General Manager's Office 2022 GOALS and OUTCOME MEASURES (GOM)

Units/Departments: CUSTOMERS, DISTRICT BOARD AND DEPARTMENTAL SERVICES

Vision: JCSUD will become Texas' preeminent Special Utility District

by consistently fulfilling mandates to supply potable water in

a safe, timely and environmentally compliant manner. Dedicated to innovation, stewardship, collaboration, and

excellent customer service.

Mission Statement: JCSUD's Constancy of Purpose to maximize value-added-

work will ensure all its customers continually receive potable

water effectively, efficiently and economically.

Organizational Management

All Goals in this category must be met in order to gain credit for this goal.

Goal #1	Goal Name:	A. General operational expenses for the 2022 budget will be
	Adopt a	submitted to the Finance Department on or prior to, 2022.
	Transparent	B. Revenues and supplemental requests for the 2022 budget will be
	Balanced	submitted to the Finance Department on or prior to, 2020.
	Annual Budget	C. Capital projects for the 2022 budget will be completed prior to
		, 2022.
	Team Leader:	General Manager/ Finance Manager
	Outcome	Yes or No compliance as determined by the Finance Department that each
	Measure:	of the components of budget was submitted by the deadline in sufficient
		form.
	Data Plan:	The Department Head will ensure that the reports are prepared, reviewed
		for quality, and forwarded by the due dates noted in A, B, and C above.
		Quality is defined as:
		Spreadsheets/software were filled out correctly in all required areas
		numbers were accurate
		spelling and grammar were satisfactory
		adequate communication with Finance took place to ensure desired
		changes were reflected properly
		sufficient explanation was evident where comments were
		requested
		(This section should be completed at the end of the year)
	Result:	
	Comments:	

Goal #2	Goal Name: An Organizational Chart and employee Job Descriptions are established and are maintained that communicate an individual's responsibility.	An Organizational Chart and employee Job Descriptions are established and are maintained that continually communicate an individual's responsibility and authority is not segregated and establish Segregation-of-Duty (an individual or group cannot create and conceal an error), Span-of-Control (supervisors have less than seven direct reports) and Unity-of-Command (all employees report to only one boss).
	Team Leader:	General Manager
	Outcome	Yes or no compliance as determined by the GM's office that the GOM Draft.
	Measure:	Chart and Job Descriptions are annually reviewed and updated by the respective Managers.
	Data Plan:	The Department head will determine the staff structure and ensure timely submission of the staff Structure.
		(This section should be completed at the end of the year)
	Result:	
	Comments:	

Goal #3	Goal Name: Accurate Timely Capital Status Report	The JCSUD Capital Status Monthly Report will be completed with accuracy and quality, entered, and approved by the Department Head, to the Finance Department, no later than the 5 th day of the following month. (If your department does not submit a Monthly Capital Status Report, mark the Results as Not Applicable.)
	Team Leader:	System Development Manager
	Outcome	Yes or No compliance as determined by the Capital Asset Department that
	Measure:	the number of monthly dates were met no less than 10.
	Data Plan:	The Department Head will ensure that the reports are prepared, reviewed for quality, and forwarded by the due dates noted above. Quality is defined as: • Spreadsheets/software were filled out correctly in all required areas • numbers were accurate • spelling and grammar were satisfactory • sufficient explanation was evident where comments were requested
		(This section should be completed at the end of the year)
	Result:

Service Standards

Each achieved Customer Service Goal is counted as one, i.e., 4 out of 5 Goals = a score of 4.

Develop Goals that are specific to serving our customers – internal or external – by our department.

6 147	Goal Name:	
Goal #7	Customer	Customer Complaints received at the General Manager's Office will be
		responded to within two working days from receipt at the Department.
	Complaints	
	to the General	
	Manager's	
	Office	
	Team Leader:	General Manager (GM)
	Outcome	90% of complaints were responded to or actioned within two business days,
	Measure:	as determined by the GM.
	Data Plan:	 A. The GM is responsible for logging Customer Complaints that come to the GM office and to forward the complaint to the appropriate department for response. The log contains the date the complaint was received the name and contact information of complainant, if available the nature of the complaint the name of the Department responsible for a response the date the complaint was forwarded to the Department a date by when the Department contacted the complainant or actioned the problem a yes or no response that complaint was resolved B. The Department must respond to the GM no later than two days after receipt of the complaint to verify that contact to the complainant was made. C. If no complainant information is available, the Department must
		respond to the GM within two working days of receipt of what action will be taken to address or fix the problem.
		(This section should be completed at the end of the year)
	Result:	This seems storing we completed at the that of the year,
	Comments:	
	comments.	

Goal #8	Goal Name: Customer Complaints to the Department	In addition to Customer Complaints received from the General Manager's Office, all complaints received directly into the Department will be responded to or actioned within two working days from receipt at the Department.
	Team Leader:	Department Head
	Outcome	90% of complaints were responded to or actioned within two business days.
	Measure:	

Data Plan:	The Department will maintain a log of incoming complaints directly to the Department and respond to the complainant or action the item within two days.
	 A. The Department is responsible for logging Customer Complaints that come directly to the Department (other than those originating from the GM office) and to respond. The log contains the date the complaint was received the name and contact information of complainant, if available the nature of the complaint the name of the person responsible for a response the date the complaint was forwarded to the responsible person a date by when the department contacted the complainant or actioned the problem a yes or no response that complaint was resolved B. If no complainant information is available, the Department must log
	what action will be taken to address or fix the problem. (This section should be completed at the end of the year)

Comments:	

Goal #9	Goal Name: District Board Satisfaction	District Board will be satisfied with the work of District Staff, Goals & Outcome Measures and progress towards District Board priorities. Board members believe that the result of staff work is useful and can adequately be measured through the development of outcome measures, which are tied to staff evaluations and compensation, and will agree that substantial progress has been made towards the District Board's priorities. The "Best Year Yet" process will be used to establish the Board's priority areas.
	Team Leader:	General Manager and Staff
	Outcome	At least 80% of District Board members (5 out of 7) will agree/strongly agree
	Measure:	that substantial progress has been made towards the District Board's priorities.
	Data Plan:	An annual survey of the District Board will be conducted. (Staff will forward a memo outlining what the priorities have been for the year and the progress that has been made in each area.)
		(This section should be completed at the end of the year)
	Result:	
	Comments:	

Goal #10	Goal Name: Competitive	District Department Heads will agree that the total compensation plan (salary, benefits, training, fitness, outstanding employee bonus program,
	Total Compensation Plan	etc.) is competitive with the market and result in their ability to attract and retain superior employees.
	Team Leader:	General Manager/Human Resource Manager

Outcome	At least 60% of District Department Heads will agree/strongly agree that the
Measure: total compensation plan (salary, benefits, training, fitness, outstandin	
	employee bonus program, etc.) is competitive with the market and result in
	their ability to attract and retain superior employees. (This Customer Service
	Standard is a Human Resource Customer Service Standard and is
	incorporated into the General Manager's score only.)
Data Plan:	The District's annual internal survey will be used to determine the actual
	level of Department Head satisfaction with the compensation plan
(This section should be completed at the end of the year)

Department/Program: System Development

Mission Statement: The mission of the System Development is to encourage

responsible growth, maintain a comprehensive mapping system and protect the integrity of the existing infrastructure by applying proper planning, design and financial practices.

Improvement Goals

The achievement of all Improvement Goals is counted as 1. The Improvement Goals score is determined by dividing the number of all unachieved Goals by the total number of all attempted Goals, i.e., 3 out of 4 Goals = .75; 4 out of 4 Goals = 1.

Develop Goals that are specific to serving our customer – internal or external – by our Department.

Goal #29	Goal Name: Provide a reliable and sustainable water supply for all of Johnson	Development of consultation and training availability for all Managers and Supervisors around how to identify Performance Measures (Operational, Customer and Financial data) that can be used to help them make business decisions and manage their operations. Effort will include the selection of the appropriate data analysis techniques that help managers understand the data set.

	Result:	
	Comments:	

Goal Name: Goal #33 The evaluation of short to medium-term opportunities will reduce the Develop current real loss volume. Intervention strategies continue: Short to Medium-• Improve failure location tracking and repair times, • Improve intervention frequency for proactive leak detection, **Term System-**• Improve pressure management, wide Water • Continue collecting/building a historical database of waterline "Failures". Loss Intervention Additional Proactive Initiatives - Engineering Strategies We initiated a 3-month water loss study, via JCSUD engineering to determine the causes, locations, and amount of water loss from the water production and delivery systems. The Water Loss Study will utilize available water system production and use data to identify potential data handling

	discrepancies, water metering discrepancies, and potential locations and
	amounts of suspected real loss from the system. Work required to complete
	the water loss study is described as follows:
	Deliverables Engineering will utilize a Water Loss Spreadsheet and the monthly data installments provided by JCSUD to identify, locate and quantify specific areas of water loss from the system by comparing the amount of water produced at each individual source, the amount of water delivered into the distribution system through each designated entry-point to the distribution system, and the amount of water delivered to water customers and users.
	 Engineering will prepare four separate quarterly reports identifying and summarizing water loss from the system to include: Losses attributed to each production source where data is available to identify loss from specific sources. Losses between the designated entry-points into the distribution system and the customer. Engineering will prepare a summary report of findings and recommendations for additional loss reduction measures.
Team Leader:	General Manager/ System Development and Operations Manager
Outcome	Losses attributed to each production source where data is available to
Measure:	identify and repair loss from specific sources. Also, losses identified and
	repaired between designated entry-points into the distribution system and
	the customer.
Data Plan:	
	(This section should be completed at the end of the year)

2021 JCSUD Customer Survey

RESULTS

Results tabulated on August 9, 2021

I. Introduction

Surveys are one tool among many to help decision makers evaluate important aspects of any operation. Our commitment to taking great care of the families and communities we serve flows deep within all of us at JCSUD. It seems appropriate to "take stock" as comprehensively as possible each year. It is hoped that this survey can provide an additional tool to help collectively gauge the performance and expectations of JCSUD.

II. Confidence and Limitations

No survey is perfect. Surveys can be useful if four important rules are followed:

- A clear goal of the survey is defined.
- · The population is defined.
- The respondents are random, appropriate in size, and represent the population.
- Questions are unbiased.

Clear Goal

The goal of the survey is to provide general feedback about the performance of JCSUD. The survey is not designed to set any policy or procedures or to make any official decisions. It is only general information to be used by and for District officials. As with any survey, the results are subjective and interpretive.

Population defined

The electronic survey link was posted on the website and was sent through WaterSmart via email and text, as well as in a bill stuffer letter to all JCSUD customers that receive District utility bills. A paper copy of the survey was available in the JCSUD lobby and mailed to customers upon request. As such, while the survey is titled JCSUD Customer Survey, the results must be qualified as "customers who receive utility bills from the District." It is theoretically expected that those who receive utility bills represent the views of those households that comprise the District.

Sample of population

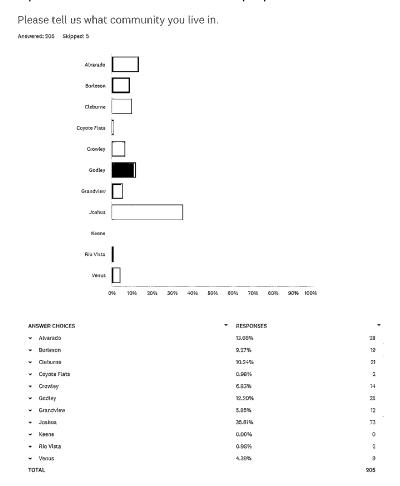

As of August 9th, a total of 210 responses were received. Tabulations below. Ultimately, the response rate, representation, and randomness provide much confidence that the responses are a valid reflection of how the population as a whole might respond.

Unbiased questions

The questions in the survey are simply stated with appropriate response categories. This does not, however, preclude misinterpretations, unintended bias, or just plain mistakes. These "problems" do not inhibit the ability to draw general conclusions from valid responses, but it should prevent anyone from making any mandate from the resulting information.

Who Responded? - Section 1:

The demographic information reflected in the tables on this page suggests a fair representation of the overall population.

District Contact - Section 2:

Answered: 208 Skipped: 2

The following table details the level of responsiveness of the District:

Please rate the responsiveness of JCSUD to questions or requests.

4.2☆
average rating

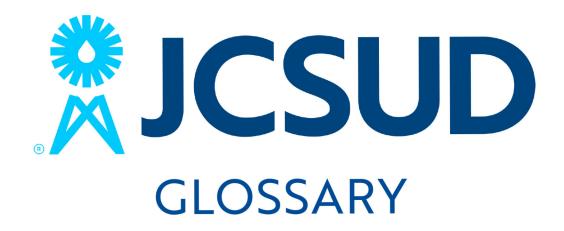

Perceptions of Customer Engagement - Section 3:

The following table details the professionalism of JCSUD employees:

Conclusion and Recommendations

The survey information provides general direction with some mixed results. Overall, the customers are positive and satisfied with their experience with JCSUD. However, from the data, there appears to be some level of disconnect between the customers and the District. This suggests either the District is not fully representing the customers concerns, or the respective District investments have not coincided with the views/needs of the customer. In either case, increased communication, cooperation, and District organizational development may be a promising approach.

Ultimately, as resources are limited, it will be even more important to be aware of the differences in customer opinions, and the intensity of opinions, as the District researches appropriate water delivery solutions.

Glossary

Accrual basis: Accrual basis accounting recognizes transactions when they occur, regardless of the timing of related cash flows. The application of accrual accounting techniques prevents distortions in financial statement representations due to shifts in the timing of cash flows and related underlying economic events near the end of a fiscal period.

Amortization: The reduction of debt through regular payments of principal and interest sufficient to retire the debt instrument at a predetermined date known as maturity.

Business type activity: Business type activities are financed in whole or in part by fees charged to external parties for goods and services. These activities are usually reported in enterprise funds which follow essentially the same accounting rules as a private enterprise.

Depreciation: Depreciation is the accrual accounting concept using various methods to expense capitalized costs of an asset over its estimated useful life.

Expenditure: The cost of goods delivered, and services rendered whether paid or unpaid.

Fiscal year (FY): The 12-month period, January 1st to December 31, to which the annual operating budget applies and, at the end of which, financial position and the results of operations are determined.

Full-Time Equivalent (FTE): A method to convert part-time hours worked to that of full-time worker in a like position based on 2080 hours per year.

Fund: Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions, activities or objectives with special regulations, restrictions, or limitations. A fund is a self-balancing set of accounts recording financial resources with all related liabilities resulting in equities or balances. The accounts of the District are organized on the basis of funds and account groups in order to report on its financial position and results of its operations.

Fund Equity: The difference between assets and liabilities reported in an enterprise fund.

Generally Accepted Accounting Principles (GAAP): Conventions, rules and procedures that serve as the norm for the fair presentation of financial statements.

General Fund: The District's major operating fund to account for all financial resources except those accounted for in another fund.

Government Finance Officers Association (GFOA): The GFOA of the United States and Canada is a professional organization of public officials united to enhance and promote the professional management of governmental financial resources by identifying, developing and advancing fiscal strategies, policies and practices for public benefit.

Modified Accrual: The modification of full accrual accounting; in the example of this budget, amortization and depreciation expenses are not included in the operating budget.

Net Assets: The difference between assets and liabilities of assets and liabilities of proprietary funds. Net assets maybe further divided into unrestricted and restricted amounts like constraints of legislation or external parties, trust amounts for pensions or pools, or other purposes like invested in capital assets, net of related debt.

Operating budget: The operating budget is the authorized revenues and expenditures for on-going district services and is the primary means by which a government is controlled. The life span of an operating budget is typically one year. Personnel costs, supplies, and other charges are found in an operating budget.

Revenue: The income of the District used to fund operations. Typical revenue examples for the District are charges for services, interest, fees and developer contributions.

Special Utility District (SUD): is a special-purpose district or other governmental jurisdiction that provides public utilities (such as water and wastewater) to the residents of that district.

SKYLINE DRIVE LANDOWNERS' ASSOCIATION WATER SYSTEM (1260060)

Exhibit C

To bring the LOA onto the system and provide adequate service and eliminate a red line situation, the District has two options:

Option 1-Minimum infrastructure to provide adequate service to the LOA

- Installing a 4-inch water line along CR 915, from the end of the existing JCSUD 4-inch water line at Clearview Drive to the entrance of Skyline Drive. Approximately 1,730 LF
- Installing a 4-inch water line along Skyline Drive from CR 915 to the 3- inch water line on Skyline Drive, approximately 500 LF.

The cost to install Option 1 infrastructure is approximately \$150,000.

OPPC-Skyline Drive LOA 4-INCH				
Construction Cost		COST		
Parts	\$	15,720.15		
Labor	\$	83,325.00		
Meters/Taps	\$	10,947.90		
Construction Sub-Total 109,993.05		\$		
Contingency-15%	\$	16,498.96		
Non-Construction		COST		
Engineering Plans	\$	15,000.00		
Inspection	\$	6,000.00		
Testing	\$	2,500.00		
Non-Construction Sub-Total \$ 23,500.00				
Total Project Cost	\$	149,992.01		

Option 2-Allows for future growth or line extension in the area.

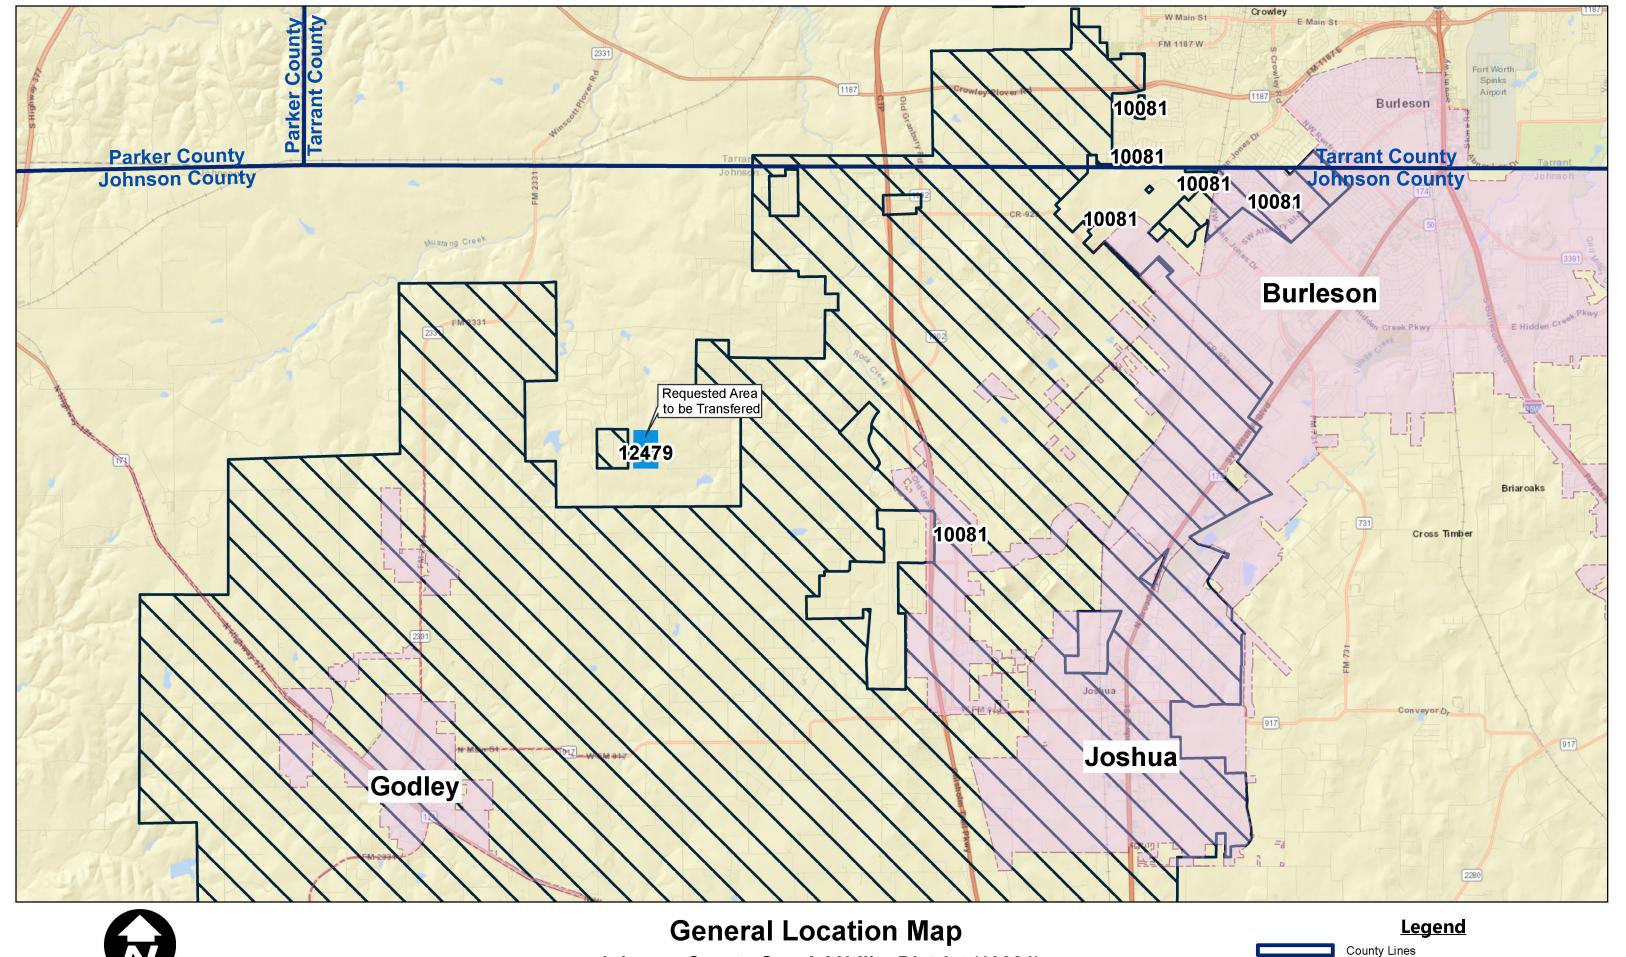

- Installing an 8-inch water line along CR 915, from the end of the existing JCSUD 4-inch water line at Clearview Drive to the entrance of Skyline Drive.
 Approximately 1,730 LF
- Installing a 4-inch water line along Skyline Drive from CR 915 to the 3- inch water line on Skyline Drive, approximately 500 LF.

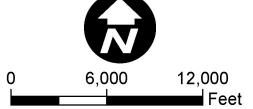

The cost to install Option 2 infrastructure is approximately \$201,500.
