon the capacities of production, transmission, storage, pumping and treatment facilities, compliant with the TCEQ minimum design criteria, which must be committed to such extension. As provided by 16 TAC § 24.163(d)(4), for purposes of this section, commercial, industrial, and wholesale customers shall be treated as developers.

Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction for the actual costs of any additional facilities required to maintain compliance with the TCEQ minimum design criteria for water production, treatment, pumping, storage and transmission.

Unless expressly exempted by PUC rule or order, each point of use (as defined by 16 TAC § 24.3(25)) must be individually metered.

SECTION 3.20 SPECIFIC UTILITY EXTENSION POLICY (Continued)

The imposition of additional extension costs or charges as provided by Sections 2.12 and 3.02 of this tariff shall be subject to appeal as provided in this tariff, PUC rules, or the rules of such other regulatory authority as may have jurisdiction over the Utility's rates and services. Any applicant required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be entitled to a written explanation of such costs before payment and/or commencement of construction. If the applicant does not believe that these costs are reasonable or necessary, the applicant shall have the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the Utility's rates in that portion of the Utility's service area in which the applicant's property(ies) is located. Unless the PUC or other regulatory authority enters interlocutory orders to the contrary, service to the applicant may be delayed until such appeal is resolved.

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than any individual applicant desires one service connection. Service application forms will be available for applicant pick up at the Utility's business office during normal weekday business hours. Service applications will be sent by prepaid first-class United States mail to the address provided by the applicant upon request. Completed applications should be returned by hand delivery in case there are questions that might delay fulfilling the service request. Completed service applications may be submitted by mail if hand delivery is not possible.

The Utility shall serve each qualified service applicant within its certificated service area as soon as practical after receiving a completed service application. All service requests will be fulfilled within the time limits prescribed by PUC rules once the applicant has met all conditions precedent to achieving "qualified service applicant" status. If a service request cannot be fulfilled within the required period, the applicant shall be notified in writing of the delay, its cause, and the anticipated date that service will be available. The PUC service dates shall not become applicable until the service applicant has met all conditions precedent to becoming a "qualified service applicant" as defined herein or by PUC rules.

The Utility is not required to extend service to any applicant outside of its certificated service area and will only do so, at the Utility's sole option, under terms and conditions mutually agreeable to the Utility and the applicant and upon extension of the Utility's certificated service area boundaries by the PUC. Service applicants may be required to bear the cost of the service area amendment.

A "qualified service applicant" is an applicant who has: (1) met all of the Utility's requirements of service contained in this tariff, PUC rules and/or PUC order, (2) has made all payments for tap fees and extension charges, (3) has provided all necessary easements and rights-of-way necessary to provide service to the requested location, including staking said easements or rights-of-way where necessary, (4) delivered an executed customer service inspection certificate to the Utility and (5) has executed a customer service application for each location to which service is being requested.

Where a new tap or service connection is required, the service applicant shall be required to submit a written service application and request that a tap is made. The tap request must be accompanied with a plat, map, diagram, or written metes and bounds description of precisely where the applicant desires each tap or service connection is to be made and, if necessary, where the meter is to be installed along the applicant's property line.

The actual point of connection and meter installation must be readily accessible to Utility personnel for inspection, servicing, and meter reading while being reasonably secure from damage by vehicles and mowers. If the Utility has more than one main adjacent to the service applicant's property, the tap or service connection will be made to the Utility's near service main with adequate capacity to service the

SECTION 3.20 SPECIFIC UTILITY EXTENSION POLICY (Continued)

applicant's full potential service demand. If the tap or service connection cannot be made at the applicant's desired location, it will be made at another location mutually acceptable to the applicant and the Utility. If no agreement on location can be made, applicant may refer the matter to the PUC for resolution. Unless otherwise ordered by the PUC, the tap or service connection will not be made until the location dispute is resolved.

The Utility shall require a developer (as defined by PUC rule) to provide permanent recorded public utility easements as a condition of service to any location within the developer's property. The Developer shall be required to obtain all necessary easements and rights-of-way required to extend the Utility's existing service facilities from their nearest point with adequate service capacity (as prescribed by TCEQ rules and local service conditions) to and throughout the Developer's property. The easements shall be sufficient to allow the construction, installation, repair, maintenance, testing, and replacement of any and all utility plant necessary to provide continuous and adequate service to each and every potential service location within the property at full occupancy. Unless otherwise restricted by law, well plant sites shall convey with unrestricted rights to produce water for public drinking water supply. Developers shall be required to provide sanitary control easements acceptable to the TCEQ for each water well site to be located within their property or otherwise being obtained to serve their property. Unless otherwise agreed to by the Utility, pipe line right-of-way easements must be at least 15 feet wide to allow adequate room to facilitate backhoe and other heavy equipment operation and meters. Easements must be provided for all production, storage, treatment, pressurization, and disposal sites that are sufficient to construct and maintain all weather roads as prescribed by TCEQ rules. All easements shall be evidenced, at Developer's expense, by recorded county-approved subdivision plat or by specific assignment supported by metes and bounds survey from a surveyor licensed by the State of Texas.

Before the extension of utility service to developers (as defined by PUC rules) or new subdivisions, the Developer shall comply with the following:

(a) The Developer shall make a written request for service to property that is to be subdivided and developed. The Developer shall submit to the Utility a proposed plat on a scale of one inch (1") to two hundred feet (200') for review and determination of required easements, utility plant, and plant location. If sewer service is requested, the plat must contain elevation data. A reconcilable deposit in an amount set by the Utility may be required to cover preliminary engineering, legal, and copy cost to be incurred by the Utility in reviewing and planning to meet this service request. The plat and/or accompanying information shall identify the type, location, and number of houses and other planned structures that will be requiring utility service. If other than residential structures are to be located on the property, all other types of anticipated businesses and their service demands shall be identified with specificity. All areas requiring special irrigation and/or other unique water demands must be identified. To the extent reasonably possible, this information must be precise so that adequate facilities can be designed and constructed to meet all future service demands without hazard to the public, other utility customers, and/or the environment.

(b) After the requirements of easements and rights-of-way have been determined, a red line copy will be returned by the Utility to the Developer for final plat preparation.

(c) Copies of all proposed plats and plans must be submitted to the Utility before their submission to the County for approval to ensure that they are compatible with the adequate long-term utility needs of potential service customers. Copies will be returned after review by the Utility so that necessary changes may be incorporated into the Developer's final submitted plat(s) and plans.

(d) The Utility shall be provided with three (3) certified copies of the final plat(s) approved

SECTION 3.20 SPECIFIC UTILITY EXTENSION POLICY (Continued)

by the County Commissioners Court. At this time, the Utility will begin engineering the facilities necessary to serve the property. Plans and specifications will be prepared and submitted to the TCEQ by the Utility if required by law. If further plat or plans changes are necessary to accommodate the specific service needs of the property and the anticipated customer demands, the Developer will be so notified. Plat amendments must be obtained by the Developer. The Developer shall be notified when all required TCEQ or other governmental approvals or permits have been received. No construction of utility plant that requires prior TCEQ plans approval shall be commenced until that approval has been received by the Utility and any conditions imposed by the TCEQ in association with its approvals have been satisfied.

(e) The Developer shall be required to post bond or escrow the funds necessary to construct all required Utility system extensions, except individual taps, meters, and water connections, required to serve the property. Construction shall not commence until funds are available. If the construction is to be done in coordination with the phased development of the property, funds must be provided in advance which are sufficient to complete each phase. No phase or facilities for any phase shall be constructed before the bonding or escrowing of all funds associated with that phase.

(f) At the sole option of the Utility, the Developer may be required to execute a Developer Extension Agreement setting forth all terms and conditions of extending service to their property including all contributions in aid of construction and developer reimbursements, if any.

(g) The Utility may require the Developer to commence construction of subdivision improvements within three (3) months of utility plans approval or the Utility may abate its construction activities until full development construction begins. If the Developer stops construction of subdivision improvements for any purpose, the Utility may abate its construction for a similar period.

(h) As soon as the roads are rough cut and before paving, extension lines will need to be constructed at each road crossing. The Developer must notify the Utility sufficiently in advance of this development stage to allow for the necessary Utility construction without disruption to other service operations of the Utility. Failure to provide adequate advance notice and cooperation in the construction of necessary utility plant may result in additional delays in obtaining service to the property. The Developer shall be required to pay for all additional costs of road boring or other remedial construction necessary to install adequate utility plant throughout the affected property.

(i) The Developer, not the Utility, shall insure that Developer's employees, agents, contractors, and others under its control coordinate their work or construction throughout the property with the Utility to insure the orderly and timely construction of all utility plant necessary to serve the public.

Within its certificated area, the Utility shall bear the cost of the first 200 feet of any water main or sewer collection line necessary to extend service to an individual residential service applicant within a platted subdivision unless the Utility can document:

(a) that the Developer of the subdivision refused to provide facilities compatible with the Utility's facilities in accordance with the Utility's approved extension policy after receiving a written request from the Utility; or,

(b) that the Developer defaulted on the terms and conditions of a written agreement or

SECTION 3.20 SPECIFIC UTILITY EXTENSION POLICY (Continued)

contract existing between the Utility and the Developer or the terms of this tariff regarding payment for services, extensions, or other requirements; or in the event the Developer declared bankruptcy and was therefore unable to meet obligations; and

(c) that the residential service applicant purchased the property from the Developer after the Developer was notified of the need to provide facilities to the Utility. A residential service applicant may be charged the remaining costs of extending service to his property; provided, however, that the residential service applicant may only be required to pay the cost equivalent to the cost of extending the nearest water main, whether or not that line has adequate capacity to serve that residential service applicant. The following criteria shall be considered to determine the residential service applicant's cost for extending service:

- (1) The residential service applicant shall not be required to pay for costs of main extensions greater than 2" in diameter for water distribution.
- (2) Exceptions may be granted by the PUC if:
 - (i) adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the Utility's burden to justify that a larger diameter pipe is required for adequate service;
 - (ii) larger minimum line sizes are required under subdivision platting requirements or applicable building codes.
- (3) If an exception is granted, the Utility shall establish a proportional cost plan for the specific extension or a rebate plan which may be limited to seven years to return the portion of the applicant's costs for oversizing as new customers are added to ensure that future applicants for service on the line pay at least as much as the initial service applicant.

For purposes of determining the costs that service applicants shall pay, commercial customers with service demands greater than residential customer demands in the certificated area, industrial, and wholesale customers shall be treated as developers.

A service applicant requesting a one-inch meter for a lawn sprinkler system to service a residential lot is not considered nonstandard service.

APPENDIX A -- DROUGHT CONTINGENCY PLAN

This page incorporates by reference the utility's Drought Contingency Plan, as approved and periodically amended by the Texas Commission on Environmental Quality.
