

## Filing Receipt

**Received - 2022-08-05 08:54:18 AM**

**Control Number - 53934**

**ItemNumber - 1**

# Application for Sale, Transfer, or Merger of a Retail Public Utility

Pursuant to Texas Water Code § 13.301 and 16 Texas Administrative Code § 24.239

## Sale, Transfer, or Merger (STM) Application Instructions

- I. **COMPLETE:** In order for the Commission to find the application sufficient for filing, the Applicant should:
  - i. Provide an answer to every question and submit any required attachment applicable to the STM request (i.e., agreements or contracts).
  - ii. Use attachments or additional pages to answer questions as necessary. If you use attachments or additional pages, reference their inclusion in the form.
  - iii. Provide all mapping information as detailed in Part G: Mapping & Affidavits.
- II. **FILE:** Seven (7) copies of the completed application with numbered attachments. One copy should be filed with no permanent binding, staples, tabs, or separators; and 7 copies of the portable electronic storage medium containing the digital mapping data.
  - i. **SEND TO:** Public Utility Commission of Texas, Attention: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326 (NOTE: Electronic documents may be sent in advance of the paper copy, however they will not be processed and added to the Commission's on-line Interchange until the paper copy is received and file-stamped in Central Records.)
- III. The application will be assigned a docket number, and an administrative law judge (ALJ) will issue an order requiring Commission Staff to file a recommendation on whether the application is sufficient. The ALJ will issue an order after Staff's recommendation has been filed:
  - i. **DEFICIENT (Administratively Incomplete):** Applicants will be ordered to provide information to cure the deficiencies by a certain date, usually 30 days from ALJ's order. *Application is not accepted for filing.*
  - ii. **SUFFICIENT (Administratively Complete):** Applicants will be ordered by the ALJ to give appropriate notice of the application using the notice prepared by Commission Staff. *Application is accepted for filing.*
- IV. Once the Applicants issue notice, a copy of the actual notice sent and an affidavit attesting to notice should be filed in the docket assigned to the application. Recipients of notice may request a hearing on the merits.
 

**HEARING ON THE MERITS:** An affected party may request a hearing within 30 days of notice. In this event, the application may be referred to the State Office of Administrative Hearings (SOAH) to complete this request.
- V. **TRANSACTION TO PROCEED:** at any time following the provision of notice, or prior to 120 days from the last date that proper notice was given, Commission Staff will file a recommendation for the transaction to proceed as proposed or recommend that the STM be referred to SOAH for further investigation. The Applicants will be required to file an update in the docket to the ALJ every 30 days following the approval of the transaction. The transaction must be completed within six (6) months from the ALJ's order (Note: The Applicants may request an extension to the 6 month provision for good cause).
- VI. **FILE:** Seven (7) copies of completed transaction documents and documentation addressing the transfer or disposition of any outstanding deposits. After receiving all required documents from the Applicants, the application will be granted a procedural schedule for final processing. The Applicants are requested to consent in writing to the proposed maps and certificates, or tariff if applicable.
- VII. **FINAL ORDER:** The ALJ will issue a final order issuing or amending the applicable CCNs.

**FAQ:**  
*Who can use this form?*

Any retail public utility that provides water or wastewater service in Texas.

*Who is required to use this form?*

A retail public utility that is an investor owned utility (IOU) or a water supply corporation (WSC) prior to any STM of a water or sewer system, or utility, or prior to the transfer of a portion of a certificated service area.

**Terms**

**Transferor:** Seller

**Transferee:** Purchaser

**CCN:** Certificate of Convenience and Necessity

**STM:** Sale, Transfer, or Merger

**IOU:** Investor Owned Utility

## Application Summary

**Transferor:** Oak Hill Estates Water Company, LLC  
*(selling entity)*

**CCN No.s:** 12861

Sale     
  Transfer     
  Merger     
  Consolidation     
  Lease/Rental

**Transferee:** CSWR-Texas Utility Operating Company, LLC  
*(acquiring entity)*

**CCN No.s:** 13290

Water     
  Sewer     
  All CCN     
  Portion CCN     
  Facilities transfer

**County(ies):** Harris

**Part A: General Information**

1. Describe the proposed transaction, including the effect on all CCNs involved, and provide details on the existing or expected land use in the area affected by the proposed transaction. Attach all supporting documentation, such as a contract, a lease, or proposed purchase agreements:

CSWR-Texas Utility Operating Company, LLC ("CSWR Texas") will purchase all utility assets owned by Oak Hill Estates Water Company, LLC ("Oak Hill Estates") for purposes of operating its water and/or wastewater system under CCN No. 12861 as identified in Attachment A, which is a copy of the purchase agreement between CSWR Texas' affiliate, Central States Water Resources, Inc. ("Central States") and Oak Hill Estates. See Attachment B for a copy of the corporate organizational chart of CSWR Texas' upstream ownership.

2. The proposed transaction will require (check all applicable):

For **Transferee** (Purchaser) CCN:

For **Transferor** (Seller) CCN:

- Obtaining a NEW CCN for Purchaser
- Transfer all CCN into Purchaser's CCN (Merger)
- Transfer Portion of CCN into Purchaser's CCN
- Transfer all CCN to Purchaser and retain Seller CCN
- Uncertificated area added to Purchaser's CCN

- Cancellation of Seller's CCN
- Transfer of a Portion of Seller's CCN to Purchaser
- Only Transfer of Facilities, No CCN or Customers
- Only Transfer of Customers, No CCN or Facilities
- Only Transfer CCN Area, No Customers or Facilities

**Part B: Transferor Information**

**Questions 3 through 5 apply only to the *transferor* (current service provider or seller)**

3. A. Name: Oak Hill Estates Water Company, LLC  
(individual, corporation, or other legal entity)

Individual  Corporation  WSC  Other: LLC

B. Mailing Address: PO BOX 281 CONROE, TX 77305-0281

Phone: (281) 367-9419 Email: operations@a1utility.com

C. **Contact Person.** Please provide information about the person to be contacted regarding this application. Indicate if this person is the owner, operator, engineer, attorney, accountant, or other title.

Name: Gary Gilbert Title: President

Mailing Address: PO BOX 281 CONROE, TX 77305-0281

Phone: (832) 318-1375 Email: gmggilb@yahoo.com

4. If the utility to be transferred is an Investor Owned Utility (IOU), for the most recent rate change, attach a copy of the current tariff and complete A through B:

A. Effective date for most recent rates: April 1, 2021

B. Was notice of this increase provided to the Public Utility Commission of Texas (Commission) or a predecessor regulatory authority?

No  Yes Application or Docket Number: 51915

**If the transferor is a Water Supply or Sewer Service Corporation, provide a copy of the current tariff.**

5. For the customers that will be transferred following the approval of the proposed transaction, check all that apply:

- There are no customers that will be transferred
- # of customers without deposits held by the transferor 13
- # of customers with deposits held by the transferor\* 122

\*Attach a list of all customers affected by the proposed transaction that have deposits held, and include a customer indicator (name or account number), date of each deposit, amount of each deposit, and any unpaid interest on each deposit.

### Part C: Transferee Information

#### Questions 6 through 10 apply only to the transferee (purchaser or proposed service provider)

6. A. Name: CSWR-Texas Utility Operating Company, LLC  
(individual, corporation, or other legal entity)  
 Individual  Corporation  WSC  Other: LLC

B. Mailing Address: 1630 Des Peres Rd., Suite 140 Des Peres, Missouri 63131

Phone: (314) 736-4672 Email: regulatory@cswrgroup.com

C. **Contact Person.** Provide information about the person to be contacted regarding this application. Indicate if this person is the owner, operator, engineer, attorney, accountant, or other title.

Name: Evan D. Johnson Title: Local Counsel

Address: Coffin Renner LLP, 1011 West 31st Street, Austin, Texas 78705

Phone: (512) 879-0972 Email: evan.johnson@crtblaw.com

D. If the transferee is someone other than a municipality, is the transferee current on the Regulatory Assessment Fees (RAF) with the Texas Commission on Environmental Quality (TCEQ)?

No  Yes  N/A

E. If the transferee is an IOU, is the transferee current on the Annual Report filings with the Commission?

No  Yes  N/A

7. The legal status of the transferee is:

- Individual or sole proprietorship
- Partnership or limited partnership (*attach* Partnership agreement)
- Corporation  
Charter number (as recorded with the Texas Secretary of State): \_\_\_\_\_
- Non-profit, member-owned, member controlled Cooperative Corporation [Article 1434(a) Water Supply or Sewer Service Corporation, incorporated under TWC Chapter 67]  
Charter number (as recorded with the Texas Secretary of State): \_\_\_\_\_  
 Articles of Incorporation and By-Laws established (*attach*)
- Municipally-owned utility
- District (MUD, SUD, WCID, FWSD, etc.)

County

Affected County (a county to which Subchapter B, Chapter 232, Local Government Code, applies)

Other (please explain): Limited Liability Company. A copy of the LLC Operating Agreement is attached.

8. If the transferee operates under any d/b/a, provide the name below:

Name: The transferee does not operate under a d/b/a.

9. If the transferee's legal status is anything other than an individual, provide the following information regarding the officers, members, or partners of the legal entity applying for the transfer:

Name: CSWR-Texas Utility Operating Company, LLC (See Attachment B for a corporate organizational chart)

Position: Member Ownership % (if applicable): 100.00%

Address: 1630 Des Peres Rd., Suite 140, St. Louis, Missouri 63131

Phone: (314) 736-4672 Email: regulatory@cswrgroup.com

Name: Josiah Cox

Position: President; CSWR, LLC Ownership % (if applicable): 0.00%

Address: 1630 Des Peres Rd., Suite 140, St. Louis, Missouri 63131

Phone: (314) 736-4672 Email: jcox@cswrgroup.com

Name: Tom Rooney

Position: Chairman; CSWR, LLC Ownership % (if applicable): 0.00%

Address: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

Name: Dan Standen

Position: Board Member; CSWR, LLC Ownership % (if applicable): 0.00%

Address: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

10. **Financial Information**

The transferee Applicant must provide accounting information typically included within a balance sheet, income statement, and statement of cash flows. If the Applicant is an existing retail public utility, this must include historical financial information and projected financial information. However, projected financial information is only required if the Applicant proposes new service connections and new investment in plant, or if requested by Staff. If the Applicant is a new market entrant and does not have its own historical balance sheet, income statement, and statement of cash flows information, then the Applicant should establish a five-year projection taking the historical information of the transferor Applicant into consideration when establishing the projections.

**Historical Financial Information** may be shown by providing any combination of the following that includes necessary information found in a balance sheet, income statement, and statement of cash flows:

1. Completed Appendix A;
2. Documentation that includes all of the information required in Appendix A in a concise format; or
3. Audited financial statements issued within 18 months of the application filing date. This may be provided electronically by providing a uniform resource locator (URL) or a link to a website portal.

Projected Financial Information may be shown by providing any of the following:

1. Completed Appendix B;
2. Documentation that includes all of the information required in Appendix B in a concise format;
3. A detailed budget or capital improvement plan, which indicates sources and uses of funds required, including improvements to the system being transferred; or
4. A recent budget and capital improvements plan that includes information needed for analysis of the operations test (16 Tex. Admin. Code § 24.11(e)(3)) for the system being transferred and any operations combined with the system. This may be provided electronically by providing a uniform resource locator (URL) or a link to a website portal.

**Part D: Proposed Transaction Details**

11. A. Proposed Purchase Price: \$ \_\_\_\_\_ See Attachment A.

If the transferee Applicant is an investor owned utility (IOU) provide answers to B through D.

B. Transferee has a copy of an inventory list of assets to be transferred (*attach*): See Attachment R

No  Yes  N/A

See Attachment K

Total Original Cost of Plant in Service: \$ \_\_\_\_\_

Accumulated Depreciation: \$ \_\_\_\_\_

Net Book Value: \$ \_\_\_\_\_

C. **Customer contributions in aid of construction (CIAC):** Have the customers been billed for any surcharges approved by the Commission or TCEQ to fund any assets currently used and useful in providing utility service? Identify which assets were funded, or are being funded, by surcharges on the list of assets.

No  Yes

Total Customer CIAC: \$ \_\_\_\_\_

Accumulated Amortization: \$ \_\_\_\_\_

D. **Developer CIAC:** Did the transferor receive any developer contributions to pay for the assets proposed to be transferred in this application? If so, identify which assets were funded by developer contributions on the list of assets and provide any applicable developer agreements.

No  Yes

Total developer CIAC: \$ \_\_\_\_\_

Accumulated Amortization: \$ \_\_\_\_\_

12. A. Are any improvements or construction required to meet the minimum requirements of the TCEQ or Commission and to ensure continuous and adequate service to the requested area to be transferred plus any area currently certificated to the transferee Applicant? Attach supporting documentation and any necessary TCEQ approvals, if applicable.

No  Yes

See Attachments I, I-1, and J.

**B.** If yes, describe the source and availability of funds and provide an estimated timeline for the construction of any planned or required improvements:

To the extent it is determined that improvements need to be made to the system, funds will be provided by a mix of equity and debt financing. Equity financing will be provided through an infusion from CSWR Texas' ultimate parent company CSWR, LLC ("CSWR"), of which Central States is the sole manager. A copy of the corporate organizational chart is provided as Attachment B. The source of debt financing will be determined after acquisition of the system. The exact timeline for construction has not yet been determined as approval from TCEQ will be sought as necessary following the acquisition, but CSWR Texas plans to move as quickly as possible to address any known issues on the system upon closing of the acquisition.

**13.** Provide any other information concerning the nature of the transaction you believe should be given consideration:

The acquired system is a distressed system and would benefit from the transition to a stable, long-term management team willing to make necessary investments to improve the system. See Responses to Questions Nos. 14, 16, 17 and 20 in Attachment K. For these reasons, the sale of assets promotes the interests of the public generally and benefits the transferring utility's customers.

**14.** Complete the following proposed entries (listed below) as shown in the books of the Transferee (purchaser) after the acquisition. Debits (positive numbers) should equal credits (negative numbers) so that all line items added together equal zero. Additional entries may be made; the following are suggested only, and not intended to pose descriptive limitations:

Utility Plant in Service:	\$ _____	<b>See Attachment K</b>
Accumulated Depreciation of Plant:	\$ _____	
Cash:	\$ _____	
Notes Payable:	\$ _____	
Mortgage Payable:	\$ _____	
(Proposed) Acquisition Adjustment*:	\$ _____	
Other (NARUC account name & No.):	_____	* Acquisition Adjustments will be subject to review under 16 TAC § 24.41(d) and (e)
Other (NARUC account name & No.):	_____	

**15. A.** Explain any proposed billing change (NOTE: If the acquiring entity is an IOU, the IOU may not change the rates charged to the customers through this STM application. Rates can only be changed through the approval of a rate change application.)

CSWR Texas will adopt existing rates of service, including any temporary rates and surcharges that reflect the system's current cost of service and revenue requirement. CSWR Texas plans to continue the existing rates and surcharges until it files its next base rate proceeding. See Attachment C for a copy of the existing tariff.

**B.** If transferee is an IOU, state whether or not the transferee intends to file with the Commission, or an applicable municipal regulatory authority, an application to change rates for some or all of its customers as a result of the transaction within the next twelve months. If so, provide details below:

CSWR Texas plans to file an application to change rates after the system is acquired if operating expenses exceed revenue from rates or if current rates fail to provide a reasonable rate of return.

**Part E: CCN Obtain or Amend Criteria Considerations**

16. Describe, in detail, the anticipated impact or changes in the quality of retail public utility service in the requested area as a result of the proposed transaction:

See Attachment K.

17. Describe the transferee’s experience and qualifications in providing continuous and adequate service. This should include, but is not limited to: other CCN numbers, water and wastewater systems details, and any corresponding compliance history for all operations.

See Attachment K.

18. Has the transferee been under an enforcement action by the Commission, TCEQ, Texas Department of Health (TDH), the Office of the Attorney General (OAG), or the Environmental Protection Agency (EPA) in the past five (5) years for non-compliance with rules, orders, or state statutes? Attach copies of any correspondence with the applicable regulatory agency(ies)

No  Yes

**See Attachment K**

19. Explain how the environmental integrity or the land will be impacted or disrupted as a result of the proposed transaction:

CSWR Texas will operate the system to ensure it is in compliance with all environmental regulations. CSWR Texas is not aware of any negative impacts or disruptions to the environment or land that would result from the transaction.

20. How will the proposed transaction serve the public interest?

See Attachment K.

21. List all neighboring water or sewer utilities, cities, districts (including ground water conservation districts), counties, or other political subdivisions (including river authorities) providing the same service within two (2) miles from the outer boundary of the requested area affected by the proposed transaction:

AMBERWOOD UTILITY CO (CCN: 12163); SERENITY ESTATE WATER CO (CCN: 13113); QUADVEST LP (CCN: 11612)

**Part F: TCEQ Public Water System or Sewer (Wastewater) Information**

Complete Part F for EACH Public Water or Sewer system to be transferred subject to approval of the transaction. Attach a separate sheet with this information if you need more space for additional systems being transferred.

22. A. For Public Water System (PWS):

TCEQ PWS Identification Number: 1013045 (7 digit ID)

Name of PWS: OAK HILL ESTATES WATER SYSTEM

Date of last TCEQ compliance inspection: July 13, 2017 (attach TCEQ letter)

Subdivisions served: Oak Hill Estates

B. For Sewer service:

TCEQ Water Quality (WQ) Discharge Permit Number: WQ - (8 digit ID)

Name of Wastewater Facility: \_\_\_\_\_

Name of Permittee: \_\_\_\_\_

Date of last TCEQ compliance inspection: \_\_\_\_\_ (attach TCEQ letter)

Subdivisions served: \_\_\_\_\_

Date of application to transfer permit *submitted* to TCEQ: \_\_\_\_\_

23. List the number of *existing* connections, by meter/connection type, to be affected by the proposed transaction:

Water				Sewer	
	Non-metered		2"		Residential
135	5/8" or 3/4"		3"		Commercial
	1"		4"		Industrial
	1 1/2"		Other		Other
Total Water Connections:			135	Total Sewer Connections:	

24. A. Are any improvements required to meet TCEQ or Commission standards?

No  Yes

B. Provide details on each required major capital improvement necessary to correct deficiencies to meet the TCEQ or Commission standards (attach any engineering reports or TCEQ approval letters):

Description of the Capital Improvement:	Estimated Completion Date:	Estimated Cost:
See Attachments I and J		

C. Is there a moratorium on new connections?

No  Yes:

25. Does the system being transferred operate within the corporate boundaries of a municipality?

No  Yes: \_\_\_\_\_ (name of municipality)

If yes, indicate the number of customers within the municipal boundary.

Water: \_\_\_\_\_ Sewer: \_\_\_\_\_

26. A. Does the system being transferred purchase water or sewer treatment capacity from another source?

No  Yes: If yes, attach a copy of purchase agreement or contract.

Capacity is purchased from: \_\_\_\_\_

Water: \_\_\_\_\_

Sewer: \_\_\_\_\_

B. Is the PWS required to purchase water to meet capacity requirements or drinking water standards?

No  Yes

C. What is the amount of water supply or sewer treatment purchased, per the agreement or contract? What is the percent of overall demand supplied by purchased water or sewer treatment (if any)?

	Amount in Gallons	Percent of demand
Water:		0.00%
Sewer:		0.00%

D. Will the purchase agreement or contract be transferred to the Transferee?

No  Yes:

27. Does the PWS or sewer treatment plant have adequate capacity to meet the current and projected demands in the requested area?

No  Yes: **See Attachments J and K.**

28. List the name, class, and TCEQ license number of the operator that will be responsible for the operations of the water or sewer utility service:

Name (as it appears on license)	Class	License No.	Water or Sewer
Zachary King	C	WG-0010543	Water
Timothy Young	A	WO-00229245	Water
Professional General Management Services Inc		WC0000203	Water

**Part G: Mapping & Affidavits**

**ALL applications require mapping information to be filed in conjunction with the STM application.**  
*Read question 29 A and B to determine what information is required for your application.*

29. A. For applications requesting to transfer an entire CCN, without a CCN boundary adjustment, provide the following mapping information with each of the seven (7) copies of the application:

1. A general location (small scale) map identifying the requested area in reference to the nearest county boundary, city, or town. The following guidance should be adhered to:
  - i. If the application requests to transfer certificated service areas for both water and sewer, separate maps must be provided for each.
  - ii. A hand drawn map, graphic, or diagram of the requested area is not considered an acceptable mapping document.

- iii. To maintain the integrity of the scale and quality of the map, copies must be exact duplicates of the original map. Therefore, copies of maps cannot be reduced or enlarged from the original map, or in black and white if the original map is in color.

- 2. A detailed (large scale) map identifying the requested area in reference to verifiable man-made and natural landmarks such as roads, rivers, and railroads. The Applicant should adhere to the following guidance:
  - i. The map must be clearly labeled and the outer boundary of the requested area should be marked in reference to the verifiable man-made or natural landmarks. These verifiable man-made or natural landmarks must be labeled and marked on the map as well.
  - ii. If the application requests an amendment for both water and sewer certificated service area, separate maps need to be provided for each.
  - iii. To maintain the integrity of the scale and quality of the map, copies must be exact duplicates of the original map. Therefore, copies of maps cannot be reduced or enlarged from the original map, or in black and white if the original map is in color.
  - iv. The outer boundary of the requested area should not be covered by any labels, roads, city limits or extraterritorial jurisdiction (ETJ) boundaries.

**B.** For applications that are requesting to include area not currently within a CCN, or for applications that require a CCN amendment (any change in a CCN boundary), such as the transfer of only a portion of a certificated service area, provide the following mapping information with each of the seven (7) copies of the application:

- 1. A general location (small scale) map identifying the requested area with enough detail to locate the requested area in reference to the nearest county boundary, city, or town. Please refer to the mapping guidance in part A 1 (above).
- 2. A detailed (large scale) map identifying the requested area with enough detail to accurately locate the requested area in reference to verifiable man-made or natural landmarks such as roads, rivers, or railroads. Please refer to the mapping guidance in part A 2 (above).
- 3. One of the following identifying the requested area:
  - i. A metes and bounds survey sealed or embossed by either a licensed state land surveyor or a registered professional land surveyor. Please refer to the mapping guidance in part A 2 (above);
  - ii. A recorded plat. If the plat does not provide sufficient detail, Staff may request additional mapping information. Please refer to the mapping guidance in part A 2 (above); or
  - iii. Digital mapping data in a shapefile (SHP) format georeferenced in either NAD 83 Texas State Plane Coordinate System (US Feet) or in NAD 83 Texas Statewide Mapping System (Meters). The digital mapping data shall include a single, continuous polygon record. The following guidance should be adhered to:
    - a. The digital mapping data must correspond to the same requested area as shown on the general location and detailed maps. The requested area must be clearly labeled as either the water or sewer requested area.
    - b. A shapefile should include six files (.dbf, .shp, .shx, .sbx, .sbn, and the projection (.prj) file).
    - c. The digital mapping data shall be filed on a data disk (CD or USB drive), clearly labeled, and filed with Central Records. Seven (7) copies of the digital mapping data is also required.

**Part H: Notice Information**

The following information will be used to generate the proposed notice for the application.  
**DO NOT provide notice** of the application until it is found sufficient and the Applicants are ordered to provide notice.

30. Complete the following using verifiable man-made or natural landmarks such as roads, rivers, or railroads to describe the requested area (to be stated in the notice documents). Measurements should be approximated from the outermost boundary of the requested area:

The total acreage of the requested area is approximately: 83.70

Number of customer connections in the requested area: 135

Affected subdivision : Oak Hill Estates

The closest city or town: Humble

Approximate mileage to closest city or town center: 5

Direction to closest city or town: East

The requested area is generally bounded on the North by: Island Lake Loop W

on the East by: Lee Road

on the South by: Spring Creek Circle W

on the West by: Maria Amore St. & Island Lake Loop W

31. A copy of the proposed map will be available at: Coffin Renner LLP, 1011 W. 31st Street, Austin Texas 78705

32. What effect will the proposed transaction have on an average bill to be charged to the affected customers? Take into consideration the average consumption of the requested area, as well as any other factors that would increase or decrease a customer's monthly bill.

All of the customers will be charged the same rates they were charged before the transaction.

All of the customers will be charged different rates than they were charged before the transaction.

higher monthly bill     lower monthly bill

Some customers will be charged different rates than they were charged before  
(i.e. inside city limit customers)

higher monthly bill     lower monthly bill

Oath for Transferor (Transferring Entity)

STATE OF TEXAS

COUNTY OF TRINITY

I, GARY GILBERT being duly sworn, file this application for sale, transfer, merger, consolidation, acquisition, lease, or rental, as Owner

(owner, member of partnership, title as officer of corporation, or authorized representative)

I attest that, in such capacity, I am qualified and authorized to file and verify such application, am personally familiar with the documents filed with this application, and have complied with all the requirements contained in the application; and, that all such statements made and matters set forth therein with respect to Applicant are true and correct. Statements about other parties are made on information and belief. I further state that the application is made in good faith and that this application does not duplicate any filing presently before the Commission.

I further state that I have been provided with a copy of the 16 TAC § 24.239 Commission rules. I am also authorized to agree and do agree to be bound by and comply with any outstanding enforcement orders of the Texas Commission on Environmental Quality, the Public Utility Commission of Texas or the Attorney General which have been issued to the system or facilities being acquired and recognize that I will be subject to administrative penalties or other enforcement actions if I do not comply.

Oath for Transferee (Acquiring Entity)

STATE OF MISSOURI

COUNTY OF ST. LOUIS

I, Josiah Cox being duly sworn, file this application for sale, transfer, merger, consolidation, acquisition, lease, or rental, as Manager of CSWR-Texas Utility Operating Company, LLC (owner, member of partnership, title as officer of corporation, or authorized representative)

I attest that, in such capacity, I am qualified and authorized to file and verify such application, am personally familiar with the documents filed with this application, and have complied with all the requirements contained in the application; and, that all such statements made and matters set forth therein with respect to Applicant are true and correct. Statements about other parties are made on information and belief. I further state that the application is made in good faith and that this application does not duplicate any filing presently before the Commission.

I further state that I have been provided with a copy of the 16 TAC § 24.239 Commission rules. I am also authorized to agree and do agree to be bound by and comply with any outstanding enforcement orders of the Texas Commission on Environmental Quality, the Public Utility Commission of Texas or the Attorney General which have been issued to the system or facilities being acquired and recognize that I will be subject to administrative penalties or other enforcement actions if I do not comply.

[Handwritten signature]

AFFIANT (Utility's Authorized Representative)

If the Affiant to this form is any person other than the sole owner, partner, officer of the Applicant, or its attorney, a properly verified Power of Attorney must be enclosed.

SUBSCRIBED AND SWORN BEFORE ME, a Notary Public in and for the State of Missouri this day the 1st of June, 2022

**CSWR-TEXAS****Utility Operating Company**

A CSWR Managed Utility

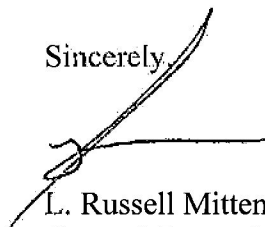

June 13, 2022

TO WHOM IT MAY CONCERN:

I am submitting this letter on behalf of Central States Water Resources, Inc. (sometimes referred to as "Company"), as General Counsel of both the Company and its affiliates. In that capacity, I am duly authorized to speak on the Company's behalf in this matter.

Central States Water Resources, Inc., is an affiliate of the applicant-buyer in this proceeding, CSWR-Texas Utility Operating Company, LLC ("CSWR Texas"). Under terms of each *Agreement for Sale of Utility System*, the Company has the express right to assign its interests in the agreement to an affiliated entity. Prior to or as part of the closing of an acquisition transaction, Central States Water Resources, Inc., will transfer all its interests in each such agreement to CSWR Texas, which will then serve as the owner and operator of the acquired system and the holder of all associated certificate number(s). Following the assignment, Central States Water Resources, Inc., will have no further interest in any acquired asset.

Sincerely,

L. Russell Mitten  
General Counsel

SECTION 1.0 -- RATE SCHEDULE (Continued)

RECONNECTION FEE

THE RECONNECT FEE MUST BE PAID BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS BEEN DISCONNECTED FOR THE FOLLOWING REASONS (OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF).

- a) Non-payment of bill (Maximum \$25.00) .....\$25.00
- b) Customer's request that service be disconnected.....\$40.00

TRANSFER FEE .....\$20.00

THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

LATE CHARGE (EITHER \$5.00 OR 10% OF THE BILL) ..... 10%

PUC RULES ALLOW A ONE-TIME PENALTY TO BE CHARGED ON DELINQUENT BILLS. A LATE CHARGE SHALL NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING

CUSTOMER DEPOSIT RESIDENTIAL (Maximum \$50) .....\$50.00

COMMERCIAL & NON-RESIDENTIAL DEPOSIT ..... 1/6TH OF ESTIMATED ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE:

WHEN AUTHORIZED IN WRITING BY PUC AND AFTER NOTICE TO CUSTOMERS, THE UTILITY SHALL INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND WATER TESTING [16 TAC 24 25(b)(2)]

LINE EXTENSION AND CONSTRUCTION CHARGES:

REFER TO SECTION 3.0--EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE

**PASS THROUGH PROVISION:**

For Utilities subject to changes in costs imposed by any non-affiliated provider of purchased water or sewer or a groundwater conservation district having jurisdiction over the Utility, these increases (decreases) shall be passed though as an adjustment to the gallonage charge according to the formula:

R = G / (1-L), where:

- R = new proposed pass through rate;
- G = new gallonage charge by source supplier (per 1,000 gallons);
- L = water line loss for preceding 12 months, not to exceed 0.15

SECTION 2.0 - SERVICE RULES AND REGULATIONS

Section 2.01 - Public Utility Commission of Texas Rules

The utility will have the most current Public Utility Commission of Texas Rules, Chapter 24, available at its office for reference purposes. The Rules and this tariff shall be available for public inspection and reproduction at a reasonable cost. The latest Rules or Commission approved changes to the Rules supersede any rules or requirements in this tariff.

Section 2.02 - Application for and Provision of Water Service

All applications for service will be made on the utility's standard application or contract form (attached in the Appendix to this tariff) and will be signed by the applicant before water service is provided by the utility. A separate application or contract will be made for each service location.

After the applicant has met all the requirements, conditions and regulations for service, the utility will install tap, meter and utility cut-off valve and/or take all necessary actions to initiate service. The utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the utility will provide the applicant with a written explanation of the construction required and an expected date of service.

Where service has previously been provided, service will be reconnected within one working day after the applicant has met the requirements for reconnection.

The customer will be responsible for furnishing and laying the necessary customer service pipe from the meter location to the place of consumption. Customers may be required to install a customer owned cut-off valve on the customer's side of the meter or connection.

Section 2.03 - Refusal of Service

The utility may decline to serve an applicant until the applicant has complied with the regulations of the regulatory agencies (state and municipal regulations) and for the reasons outlined in the PUC Rules. In the event that the utility refuses to serve an applicant, the utility will inform the applicant in writing of the basis of its refusal. The utility is also required to inform the applicant a complaint may be filed with the Commission.

Section 2.04 - Customer Deposits

If a residential applicant cannot establish credit to the satisfaction of the utility, the applicant may be required to pay a deposit as provided for in Section 1.02 of this tariff. The utility will keep records of the deposit and credit interest in accordance with PUC Rules.

Residential applicants 65 years of age or older may not be required to pay deposits unless the applicant has an outstanding account balance with the utility or another water or sewer utility which accrued within the last two years.

**Tariff Control No. 51915**

PUBLIC UTILITY COMMISSION OF TEXAS  
APPROVED  
DOCKET  
APR - 1 2021 5 19 15

SECTION 2.0 - SERVICE RULES AND REGULATIONS (Continued)

Nonresidential applicants who cannot establish credit to the satisfaction of the utility may be required to make a deposit that does not exceed an amount equivalent to one-sixth of the estimated annual billings.

Refund of deposit. - If service is not connected, or after disconnection of service, the utility will promptly refund the customer's deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. The utility may refund the deposit at any time before termination of utility service but must refund the deposit plus interest for any customer who has paid 18 consecutive billings without being delinquent.

Section 2.05 - Meter Requirements, Readings, and Testing

All water sold by the utility will be billed based on meter measurements. The utility will provide, install, own and maintain meters to measure amounts of water consumed by its customers. One meter is required for each residential, commercial or industrial facility in accordance with the PUC and TCEQ Rules.

Service meters will be read at monthly intervals and as nearly as possible on the corresponding day of each monthly meter reading period unless otherwise authorized by the Commission.

Meter tests. The utility will, upon the request of a customer, and, if the customer so desires, in his or her presence or in that of his or her authorized representative, make without charge a test of the accuracy of the customer's meter. If the customer asks to observe the test, the test will be made during the utility's normal working hours at a time convenient to the customer. Whenever possible, the test will be made on the customer's premises, but may, at the utility's discretion, be made at the utility's testing facility. If within a period of two years the customer requests a new test, the utility will make the test, but if the meter is found to be within the accuracy standards established by the American Water Works Association, the utility will charge the customer a fee which reflects the cost to test the meter up to a maximum \$25 for a residential customer. Following the completion of any requested test, the utility will promptly advise the customer of the date of removal of the meter, the date of the test, the result of the test, and who made the test.

Section 2.06 - Billing

Bills from the utility will be mailed monthly unless otherwise authorized by the Commission. The due date of bills for utility service will be at least sixteen (16) days from the date of issuance. The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the utility will constitute proof of the date of issuance. Payment for utility service is delinquent if full payment, including late fees and the regulatory assessment, is not received at the utility or the utility's authorized payment agency by 5:00 p.m. on the due date. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next workday after the due date.

T

SECTION 2.0 - SERVICE RULES AND REGULATIONS (Continued)

A late penalty of five dollars (\$5.00) will be charged on bills received after the due date. The penalty on delinquent bills will not be applied to any balance to which the penalty was applied in a previous billing. The utility must maintain a record of the date of mailing to charge the late penalty.

Each bill will provide all information required by the PUC Rules. For each of the systems it operates, the utility will maintain and note on the monthly bill a telephone number (or numbers) which may be reached by a local call by customers. At the utility's option, a toll-free telephone number or the equivalent may be provided.

In the event of a dispute between a customer and a utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the utility will inform the customer that a complaint may be filed with the Commission.

Section 2.07 - Service Disconnection

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered.

The utility is encouraged to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 30 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with the PUC Rules.

Section 2.08 - Reconnection of Service

Utility service may also be disconnected without notice for reasons as described in the PUC Rules.

Utility personnel must be available to collect payments and to reconnect service on the day of and the day after any disconnection of service unless service was disconnected at the customer's request or due to a hazardous condition.

Service will be reconnected within 36 hours after the past due bill and any other outstanding charges are paid or correction of the conditions which caused service to be disconnected.

SECTION 2.0 - SERVICE RULES AND REGULATIONS (Continued)

Section 2.09 - Service Interruptions

The utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the utility will re-establish service within the shortest possible time. Except for momentary interruptions due to automatic equipment operations, the utility will keep a complete record of all interruptions, both emergency and scheduled and will notify the Commission in writing of any service interruptions affecting the entire system or any major division of the system lasting more than four hours. The notice will explain the cause of the interruptions.

Prorated Bills - If service is interrupted or seriously impaired for 24 consecutive hours or more, the utility will prorate the monthly base bill in proportion to the time service was not available to reflect this loss of service.

Section 2.10 - Quality of Service

The utility will plan, furnish, and maintain production, treatment, storage, transmission, and distribution facilities of sufficient size and capacity to provide a continuous and adequate supply of water for all reasonable consumer uses. Unless otherwise authorized by the Commission, the utility will maintain facilities as described in the Texas Commission on Environmental Quality (TCEQ) Rules and Regulations for Public Water Systems.

Section 2.11 - Customer Complaints and Disputes

If a customer or applicant for service lodges a complaint, the utility will promptly make a suitable investigation and advise the complainant of the results. Service will not be disconnected pending completion of the investigation. If the complainant is dissatisfied with the utility's response, the utility must advise the complainant that he has recourse through the PUC complaint process. Pending resolution of a complaint, the commission may require continuation or restoration of service.

The utility will maintain a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint and the adjustment or disposition thereof, for a period of two years after the final settlement of the complaint.

**Tariff Control No. 51915**

PUBLIC UTILITY COMMISSION OF TEXAS  
APPROVED  
DOCKET  
APR - 1 2021 5 19 15

SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS

This section contains specific utility service rules in addition to the rules previously listed under Section 2.0. It must be reviewed and approved by the Commission and in compliance with PUC Rules to be effective.

The utility adopts the administrative rules of the PUC, as the same may be amended from time to time, as its company specific service rules and regulations. These rules will be kept on file at the company's offices for customer inspection during regular business hours. In the event of a conflict between the PUC's amended rules and the provisions of this tariff, the amended rules shall prevail. Where necessary, any conflicting provision of this tariff shall be deemed to have been superseded by the PUC rule in question to the degree that the Utility may conduct its lawful business in conformance with all requirements of said rule.

All references in Utility's tariff, service contracts or PUC rule shall mean the utility's offices at 1222 Antoine, Houston, Texas 77055. Customers may make payments, apply for service and report service problems at the alternate local office. Utility reserves the right to designate the business offices of its contractor operations company as its local office after notice to affected customers. Use of the term "business office" shall refer to any of these offices.

All payments for utility service shall be delivered or mailed to the utility's business office. If the business office fails to receive payment before the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled. Utility service crews shall not be allowed to collect payments on customer accounts in the field.

Payment of an account by any means that has been dishonored and returned by the payor or payee's bank shall be deemed to be delinquent. All returned payments must be redeemed with cash or valid money order. If a customer has two returned payments within a twelve-month period, the customer shall be required to pay a deposit if one has not already been paid.

Customers shall not be allowed to use the utility's cutoff valve on the utility's side of the meter. Existing customers may install cutoff valves on their side of the meter and are encouraged to do so. All new customers must install customer-owned and -maintained cutoff valves on their side of the meter.

No water connection from any public drinking water supply system shall be made to any establishment where an actual or potential contamination or system hazard exists without an air gap separation between the drinking water supply and the source of potential contamination. The containment air gap is sometimes impractical and, instead, reliance must be placed on individual "internal" air gaps or mechanical backflow prevention devices.

Under these conditions, additional protection shall be required at the meter in the form of a backflow prevention device (in accordance with AWWA Standards C510 and C511, and AWWA Manual M14) on those establishments handling substances deleterious or hazardous to the public health. The water purveyor need not require backflow protection at the water service entrance if an adequate cross-connection control program is in effect that includes an annual inspection and testing by a certified backflow prevention device tester. It will be the responsibility of the water purveyor to ensure that these requirements are met.

**Tariff Control No. 51915**

PUBLIC UTILITY COMMISSION OF TEXAS  
APPROVED

APR - 1.2021

DOCKET

5 19 15

SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Continued)

**Customer shall be liable for any damage or injury to utility-owned property or personnel** shown to be caused by the customer, his invitees, his agents, his employees, or others directly under his control.

**Limitation on Product/Service Liability** - Public water utilities are required to deliver water to the customer's side of the meter or service connection that meets the potability and pressure standards of the PUC and TCEQ. The utility will not accept liability for any injury or damage to individuals or their property occurring on the customer's side of the meter when the water delivered meets these state standards. The utility makes no representations or warranties (expressed or implied) that customer's appliances will not be damaged by disruptions of or fluctuations in water service whatever the cause. The utility will not accept liability for injuries or damages to persons or property due to disruption of water service caused by: (1) acts of God, (2) acts of third parties not subject to the control of the utility if the utility has undertaken such preventive measures as are required by PUC and/or TCEQ rules, (3) electrical power failures in water systems not required by TCEQ rule to have auxiliary power supplies, or (4) termination of water service pursuant to the utility's tariff and the PUC's rules. The utility is not required by law and does not provide fire prevention or fire fighting services. The utility therefore does not accept liability for fire-related injuries or damages to persons or property caused or aggravated by the availability (or lack thereof) of water or water pressure (or lack thereof) during fire emergencies. The utility will accept liability for any injury or damage to individuals or their property directly caused by defective utility plant (leaking water lines or meters) or the repairs to or construction of the utility's facilities.

If the services of a registered professional engineer are required as a result of an application for service received by the Utility for service to that applicant's service extension only, the Utility and the applicant will select such engineer, and the applicant shall bear all expenses incurred therein.

If an applicant requires service other than the standard service provided by the utility, such applicant will be required to pay all expenses incurred by the utility in excess of the expenses that would be incurred in providing the standard service and connection. Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction (as may be allowed by PUC rule) for the actual costs of, any additional facilities required to maintain compliance with the TCEQ minimum design criteria for water production, treatment, pumping storage and transmission.

Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be entitled to a written explanation of such costs before payment and/or commencement of construction.

If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant or existing customer shall have the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's or existing customer's property(ies) is located.

Tap fees may be increased by unique costs not normally incurred as may be permitted by 16 TAC § 24.163(a)(1)(C).

SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Continued)

The Utility adopts the Uniform Plumbing Code pursuant to 30 TAC § 290.46(i). The piping and other equipment on the premises furnished by the customer will be maintained by the customer at all times in conformity with the requirements of the PUC, TCEQ, the Uniform Plumbing Code and with the service rules and regulations of the Utility. The customer will bring out his service line to his property line at the point on the customer's property mutually acceptable to the customer and the Utility subject to such requirements as may exist by PUC rule. No water service smaller than 5/8" will be connected. No pipe or pipe fitting which contains more than 8.0% lead can be used for the installation or repair of plumbing at any connection, which provides water for human use. No solder or flux, which contains more than 0.2% lead, can be used at any connection that provides water for human use.

The utility will have the right of access to the customer's premises at all times reasonable for the purpose of installing, testing, inspecting or repairing water mains or other equipment used in connection with its provision of water service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of the utility system including inspecting the customer's plumbing for code, plumbing or tariff violations. The customer shall allow the utility and its personnel access to the customer's property to conduct any water quality tests or inspections required by law. Unless necessary to respond to equipment failure, leak or other condition creating an immediate threat to public health and safety or the continued provision of adequate utility service to others, such entry upon the customer's property shall be during normal business hours. The customer may require any utility representative, employee, contractor, or agent seeking to make such entry identify themselves, their affiliation with the utility, and the purpose of their entry.

**Threats to or assaults upon utility personnel shall result in criminal prosecution.**

Except in cases where the customer has a contract with the utility for reserve or auxiliary service, no other water service will be used by the customer on the same installation in conjunction with the utility's service, either by means of a crossover valve or any other connection. Customer shall not connect, or allow any other person or party to connect, onto any water lines on his premises. Two places shall not be permitted to be supplied with one service pipe where there is a water main abutting the premises.

No connection shall be allowed which allows water to be returned to the public drinking water supply. No backflow prevention device shall be permitted to be installed in the customer's plumbing without notice to and written permission from the utility. Any backflow prevention devices so installed shall be inspected annually by a licensed backflow prevention device inspector or appropriately licensed plumber and a written report of such inspection delivered to the utility.

No application, agreement or contract for service may be assigned or transferred without the written consent of the utility.

**Tariff Control No. 51915**

SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Continued)

It is agreed and understood that any and all meters, water lines and other equipment furnished by the utility (excepting the customer's individual service lines from the point of connection to customer's structures on customer's premises) are and shall remain the sole property of the utility, and nothing contained herein or in a contract/application for service shall be construed to reflect a sale or transfer of any such meters, lines or equipment to any customer. All tap and extension charges shall be for the privilege of connecting to said water lines and for installation, not purchase, of said meters and lines.

Applicants for service at new consuming facilities or facilities which have undergone extensive plumbing modifications are required to deliver to the Utility a certificate that their facilities have been inspected by a state-licensed inspector and that they are in compliance with all applicable plumbing codes and are free of potential hazards to public health and safety. Service may be denied until the certificate is received or any identified violations or hazards are remedied. The Utility is not required to perform these inspections for the applicant/customer, but will assist the applicant/customer to locate and obtain the services of a licensed inspector in a timely manner. When potential sources of contamination are identified which, in the opinion of the inspector or the Utility, require the installation of a state-approved backflow prevention device, such back flow prevention device shall be installed on the customer's service line or other necessary plumbing facilities by an appropriately licensed plumber/back flow prevention device specialist at the customer's expense. The backflow prevention device shall be maintained by the customer at his expense and inspected annually by a licensed inspector. Copies of the annual inspection report must be provided to the Utility. Failure to comply with this requirement may constitute grounds for termination of water service with notice.

All customers or service applicants shall provide access to meters and utility cutoff valves at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply. Access to meters and cutoff valves shall be controlled by the provisions of 16 TAC § 24.89(c).

Where necessary to serve an applicant's property, the Utility may require the applicant to provide it a permanent recorded public utility easement on and across the applicant's real property sufficient to provide service to that applicant.

Service applicants may be required to comply with any pre-condition to receiving service not printed herein as may exist under PUC, TCEQ rule (customer service, health and safety, water conservation, or environmental), USEPA rule, TWDB rule, local water or conservation district rule or health department rule. Existing customers shall be required to comply with such rules, including modification of their plumbing and/or consumption patterns, after notice.

SECTION 3.0 - EXTENSION POLICY

Section 3.01 - Standard Extension Requirements

LINE EXTENSION AND CONSTRUCTION CHARGES. No contribution in aid of construction may be required of any customer except as provided for in this approved extension policy.

The customer will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the utility and the customer, or sharing of costs between the customer and other applicants before beginning construction.

The utility will bear the full cost of any oversizing of water mains necessary to serve other customers in the immediate area. The individual residential customer shall not be charged for any additional production, storage, or treatment facilities. Contributions in aid of construction may not be required of individual residential customers for production, storage, treatment or transmission facilities unless otherwise approved by the Commission under this specific extension policy.

COST UTILITIES SHALL BEAR. Within its certificate area, the utility will pay the cost of the first 200 feet of any water main or distribution line necessary to extend service to an individual residential customer within a platted subdivision. However, if the residential customer requesting service purchased the property after the developer was notified of the need to provide facilities to the utility, the utility may charge for the first 200 feet. The utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the utility's approved extension policy after receiving a written request from the utility.

Developers may be required to provide contributions in aid of construction in amounts to furnish the system with all facilities necessary to comply with the PUC.

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY

This section contains the utility's specific extension policy that complies with the requirements already stated under Section 3.01. It must be reviewed and approved by the Commission and in compliance with PUC Rules to be effective.

Residential customers not covered under Section 3.01 will be charged the equivalent of the costs of extending service to their property from the nearest transmission or distribution line even if that line does not have adequate capacity to serve the customer.

However, if the customer places unique, non-standard service demands upon the system, the customer may be charged the full cost of extending service to and throughout their property, including the cost of all necessary transmission and storage facilities necessary to meet the service demands anticipated to be created by that property.

Developers may be required to provide contributions in aid of construction in amounts sufficient to furnish the development with all facilities necessary to provide for reasonable local demand requirements and to comply with TCEQ minimum design criteria for facilities used in the production, transmission, pumping, or treatment of water or TCEQ minimum requirements. For purposes of this subsection, a developer is one who subdivides or requests more than two meters on a piece of property. Commercial, industrial, and wholesale customers will be treated as developers.

The utility adopts the administrative rules of the PUC, as amended from time to time, as its company specific extension policy. These rules will be kept on file at the company's business office for customer inspection during normal business hours. In the event of a conflict between the PUC's amended rules and the provisions of this tariff, the amended rules shall prevail. Where necessary, any conflicting provision of this tariff shall be deemed to have been superseded by the PUC rule in question to the degree that the Utility may conduct its lawful business in conformance with all requirements of said rule.

When an individual residential applicant requires an extension of a main line beyond 200 feet, the charge to that applicant shall be the actual cost of such extension in excess of 200 feet, plus the applicable tap fee plus such other approved costs as may be provided in this tariff and/or PUC rules.

Residential tap fees may be increased by other unique costs not normally incurred as permitted by PUC rule. Larger meter taps shall be made at actual cost associated with that tap which shall include such extraordinary expenses.

Any service extension to a subdivision (recorded or unrecorded) may be subject to the provisions and restrictions of 16 TAC § 24.163(d) and this tariff. When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge based upon the capacities of production, transmission, storage, pumping and treatment facilities, compliant with the TCEQ minimum design criteria, which must be committed to such extension. As provided by 16 TAC § 24.163(c)(3), for purposes of this section, commercial, industrial, and wholesale customers shall be treated as developers.

**Tariff Control No. 51915**

PUBLIC UTILITY COMMISSION OF TEXAS  
APPROVED

APR - 1.2021  
DOCKET  
5 19 15

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Continued)

Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction for the actual costs of any additional facilities required to maintain compliance with the TCEQ minimum design criteria for water production, treatment, pumping, storage and transmission.

Unless expressly exempted by PUC rule or order, each point of use (as defined by 16 TAC § 24.3) must be individually metered.

The imposition of additional extension costs or charges as provided by Sections 2.20 and 3.20 of this tariff shall be subject to appeal as provided in this tariff, PUC rules, or the rules of such other regulatory authority as may have jurisdiction over the utility's rates and services.

Any applicant required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be entitled to a written explanation of such costs before payment and/or commencement of construction. If the applicant does not believe that these costs are reasonable or necessary, the applicant shall have the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's property(ies) is located. Unless the PUC or other regulatory authority enters interlocutory orders to the contrary, service to the applicant may be delayed until such appeal is resolved.

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than any individual applicant desires one service connection. Service applications forms will be available for applicant pick up at the Utility's business office during normal weekday business hours. Service applications will be sent by prepaid first class United States mail to the address provided by the applicant upon request. Completed applications should be returned by hand delivery in case there are questions that might delay fulfilling the service request. Completed service applications may be submitted by mail if hand delivery is not possible.

The Utility shall serve each qualified service applicant within its certificated service area as soon as practical after receiving a completed service application. All service requests will be fulfilled within the time limits prescribed by PUC rules once the applicant has met all conditions precedent to achieving "qualified service applicant" status. If a service request cannot be fulfilled within the required period, the applicant shall be notified in writing of the delay, its cause and the anticipated date that service will be available. The PUC service dates shall not become applicable until the service applicant has met all conditions precedent to becoming a "qualified service applicant" as defined herein or by PUC rules.

The Utility is not required to extend service to any applicant outside of its certificated service area and will only do so, at the Utility's sole option, under terms and conditions mutually agreeable to the Utility and the applicant and upon extension of the Utility's certificated service area boundaries by the PUC. Service applicants may be required to bear the cost of the service area amendment.

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Continued)

A "**qualified service applicant**" is an applicant who has: (1) met all of the Utility's requirements of service contained in this tariff, PUC rules and/or PUC order, (2) has made all payments for tap fees and extension charges, (3) has provided all necessary easements and rights-of-way necessary to provide service to the requested location, including staking said easements or rights-of-way where necessary, (4) delivered an executed customer service inspection certificate to the Utility and (5) has executed a customer service application for each location to which service is being requested.

Where a new tap or service connection is required, the service applicant shall be required to submit a written service application and request that a tap is made. The tap request must be accompanied with a plat, map, diagram or written metes and bounds description of precisely where the applicant desires each tap or service connection is to be made and, if necessary, where the meter is to be installed, along the applicant's property line. The actual point of connection and meter installation must be readily accessible to Utility personnel for inspection, servicing and meter reading while being reasonably secure from damage by vehicles and mowers. If the Utility has more than one main adjacent to the service applicant's property, the tap or service connection will be made to the Utility's near service main with adequate capacity to service the applicant's full potential service demand. If the tap or service connection cannot be made at the applicant's desired location, it will be made at another location mutually acceptable to the applicant and the Utility. If no agreement on location can be made, applicant may refer the matter to the PUC for resolution. Unless otherwise ordered by the PUC, the tap or service connection will not be made until the location dispute is resolved.

The Utility shall require a developer (as defined by PUC rule) to provide permanent recorded public utility easements as a condition of service to any location within the developer's property. The Developer shall be required to obtain all necessary easements and rights-of-way required to extend the Utility's existing service facilities from their nearest point with adequate service capacity (as prescribed by PUC, TCEQ rules and local service conditions) to and throughout the Developer's property. The easements shall be sufficient to allow the construction, installation, repair, maintenance, testing, and replacement of any and all utility plant necessary to provide continuous and adequate service to each and every potential service location within the property at full occupancy. Unless otherwise restricted by law, well plant sites shall convey with unrestricted rights to produce water for public drinking water supply.

Developers shall be required to provide sanitary control easements acceptable to the TCEQ for each water well site to be located within their property or otherwise being obtained to serve their property. Unless otherwise agreed to by the Utility, pipe line right-of-way easements must be at least 15 feet wide to allow adequate room to facilitate backhoe and other heavy equipment operation and meters. Easements must be provided for all production, storage, treatment, pressurization and disposal sites that are sufficient to construct and maintain all weather roads as prescribed by TCEQ rules. All easements shall be evidenced, at Developer's expense, by recorded county-approved subdivision plat or by specific assignment supported by metes and bounds survey from a surveyor licensed by the State of Texas.

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Continued)

Before the extension of utility service to developers (as defined by PUC rules) or new subdivisions, the Developer shall comply with the following:

- (a) The Developer shall make a written request for service to property that is to be subdivided and developed. The Developer shall submit to the Utility a proposed plat on a scale of one inch (1") to two hundred feet (200') for review and determination of required easements, utility plant, and plant location. If sewer service is requested, the plat must contain elevation data. A reconcilable deposit in an amount set by the Utility may be required to cover preliminary engineering, legal and copy cost to be incurred by the Utility in reviewing and planning to meet this service request. The plat and/or accompanying information shall identify the type, location and number of houses and other planned structures that will be requiring utility service. If other than residential structures are to be located on the property, all other types of anticipated businesses and their service demands shall be identified with specificity. All areas requiring special irrigation and/or other unique water demands must be identified. To the extent reasonably possible, this information must be precise so that adequate facilities can be designed and constructed to meet all future service demands without hazard to the public, other utility customers and/or the environment.
- (b) After the requirements of easements and rights-of-way have been determined, a red line copy will be returned by the Utility to the Developer for final plat preparation.
- (c) Copies of all proposed plats and plans must be submitted to the Utility before their submission to the county for approval to insure that they are compatible with the adequate long-term utility needs of potential service customers. Copies will be returned after review by the Utility so that necessary changes may be incorporated into the Developer's final submitted plat(s) and plans.
- (d) The Utility shall be provided with three (3) certified copies of the final plat(s) approved by the County Commissioners Court. At this time, the Utility will begin engineering the facilities necessary to serve the property. Plans and specifications will be prepared and submitted to the TCEQ by the Utility if required by law. If further plat or plans changes are necessary to accommodate the specific service needs of the property and the anticipated customer demands, the Developer will be so notified. Plat amendments must be obtained by the Developer. The Developer shall be notified when all required PUC, TCEQ or other governmental approvals or permits have been received. No construction of utility plant that requires prior TCEQ plans approval shall be commenced until that approval has been received by the Utility and any conditions imposed by the TCEQ in association with its approvals have been satisfied.
- (e) The Developer shall be required to post bond or escrow the funds necessary to construct all required utility plant, except individual taps, meters and sewer connections, required to serve the property. Construction shall not commence until funds are available. If the construction is to be done in coordination with the phased development of the property, funds must be provided in advance which are sufficient to complete each phase. No phase or facilities for any phase shall be constructed before the bonding or escrowing of all funds associated with that phase.

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Continued)

- (f) At the sole option of the Utility, the Developer may be required to execute a Developer Extension Contract setting forth all terms and conditions of extending service to their property including all contributions-in-aid of construction and developer reimbursements, if any.
- (g) The Utility may require the Developer to commence construction of subdivision improvements within three (3) months of utility plans approval or the Utility may abate its construction activities until full development construction begins. If the Developer stops construction of subdivision improvements for any purpose, the Utility may abate its construction for a similar period.
- (h) As soon as the roads are rough cut and before paving, extension lines will need to be constructed at each road crossing. The Developer must notify the Utility sufficiently in advance of this development stage to allow for the necessary utility construction without disruption to other service operations of the Utility. Failure to provide adequate advance notice and cooperation in the construction of necessary utility plant may result in additional delays in obtaining service to the property. The Developer shall be required to pay for all additional costs of road boring or other remedial construction necessary to install adequate utility plant throughout the affected property.
- (i) The Developer, not the Utility, shall insure that Developer's employees, agents, contractors and others under its control coordinate their work or construction throughout the property with the Utility to insure the orderly and timely construction of all utility plant necessary to serve the public.

Within its certificated area, the Utility shall bear the cost of the first 200 feet of any water main or sewer collection line necessary to extend service to an individual residential service applicant within a platted subdivision unless the Utility can document:

- (a) that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the Utility's approved extension policy after receiving a written request from the Utility; or,
- (b) that the Developer defaulted on the terms and conditions of a written agreement or contract existing between the utility and the developer or the terms of this tariff regarding payment for services, extensions, or other requirements; or in the event the Developer declared that the residential service applicant purchased the property from the Developer after the Developer was notified of the need to provide facilities to the utility. A residential service applicant may be charged the remaining costs of extending service to his property; provided, however, that the residential service applicant may only be required to pay the cost equivalent to the cost of extending the nearest water main, whether or not that line has adequate capacity to serve that residential service applicant. The following criteria shall be considered to determine the residential service applicant's cost for extending service:

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Continued)

- (1) The residential service applicant shall not be required to pay for costs of main extensions greater than 2" in diameter for water distribution.
- (2) Exceptions may be granted by the Commission if:
  - (A) adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the utility's burden to justify that a larger diameter pipe is required for adequate service;
  - (B) larger minimum line sizes are required under subdivision platting requirements or applicable building codes.
- (c) If an exception is granted, the Utility shall establish a proportional cost plan for the specific extension or a rebate plan which may be limited to seven years to return the portion of the applicant's costs for oversizing as new customers are added to ensure that future applicants for service on the line pay at least as much as the initial service applicant.

For purposes of determining the costs that service applicants shall pay, commercial customers with service demands greater than residential customer demands in the certificated area, industrial, and wholesale customers shall be treated as developers.

A service applicant requesting a one-inch meter for a lawn sprinkler system to service a residential lot is not considered nonstandard service.

APPENDIX B -- SAMPLE SERVICE AGREEMENT**Error! Bookmark not defined.**  
From 30 TAC Chapter 290.47(b), Appendix B  
SERVICE AGREEMENT

- I. PURPOSE. The NAME OF WATER SYSTEM is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is to notify each customer of the restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the NAME OF WATER SYSTEM will begin service. In addition, when service to an existing connection has been suspended or terminated, the water system will not re-establish service unless it has a signed copy of this agreement.
- II. RESTRICTIONS**Error! Bookmark not defined.**. The following unacceptable practices are prohibited by State regulations.
- A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device.
  - B. No cross-connection between the public drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
  - C. No connection which allows water to be returned to the public drinking water supply is permitted.
  - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
  - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. SERVICE AGREEMENT**Error! Bookmark not defined.**. The following are the terms of the service agreement between the NAME OF WATER SYSTEM (the Water System) and NAME OF CUSTOMER (the Customer).
- A. The Water System will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the Water System.
  - B. The Customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Water System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Water System's normal business hours.
  - C. The Water System shall notify the Customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
  - D. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
  - E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.
- IV. ENFORCEMENT**Error! Bookmark not defined.**. If the Customer fails to comply with the terms of the Service Agreement, the Water System shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

## **RESTATED OPERATING AGREEMENT OF CSWR-TEXAS UTILITY OPERATING COMPANY, LLC**

THIS OPERATING AGREEMENT (this "Agreement") is signed as of the 13<sup>th</sup> day of November, 2019 (the "Effective Date"), by **CSWR-TEXAS UTILITY HOLDING COMPANY, LLC**, a Texas limited liability company, as the sole Member of **CSWR-TEXAS UTILITY OPERATING COMPANY, LLC**, a Texas limited liability company (the "Company").

### **RECITALS**

WHEREAS, on July 16, 2019, the Company was organized a limited liability company under the laws of Texas pursuant to the Texas Limited Liability Company Act, Texas Business Organization Code Title 3 Chapter 101 (the "Act") for the purpose of, among other things, of investing in and operating water and waste water utilities;

WHEREAS, on September 23, 2019, the Company amended its name to "Yellow Rose Utility Operating Company, LLC", October 18, 2019 the Company amended its name to "Palmwood Water Utility Operating Company, LLC" and on November 13, 2019 the Company amended its name to "CSWR-Texas Utility Operating Company, LLC";

WHEREAS, the aforementioned Member desires to restate and adopt this Operating Agreement setting forth the Member's desire for the management and operation of such limited liability company.

NOW THEREFORE, in consideration of the mutual covenants and other good and valuable consideration, the receipt and legal sufficiency of which are hereby acknowledged, the Member hereby states as follows:

### **ARTICLE I. ORGANIZATION**

1.1. Certain Definitions. As used herein, the following terms have the following meanings:

- (a) "Act" is defined in Section 1.2 hereof.
- (b) "Agreement" means this Operating Agreement, as the same may be amended from time to time.
- (c) "Business Property" means all properties, assets and interests (whether real or personal, tangible or intangible) now or hereafter owned or held by the Company.
- (d) "Capital Account" means the Capital Account maintained by the Company for each Member in accordance with Treasury Regulations Section 1.704-1(b)(2)(iv), as amended from time to time.

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

(e) "Capital Contributions" means with respect to the Member, the total amount of money and the fair market value of the other property, if any, to be contributed to the Company by the Member in accordance with Article II hereof. The Member's "Paid-In Capital Contribution" means the amount of the Member's Capital Contribution actually paid in cash or other property actually contributed to or on behalf of the Company. With respect to the Company, such terms shall mean the aggregate Capital Contributions and aggregate Paid-In Capital Contributions, respectively, of the Member.

(f) "Capital Transaction" means any of the following items or transactions: a sale, transfer or other disposition of all or substantially all of the assets of the Company, condemnation actions, net insurance recoveries (other than for temporary loss of use), the refinancing of the mortgage or other indebtedness of the Company. The payment of Capital Contributions by the Member shall not be included within the meaning of the term "Capital Transaction."

(g) "Code" means the Internal Revenue Code of 1986, as amended from time to time, or any successor statute.

(h) "Company" means this limited liability company and any successors hereto.

(i) "Depreciation" means for each fiscal year, an amount equal to the depreciation, amortization or other cost recovery deduction allowable with respect to an asset for such fiscal year. In the event the book value of an asset differs from its adjusted tax basis at the beginning of such year, then the Depreciation shall be an amount which bears the same ratio to the fair market value (as may be adjusted pursuant to Treasury Regulations Section 1.704-1(b)(2)(iv)(f) and (g)) as the Depreciation determined for federal income tax purposes bears to the beginning adjusted tax basis.

(j) "Dissolution Proceeds" is defined in Section 10.2 hereof.

(k) "Net Profits" or "Net Losses" for the applicable period means the gross income of the Company minus (a) all net cash outlays of any kind, whether capital in nature or not, to the extent the same are not depreciable or amortizable for federal income tax purposes (or, as the context may require, to the extent the same are not depreciated or amortized for federal income tax purposes), including, without limiting the generality of the foregoing, all operating expenses payable by the Company, salaries, life insurance premiums on policies owned by the Company, and interest on any Company indebtedness; and (b) all Depreciation allowable for federal income tax purposes. In the event that such sum is a positive number, it shall be considered "Net Profits" and if the sum is a negative number, it shall be considered "Net Losses."

(l) "Person" is defined in Section 1.9 hereof.

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

(m) "Treasury Regulation(s)" means the Income Tax Regulations promulgated under the Code, as such Treasury Regulations may be amended or supplemented from time to time.

1.2. Formation. The Member has formed the Company under and pursuant to the provisions of the Act, for the limited purposes and scope set forth in this Agreement. The Member has filed in the appropriate governmental office(s) Articles of Organization which conform to the requirements of the Act in order to constitute the Company as a valid limited liability company under the Act. The costs and expenses associated with such filing shall be borne by the Company.

1.3. Name. The business and affairs of the Company shall be conducted solely under the name of "**CSWR-Texas Utility Operating Company, LLC**", and such name shall be used at all times in connection with the business and affairs of the Company; provided that the Member may operate the Company under any other name necessary or convenient to qualify it to do business in any state or jurisdiction.

1.4. Term. The Company shall continue in existence perpetually, or until dissolved by the Member under the terms of this Agreement.

1.5. Business of the Company. The business of the Company is to: (i) invest in and operate water and waste water utilities; (ii) own, finance, hold, manage, manufacture, sell, exchange or otherwise deal with and dispose of all or any part of the Business Property; and (iii) transact any and all lawful business for which a limited liability company may be organized under the Act and exercise all rights and engage in all activities related thereto (the "Business").

1.6. Principal Office. The principal office of the Company shall be at 500 Northwest Plaza Drive, Suite 500, St. Ann, MO 63074, or such other location as may be hereafter determined by the Manager.

1.7. Registered Office and Registered Agent. The name of the Company's registered agent for service of process in Texas and the address of the Company's registered office in Texas shall be as provided in the Articles of Organization. The Manager may in his sole discretion and from time to time change the address of the registered office and the registered agent by filing the documents required by law.

1.8. Articles of Organization and Other Instruments. The Member has executed or has authorized the execution of the Articles of Organization in accordance with the Act, and shall execute such other documents and instruments and take all such other actions as may be deemed by the Manager to be necessary or appropriate to effectuate and permit the continuation of the Company under the laws of the State of Texas or the laws of any other state in any other state which the Member deems necessary or appropriate. The Manager shall, from time to time, take appropriate action, including the preparation and filing of such other amendments to the Articles of Organization and other certificates as may be required under the laws of the State of Texas or any other state, to enable the Company to do business in the State of Texas or any other state.

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

1.9. Additional Definitions. The definitions in Section 1.1 shall apply equally to both the singular and plural forms of the terms defined. Whenever the context may require, any pronoun used herein shall include the corresponding masculine, feminine and neuter forms. The term "Person" includes individuals, partnerships, corporations, limited liability companies, trusts, and other associations and entities. The words "include," "includes," and "including" shall be deemed to be followed by the phrase "without limitation." The words "herein," "hereof," "hereunder," and similar terms shall refer to this Agreement, unless the context otherwise requires.

## **ARTICLE II. CAPITAL CONTRIBUTIONS**

2.1. Initial Capital Contributions. The Member shall make the Capital Contribution to the Company as reflected on Exhibit A attached hereto and incorporated herein by reference.

## **ARTICLE III. DISTRIBUTIONS**

3.1. Distributions. Except as otherwise requested by the Member or required by law, cash distributions shall be made to the Member on the following bases at such time (but at least annually) and in such amounts as the Manager in his sole discretion shall determine:

(a) Distributions, other than from a Capital Contribution, shall be made in the following order of priority:

(i) To the payment of liabilities of the Company then due and owing to Persons other than the Member;

(ii) To the Member, in an amount equal to the unpaid balance of principal and accrued interest of any loan by the Member to the Company;

(iii) The balance, if any, shall be distributed to the Member.

(b) The proceeds of any Capital Transaction and the distribution upon liquidation under Section 10.2 shall be made in the following order of priority:

(i) To the payment of liabilities of the Company then due and owing to Persons other than the Member;

(ii) To establish such reserves as the Manager in his discretion determines to be reasonably necessary for any contingent or foreseeable liability or obligation of the Company; provided, however, that the balance of any such reserve remaining at such time as the Manager shall reasonably determine shall be distributed in accordance with subparagraphs (iii) through (v) of this Section 3.1(b);

(iii) To the payment to the Member of an amount equal to the unpaid balance of principal and accrued interest of any Loan by the Member;

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

(iv) To the Member, an amount equal to its Capital Contributions reduced (but not below zero) by the amount of all prior distributions to it under this Section 3.1;

(v) The balance, if any, shall be distributed to the Member.

3.2. Distributions to Be Made In Cash. Unless otherwise determined by the Member, all distributions to the Member shall be made in cash.

**ARTICLE IV.  
ALLOCATION OF NET PROFITS AND NET LOSSES**

4.1. Profits and Losses. Net Profits and Net Losses incurred and/or accrued shall be allocated to the Member.

**ARTICLE V.  
ACCOUNTING; RECORDS**

5.1. Accounting Methods. The Company books and records shall be prepared in accordance with generally accepted accounting principles, consistently applied. All Federal, state and local tax returns of the Company shall be prepared by the Company's certified public accountants, under the direction of the Manager.

5.2. Fiscal Year. The fiscal year of the Company shall be the twelve calendar month period ending December 31.

5.3. Tax Status. The Member shall elect such tax status that it deems appropriate for each tax year by notifying the Manager of such election.

**ARTICLE VI.  
POWERS, RIGHTS AND DUTIES OF THE MEMBER AND MANAGER**

6.1. Restriction of the Member's Rights to Participate in Management. Except as otherwise expressly provided herein, the Member shall have no voice in, take any part in, nor interfere with, the conduct, control, or management of the business of the Company in its capacity as the Member, nor shall the Member have any authority or power to act for, or on behalf of, the Company, or to bind the Company in any respect whatsoever.

6.2. Member Consent. (a) The affirmative vote, approval or consent of the Member shall be required to: (i) alter the primary purposes of the Company as set forth in Section 1.5; (ii) do any act in contravention of this Agreement or cause the Company to engage in any business not authorized by the Articles of Organization or the terms of this Agreement; (iii) do any act which would make it impossible to carry on the usual course of business of the Company; (iv) change or reorganize the Company into any other legal form; (v) amend this Agreement; (vi) issue an Interest in the Company to any Person and admit such Person as a Member; (vii) approve a merger or consolidation with another Person, (viii) change the status of the Company from one in

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

which management is vested in the one or more Managers to one in which management is vested in the Member, or vice versa; (ix) possess any Company property or assign the rights of the Company in specific Company property for other than a Company purpose; (x) perform any act (other than an act required by this Agreement or any act taken in good faith reliance upon counsel's opinion) which would, at the time such act occurred, subject the Member to liability as a general partner in any jurisdiction; (xi) operate the Company in such a manner as to have the Company classified as an "investment company" for purposes of the Investment Company Act of 1940; (xii) have an order for relief entered against the Company under applicable federal bankruptcy law; OR (xiii) file a voluntary petition in bankruptcy or a petition or an answer seeking reorganization or an arrangement with creditors or taking advantage of any insolvency law or any answer admitting the material allegations of a petition filed against the Company in any bankruptcy, reorganization or insolvency proceeding.

(b) The Member shall have the right to replace a Manager of the Company and name its successor at any time by providing written notice to the Manager being replaced of such decision in which the successor Manager is also set forth.

### 6.3. Manager.

(a) The Manager shall have the power to do all things necessary or convenient to carry out the business affairs of the Company. The initial Manager shall be Central States Water Resources, Inc., a Missouri corporation.

(b) The Manager shall not have any contractual right to such position and shall serve until the earliest of (i) the withdrawal of the Manager, or (ii) the removal of the Manager. The Manager may be removed and replaced in accordance with the provisions of Section 6.2(b).

(c) Except to the extent provided herein, the Member hereby agrees that only the Manager and agents of the Company authorized by the Manager shall have the authority to bind the Company. The Member shall not take any action to bind the Company without notifying the Manager of such action. If the Member takes any action to bind the Company, it shall indemnify and hold harmless the Manager against any claim, loss, expense or liability (including, without limitation, attorneys' fees and expenses, whether or not litigation is commenced) incurred by the Manager as a result of the unauthorized action of such Member.

(d) The Manager's duty of care in the discharge of the duties of the Manager to the Company and the Member is limited to discharging his duties pursuant to this Agreement in good faith, with the care a corporate officer of like position would exercise under similar circumstances, in the manner he reasonably believes to be in the best interests of the Company. In discharging his duties, the Manager shall not be liable to the Company or to the Member for any mistake or error in judgment or for any act or omission believed in good faith to be within the scope of authority conferred by this Agreement or by separate written instrument executed by the Member.

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

(e) The Manager's compensation shall be established by the Member, and the Manager shall be entitled to reimbursement of any general overhead expenses incurred in the regular course of his duties.

#### 6.4. Indemnification

(a) The Company, except as provided in Section 6.4(b), shall indemnify any Person who is or was a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether criminal, civil, administrative or investigative, including without limitation any action by or in the right of the Company, by reason of the fact that he/it was or is a Member or Manager of the Company or is or was a Member or Manager of the Company who is or was serving at the request of the Company as a member, manager, director, officer, agent, employee, partner or trustee of another limited liability company, corporation, partnership, joint venture, trust or other enterprise; against expenses, including attorneys' fees, judgments, fines, taxes and amounts paid in settlement, actually and reasonably incurred by him in connection with such action, suit or proceeding if such Person's conduct is not finally adjudged to be knowingly fraudulent, deliberately dishonest or willful misconduct. The right to indemnification conferred in this paragraph shall be a contract right and shall include the right to be paid by the Company expenses incurred in defending any actual or threatened civil or criminal action, suit or proceeding in advance of the final disposition of such action, suit or proceeding. Such right will be conditioned upon receipt of an undertaking by or on behalf of the Member or manager to repay such amount if it shall ultimately be determined that he/it is not entitled to be indemnified by the Company as authorized in this Article. Such right shall survive any amendment or repeal of this Article with respect to expenses incurred in connection with claims, regardless of when such claims are brought, arising out of acts or omissions occurring prior to such amendment or repeal. The Company may, by action of the Member, provide indemnification to employees and agents of the Company with the same scope and effect as the foregoing indemnification of Member and Manager.

(b) If a claim under Section 6.4(a) is not paid in full by the Company within thirty (30) days after a written claim has been received by the Company, the claimant may at any time thereafter bring suit against the Company to recover the unpaid amount of the claim and, if successful in whole or in part, the claimant shall be entitled to be paid also the expense, including reasonable attorneys' fees and costs, of prosecuting such claim. It shall be a defense to any such action (other than an action brought to enforce a claim for expenses incurred in defending any proceeding in advance of its final disposition where the required undertaking, if any is required, has been tendered to the Company) that the claimant has not met the standards of conduct which make it permissible under the limited liability company law of Texas for the Company to indemnify the claimant for the amount claimed, but the burden of proving such defense shall be on the Company. Neither the failure of the Company (including the Member or independent legal counsel) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he/it has met the applicable standard of conduct set forth in the limited liability company law of Texas, nor an actual determination by the Company (including its Member or independent legal counsel) that the claimant has not met such

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

(c) The indemnification provided by this Section 6.4 shall not be deemed exclusive of any other rights to which those seeking indemnification may be entitled under any agreement, consent of the Member or otherwise, both as to action in his/its official capacity and as to action in another capacity while holding such office, and shall continue as to a Person who has ceased to be a Member, Manager, employee, partner, trustee or agent and shall inure to the benefit of the heirs, executors and administrators of such a Person.

(d) The Company may purchase and maintain insurance on behalf of any Person who is or was a Member, Manager, employee or agent of the Company, or is or was serving at the request of the Company as a member, manager, director, officer, employee, partner, trustee or agent of another limited liability company, corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him and incurred by him in any such capacity or arising out of his/its status as such, whether or not the Company would have the power to indemnify him against such liability under the provisions of this Section 6.4.

(e) For the purposes of this Section 6.4, references to the Company includes the resulting or surviving entity in any merger or consolidation so that any Person who is or was a Member, Manager, employee or agent of such a constituent entity or is or was serving at the request of such constituent entity as a member, manager, director, officer, employee, partner, trustee or agent of another limited liability company, corporation, partnership, joint venture, trust or other enterprise shall stand in the same position under the provisions of this Section 6.4 with respect to the resulting or surviving entity as he/it would if he/it had served the resulting or surviving entity in the same capacity.

(f) For purposes of this Section 6.4, the term "other enterprise" shall include employee benefit plans; the term "fines" shall include any excise taxes assessed on a Person with respect to any employee benefit plan; and the term "serving at the request of the Company" shall include any service as a member, manager, director, officer, employee, partner, trustee or agent of, or at the request of, the Company which imposes duties on, or involves services by, such member, manager, director, officer, employee, partner, trustee or agent with respect to an employee benefit plan, its participants, or beneficiaries.

(g) In the event any provision of this Section 6.4 shall be held invalid by any court of competent jurisdiction, such holding shall not invalidate any other provision of this Section 6.4 and any other provisions of this Section 6.4 shall be construed as if such invalid provision had not been contained in this Section 6.4. In any event, the Company shall indemnify any Person who is or was a Member or Manager of the Company, or is or was a Member or Manager of the Company who is or was serving at the request of the Company as a member, manager, director, officer, agent, employee, partner or trustee of another limited liability company, corporation, partnership, joint venture, trust or other enterprise, to the full extent permitted under Texas law, as from time to time in effect.

6.5. Liability of the Member. The Member shall not be liable as such for the liabilities of the Company. The failure of the Company to observe any formalities or requirements relating to the exercise of its powers or management of its business or affairs under this Agreement or the Act shall not be grounds for imposing personal liability on the Member or a Manager for liabilities of the Company.

**ARTICLE VII.  
DETERMINATIONS BY THE MEMBER**

7.1. Actions by the Member. The Member shall have the right to take any action set forth herein in accordance with the terms of the Agreement. In addition, if the Member determines that it wants to take an action that is not expressly granted to it within this Agreement, it shall take such action only after notifying the Manager in writing of the intended action.

**ARTICLE VIII.  
ACTIONS OF THE MANAGER**

8.1. Actions by the Manager. The Manager shall decide any question related to the operations of the Company, unless the question is one upon which, by express provision of the Act, the Articles of Organization or this Agreement, the Member is required to consent, in which case such express provision shall govern and control the decision on such question.

**ARTICLE IX.  
TRANSFER OF MEMBER'S INTEREST**

9.1. Transfer of Member's Interest. The Member shall have the right to transfer all or part of its Interest to another Person upon such terms that the Member deems acceptable. Prior to the effective date of the transfer of all or part of the Interest, the Member must notify the Manager of the transfer in writing.

9.2. Effect of Assignment; Documents. All Interests in the Company transferred pursuant to the provisions of this Article shall be subject to the restrictions and obligations set forth in this Agreement. As a condition to any Person being admitted as an additional Member or a substituted Member, such Person must execute this Agreement and agree to be bound by all of its terms and provisions as a substituted Member or additional Member.

**ARTICLE X.  
DISSOLUTION OF THE COMPANY**

10.1. Dissolution Acts.

(a) No act, thing, occurrence, event or circumstance shall cause or result in the dissolution of the Company except that the happening of any one of the following events shall work as an immediate dissolution and termination of the Company:

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

(i) A determination by Member to dissolve and terminate the Company; and

(ii) The event of the death of the Member.

(b) Without limiting the other provisions hereof, the transfer of all or any part of a Member's Interest, in accordance with the provisions of this Agreement or the admission of a new Member, shall not work the dissolution of the Company.

10.2. Distribution of Proceeds on Dissolution; Reserves. Upon the dissolution and termination of the Company, a the Member or such other Person designated by the Member (the "Winding-Up Member") shall file a Notice of Winding Up pursuant to the Act and shall proceed with the liquidation and termination of the Company as promptly as possible, but in an orderly and businesslike manner so as not to involve undue sacrifice, and the proceeds therefrom and any other funds and assets of the Company (the "Dissolution Proceeds"), shall be applied and distributed pursuant to the provisions of Section 3.1.b.

#### **ARTICLE XI. GENERAL**

11.1. Notices. Any notice, request, approval, consent, demand or other communication required or permitted hereunder shall be given in writing by (1) personal delivery, (2) expedited delivery service with proof of delivery, (3) United States Mail, postage prepaid, registered or certified mail, return receipt requested, or (4) email or facsimile (provided that such email or facsimile is confirmed as received), and shall be deemed to have been given and received either at the time of personal delivery or, in the case of delivery service or mail, as of the date of first attempted delivery at the last known address, or in the case of email or facsimile, upon receipt.

11.2. Amendments. This Agreement may be amended by a written agreement of amendment executed by the Member.

11.3. Miscellaneous. Except as herein otherwise specifically provided, this Agreement shall be binding upon and inure to the benefit of the parties and their respective heirs, legal representatives, successors and assigns. Captions contained in this Agreement in no way define, limit, or extend the scope or intent of this Agreement. If any provision of this Agreement or the application of such provision to any Person or circumstance shall be held invalid, the remainder of this Agreement, or the application of such provision to any other Persons or circumstances, shall not be affected thereby.

11.4. Remedies. If the Company or any party to this Agreement obtains a judgment against any other party by reason of breach of this Agreement or failure to comply with the provisions hereof, reasonable attorneys' fees as fixed by the court shall be included in such judgment. No remedy conferred upon the Company or the Member in this Agreement is intended to be exclusive of any other remedy herein or by law provided or permitted, but each shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or

DocuSign Envelope ID: 7A776122-CFE7-4DEB-B2E8-F3F8F35D81DE

by statute. No waiver by the Member or the Company of any breach of this Agreement shall be deemed to be a waiver of any other breach of any kind or nature and no acceptance of payment or performance by a Member or the Company after any such breach shall be deemed to be a waiver of any breach of this Agreement, whether or not such Member or the Company knows of such breach at the time it accepts such payment or performance. If the Member has the right herein to approve or consent to any matter or transaction, such approval or consent may be withheld in the sole discretion of the Member for any reason or no reason. No failure or delay on the part of the Member or the Company to exercise any right it may have shall prevent the exercise thereof by the Member or the Company at any time such other may continue to be so in default, and no such failure or delay shall operate as a waiver of any default.

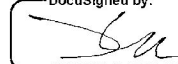

11.5. Compliance with Securities Laws. Notwithstanding anything herein contained to the contrary, no transfer or disposition of Interests in the Company pursuant to the terms hereof shall be made unless such transfer or disposition complies in all respects with the provisions of the Securities Act of 1933 and the securities laws of any and all states with jurisdiction over such transfer or disposition, and the rules and regulations promulgated thereunder.

11.6. Binding Effect. This Agreement and any amendment hereto made as provided herein shall be binding upon and inure to the benefit of the Company and its successors and assigns, and the Member, its heirs, executors, administrators, and legal or personal representatives.

11.7. Governing Law. This Agreement and the rights of the parties hereunder shall be governed by and interpreted in accordance with the laws of the State of Texas.

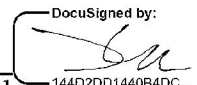

IN WITNESS WHEREOF, the undersigned has executed this Agreement as of the date first above written.

STATE OF MISSOURI     )  
  )  
COUNTY OF ST. LOUIS    )

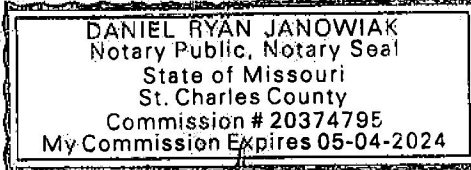

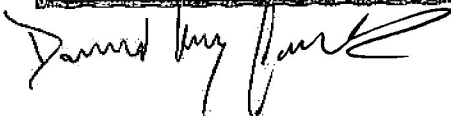

I, Martin W. Moore, of lawful age and after being duly sworn, state as follows:

1. "I am Treasurer and Chief Financial Officer of CSWR, LLC (the "Company") and am submitting this affidavit on behalf of that entity. I am also Vice President of CSWR-Texas Utility Operating Company, LLC ("CSWR-Texas"), a subsidiary of CSWR, LLC and the applicant in this proceeding. As such, I am familiar with the capital plans and commitments of both CSWR, LLC and CSWR Texas related to the acquisition of the systems and assets CSWR Texas proposes to acquire in this proceeding and for operation of those systems post-closing."
2. "Capital necessary to complete the transactions proposed in this docket will be supplied by CSWR, LLC, which has committed to invest equity sufficient to purchase the water and wastewater systems and related assets that CSWR-Texas seeks to acquire in this and future STM proceedings before the Public Utility Commission of Texas; fund initial necessary capital improvements to those systems; and cover operating expense shortfalls until such time as the Commission can consider and approve fully compensatory rates."
3. "Accordingly, CSWR, LLC is capable, available, and willing to cover temporary cash shortages of CSWR Texas as provided for in this Commission's rules."

Further affiant sayeth not.

Required:  $0.6 \text{ GPM/Connection} \times 134 \text{ connections} = 80.4 \text{ GPM}$

Provided: 67 GPM

Short:  $80.4 \text{ GPM (Required)} - 67 \text{ GPM (Provided)} = 13.4 \text{ GPM}$

$13.4 \text{ GPM} / 80.4 \text{ GPM} \times 100 = 17\% \text{ Short}$

Your water system must be modified to meet this requirement to assure an adequate supply of water at all times.

Please be advised that public water systems shall notify the executive director prior to making any significant change or addition to the system's production, treatment, storage, or distribution facilities. Public water systems shall submit plans and specifications for the proposed changes upon request.

The water system may request an exception to this requirement by writing to TCEQ, Water Supply Division, Public Drinking Water Section, Technical Review & Oversight, MC 159, P.O. Box 13087, Austin, TX 78711-3087; phone: (512) 239-4691.

**Investigation: 1375466**

Comment Date: 12/27/2016

**Capacity Requirements**

Failure to meet this Agency's "Minimum Water System Capacity Requirements." These requirements include:

Required:  $0.6 \text{ GPM/Connection} \times 134 \text{ connections} = 80.4 \text{ GPM}$

Provided: 67 GPM

Short:  $80.4 \text{ GPM (Required)} - 67 \text{ GPM} = 13.4 \text{ GPM}$

$13.4 \text{ GPM} / 80.4 \text{ GPM} \times 100 = 17\% \text{ Short}$

Your water system must be modified to meet this requirement to assure an adequate supply of water at all times.

7/13/2017 Inv. # - 1424755

**Page 3 of 4**

Please be advised that public water systems shall notify the executive director prior to making any significant change or addition to the system's production, treatment, storage, or distribution facilities. Public water systems shall submit plans and specifications for the proposed changes upon request.

The water system may request an exception to this requirement by writing to TCEQ, Water Supply Division, Public Drinking Water Section, Technical Review & Oversight, MC 159, P.O. Box 13087, Austin, TX 78711-3087; phone: (512) 239-4691.

As of December 27, 2016, no compliance documentation or compliance plan has been submitted.

**Investigation: 1394747**

Comment Date: 04/20/2017

**Capacity Requirements**

Failure to meet this Agency's "Minimum Water System Capacity Requirements." These requirements include:

Required: 0.6 GPM/Connection x 134 connections = 80.4 GPM

Provided: 67 GPM

Short: 80.4 GPM (Required) – 67 GPM = 13.4 GPM

13.4 GPM/ 80.4 GPM x 100 = 17% Short

Your water system must be modified to meet this requirement to assure an adequate supply of water at all times. Please be advised that public water systems shall notify the executive director prior to making any significant change or addition to the system's production, treatment, storage, or distribution facilities. Public water systems shall submit plans and specifications for the proposed changes upon request.

The water system may request an exception to this requirement by writing to TCEQ, Water Supply Division, Public Drinking Water Section, Technical Review & Oversight, MC 159, P.O. Box 13087, Austin, TX 78711-3087; phone: (512) 239-4691.

On March 15, 2017, TCEQ received via email, a copy of an exception request for water well capacity and a letter to the Technical Review and Oversight Team for Oak Hill Estates Water System. A compliance due date of October 23, 2017 is approved. The entity will notify Region 12 if they are granted this exception or, if the exception is not, what alternative corrective action they will take to resolve the violation.

**Investigation: 1424755**

Comment Date: 07/13/2017

Failure to meet this Agency's "Minimum Water System Capacity Requirements." These requirements include:

Required: 0.6 GPM/Connection x 134 connections = 80.4 GPM

Provided: 67 GPM

Short: 80.4 GPM (Required) – 67 GPM = 13.4 GPM

13.4 GPM/ 80.4 GPM x 100 = 17% Short

Your water system must be modified to meet this requirement to assure an adequate supply of water at all times.

Please be advised that public water systems shall notify the executive director prior to making any significant change or addition to the system's production, treatment, storage, or distribution facilities. Public water systems shall submit plans and specifications for the proposed changes upon request.

The water system may request an exception to this requirement by writing to TCEQ, Water Supply Division, Public Drinking Water Section, Technical Review & Oversight, MC 159, P.O. Box 13087, Austin, TX 78711-3087; phone: (512) 239-4691.

On March 15, 2017, TCEQ received via email, a copy of an exception request for water well capacity and a letter to the Technical Review and Oversight Team for Oak Hill Estates Water System. A compliance due date of October 23, 2017 is approved. The entity will notify Region 12 if they are granted this exception or, if the exception is not, what alternative corrective action they will take to resolve the violation.

**Recommended Corrective Action:** Submit a compliance plan, engineering report or certification OR a copy of a letter requesting an exception in addition to a compliance plan for final compliance, OR a copy of a letter granting an exception to verify compliance.

**Resolution:** By letter dated 06/14/2017 the TCEQ approved an ACR for well capacity.

**6.D. Regulatory Assessment Fees with TCEQ**

CSWR Texas is committed to ensuring that the amount of any outstanding Regulatory Assessment Fees owed by the seller, if any, will be paid upon completion of the proposed acquisition.

**6.E. Annual Report filings with Commission**

CSWR Texas is committed to ensuring that the most recent available Annual Report for the seller will be filed with the Commission, to the extent it has not already been filed, upon completion of the proposed acquisition.

## **11. & 14. Proposed Transaction Details**

CSWR Texas has not been able to identify any plant records for this water system or annual report filings from which to determine the original cost of plant, accumulated depreciation, or financial information requested in this question.

**16. Describe, in detail, the anticipated impact or changes in the quality of retail public utility service in the requested area as a result of the proposed transaction:**

A letter from the TCEQ detailing the results of its most recent compliance evaluation identified several past alleged violations and additional issues that needs to be addressed. See Attachment I to this Application.

A preliminary engineering report was commissioned by CSWR Texas to assess the current state of the system and determine whether any immediate improvements are necessary and the cost of those improvements. See Attachment J. If it is authorized to acquire the system, CSWR Texas intends to invest the capital required to make any upgrades, renovations, and repairs necessary to comply with TCEQ regulations and ensure customers receive safe and reliable service.

CSWR Texas plans to use a contract operator for plant operations, which would include one or more appropriately qualified and licensed operators. The contract operator would be responsible for day-to-day inspections, checks, sampling, reporting, and meter reading. The contract operator also would be responsible for necessary system repairs (as well as extraordinary issues that arise from time to time) to ensure proper facility operations. All contractor activities would be tracked inside CSWR Texas' computerized maintenance system. A computerized plant monitoring system will integrate repair and system operations data onto a single water information management platform that includes all systems operated by CSWR Texas' affiliates.

CSWR Texas will also use contractors for billing and to provide emergency answering services for customer calls. The billing contractor will be responsible for computing, printing, and sending monthly bills to customers and for collecting payments. The billing contractor's staff will also field and process customer bill inquiries, make bill adjustments, deal with customer requests for payment plans, and interact with Commission Staff regarding billing issues. Billing contractor employees will also be trained to route customer service complaints and inquiries to the service contractor.

In addition, CSWR Texas will implement operational changes to improve and enhance customer service. Customers will have access to a 24-hour phone line to report any utility service issues. Those calls would then be transferred into the computerized maintenance management system and converted into work orders, which creates a historical record of all reported service issues. The work order will also ensure contracted customer service personnel can commence work required to address customer service issues quickly and efficiently. Second, CSWR Texas will ensure customers served by the system have access to customer service representatives during normal business hours to talk about any customer concerns. Additionally, CSWR Texas will establish a utility-specific webpage and dedicated email address to keep customers informed about their utility service. Mirroring the relevant utility homepage information, CSWR Texas will also implement a dedicated social media page to offer another avenue of communication with customers about utility matters. The social media account will be manned by customer

service representatives who can quickly answer customer questions. Finally, CSWR Texas will offer online bill paying options to customers including e-checks, debit card, and credit cards. Accordingly, and in order to mitigate increases to the cost of service, CSWR Texas may request authority from the Commission for a waiver from the provisions of 16 Texas Admin. Code § 24.153(d), which requires establishing a local office for maintaining business records or for purposes of accepting applications for service and payments to prevent disconnection of service or to restore service after disconnection for nonpayment, nonuse or other reasons identified in Commission rules.

**17. Describe the transferee's experience and qualifications in providing continuous and adequate service. This should include, but not be limited to: other CCN numbers, water and wastewater systems details, and any corresponding compliance history for all operations.**

CSWR Texas currently owns and operates numerous systems in Texas and in each of the dockets in which the Company was granted the authority to operate these systems, the Commission has determined the Company has adequate experience and qualifications in order to provide continuous and adequate service.

In addition, CSWR Texas is part of a group of affiliated companies owned by CSWR, LLC. In addition to its ownership interest, CSWR, LLC and another affiliate, Central States Water Resources, Inc. ("Central States"), provide operational and managerial oversight and support for all operating utility affiliates within the group and also provide access to financial resources necessary to acquire water and wastewater systems and upgrade those systems as required. CSWR Texas' affiliates have purchased and currently are operating 292 public drinking water and wastewater systems in Missouri, Arkansas, Kentucky, and Louisiana through which they provide safe and reliable utility service to approximately 131,000 customers.

Since March 2015, affiliates in Missouri, Arkansas, and Kentucky have designed, permitted and completed construction—with the approval of state drinking water and wastewater regulatory authorities—of approximately \$20.5 million of upgrades and improvements to drinking water systems. Those upgrades and improvements include construction of ground water storage tanks and drinking water pressurization pump assemblies, drilling water wells, erecting or rehabilitating well houses, closing failed wells, blasting/coating water storage tanks, replacing meter pits with new meters, replacing or repairing numerous water distribution lines, installing numerous isolation valve systems, installing multiple flush hydrants, repairing hundreds of leaking lines, and constructing or rehabilitating various other improvements to existing drinking water systems.

For wastewater systems, CSWR Texas-affiliated companies have designed, permitted, and completed construction of approximately \$68.8 million of system improvements. Those improvements include wastewater line repairs to remedy infiltration and inflow problems, construction of sewer main extensions, construction and repairs of multiple lift stations, closures of environmentally-distressed wastewater treatment plants, conversion of failing wastewater treatment plants into sludge storage/flow equalization and treatment basins, conversion of failed mechanical systems to I-Fast systems, and construction of various other improvements to existing wastewater treatment facilities.

Through CSWR, LLC and Central States, CSWR Texas has access to experienced technical and managerial expertise and experience not usually available to water systems of this system's size. And CSWR, LLC's business model makes these assets available to its affiliates at a lower cost than otherwise would be available because of the economies of scale the affiliated structure is able to achieve for its member utility operating companies.

The affiliated group of which CSWR Texas is a member has been able to secure an ongoing commitment from Sciens Capital Management, a Wall Street private equity firm, to provide capital necessary to purchase small, oftentimes distressed, systems and then make investments necessary to bring those systems into compliance with applicable health, safety, and environmental protection laws and regulations. Similar commitments were made with respect to equity investments necessary to acquire and improve utility assets affiliated companies currently own and operate in Missouri, Arkansas, Kentucky, and Louisiana. As evidenced by acquisitions and improvements made in each of those states, regulators can rely on such investment commitments. Although Investment is provided primarily in the form of equity, an affiliate has also committed to make debt capital available at reasonable rates if CSWR Texas is unable to obtain debt financing from non-affiliated commercial sources.

Again, the Public Utility Commission of Texas has already determined that the affiliated group has financial, technical, and managerial ability necessary to provide service to the public. In addition, the Missouri Public Service Commission and the Missouri Department of Natural Resources have recognized the solid track record CSWR, LLC and its affiliates have established for acquiring, rehabilitating, maintaining, and operating troubled water and wastewater systems in that state. Also, in a recent order authorizing the group's Kentucky affiliate to acquire several troubled wastewater systems, the Kentucky Public Service Commission expressly found the group has the financial, technical, and managerial ability necessary to provide reasonable service to the public.

## **18. Enforcement Actions**

Over the last two years, CSWR Texas has acquired over 70 water and wastewater system, many of which had pending enforcement or compliance issues at the time of the acquisition. The Company continues to work with the TCEQ to rectify these issues. However, it is expected to take several years before all compliance issues have been completely resolved. The Company is already communicating with the TCEQ regarding compliance issues on the current system and how to resolve them. Because the seller is also a distressed system, it is reasonable to allow CSWR Texas to acquire the system so that it can take all necessary steps to ensure the system is in compliance within a reasonable time.

## **20. How will the proposed transaction serve the public interest?**

CSWR, LLC has demonstrated an ability to consolidate small water and wastewater utility systems and make necessary investments in those systems to ensure that safe, reliable service is provided to customers. This system is currently in a distressed state and would benefit from the transition to a stable, long-term management team willing to make necessary investments to improve the system. As explained in this application:

- CSWR Texas has access to much needed capital that it will use to make reasonable, prudent, and timely investments to bring the system back into compliance with all applicable rules and regulations;
- Through its affiliates, CSWR Texas has access to experienced technical and managerial expertise and experience not usually available to systems of this size and at a lower cost than otherwise would be available because of the economies of scale the affiliated structure is able to achieve;
- CSWR Texas will implement new management and customer service systems and practices that will greatly improve the level of service to customers;
- CSWR Texas will seek to consolidate and regionalize this system with other systems it acquires in order to pool financial, managerial, and technical resources that achieve economies of scale or efficiencies of service;
- CSWR Texas will operate the systems to ensure they are in compliance with all environmental regulations; and
- the purchase price reflects the lowest agreeable negotiated price between the parties.

In summary, CSWR Texas and its affiliates have the financial, technical, and managerial ability to acquire, own, and operate the system in a manner that fully complies with applicable health, safety, and environmental protection laws and regulations and provides reliable, safe, and adequate service to customers. CSWR Texas is prepared to invest capital required to remedy all outstanding and future issues in the systems. It also will implement management and customer service systems and practices that will greatly improve the level of service to customers. Accordingly, the system will become a part of a financially stable and technically sound utility, and customers will receive higher quality and more reliable service. Also, by adopting current rates and tariffs, CSWR Texas will ensure the proposed acquisition has no negative impact on the system's customers. In addition, because CSWR Texas will operate as a public utility, customers will be assured the system's future operations will be scrutinized by the Commission and its staff so that its cost of service and rates are fair and reasonable.

**27. System Capacity**

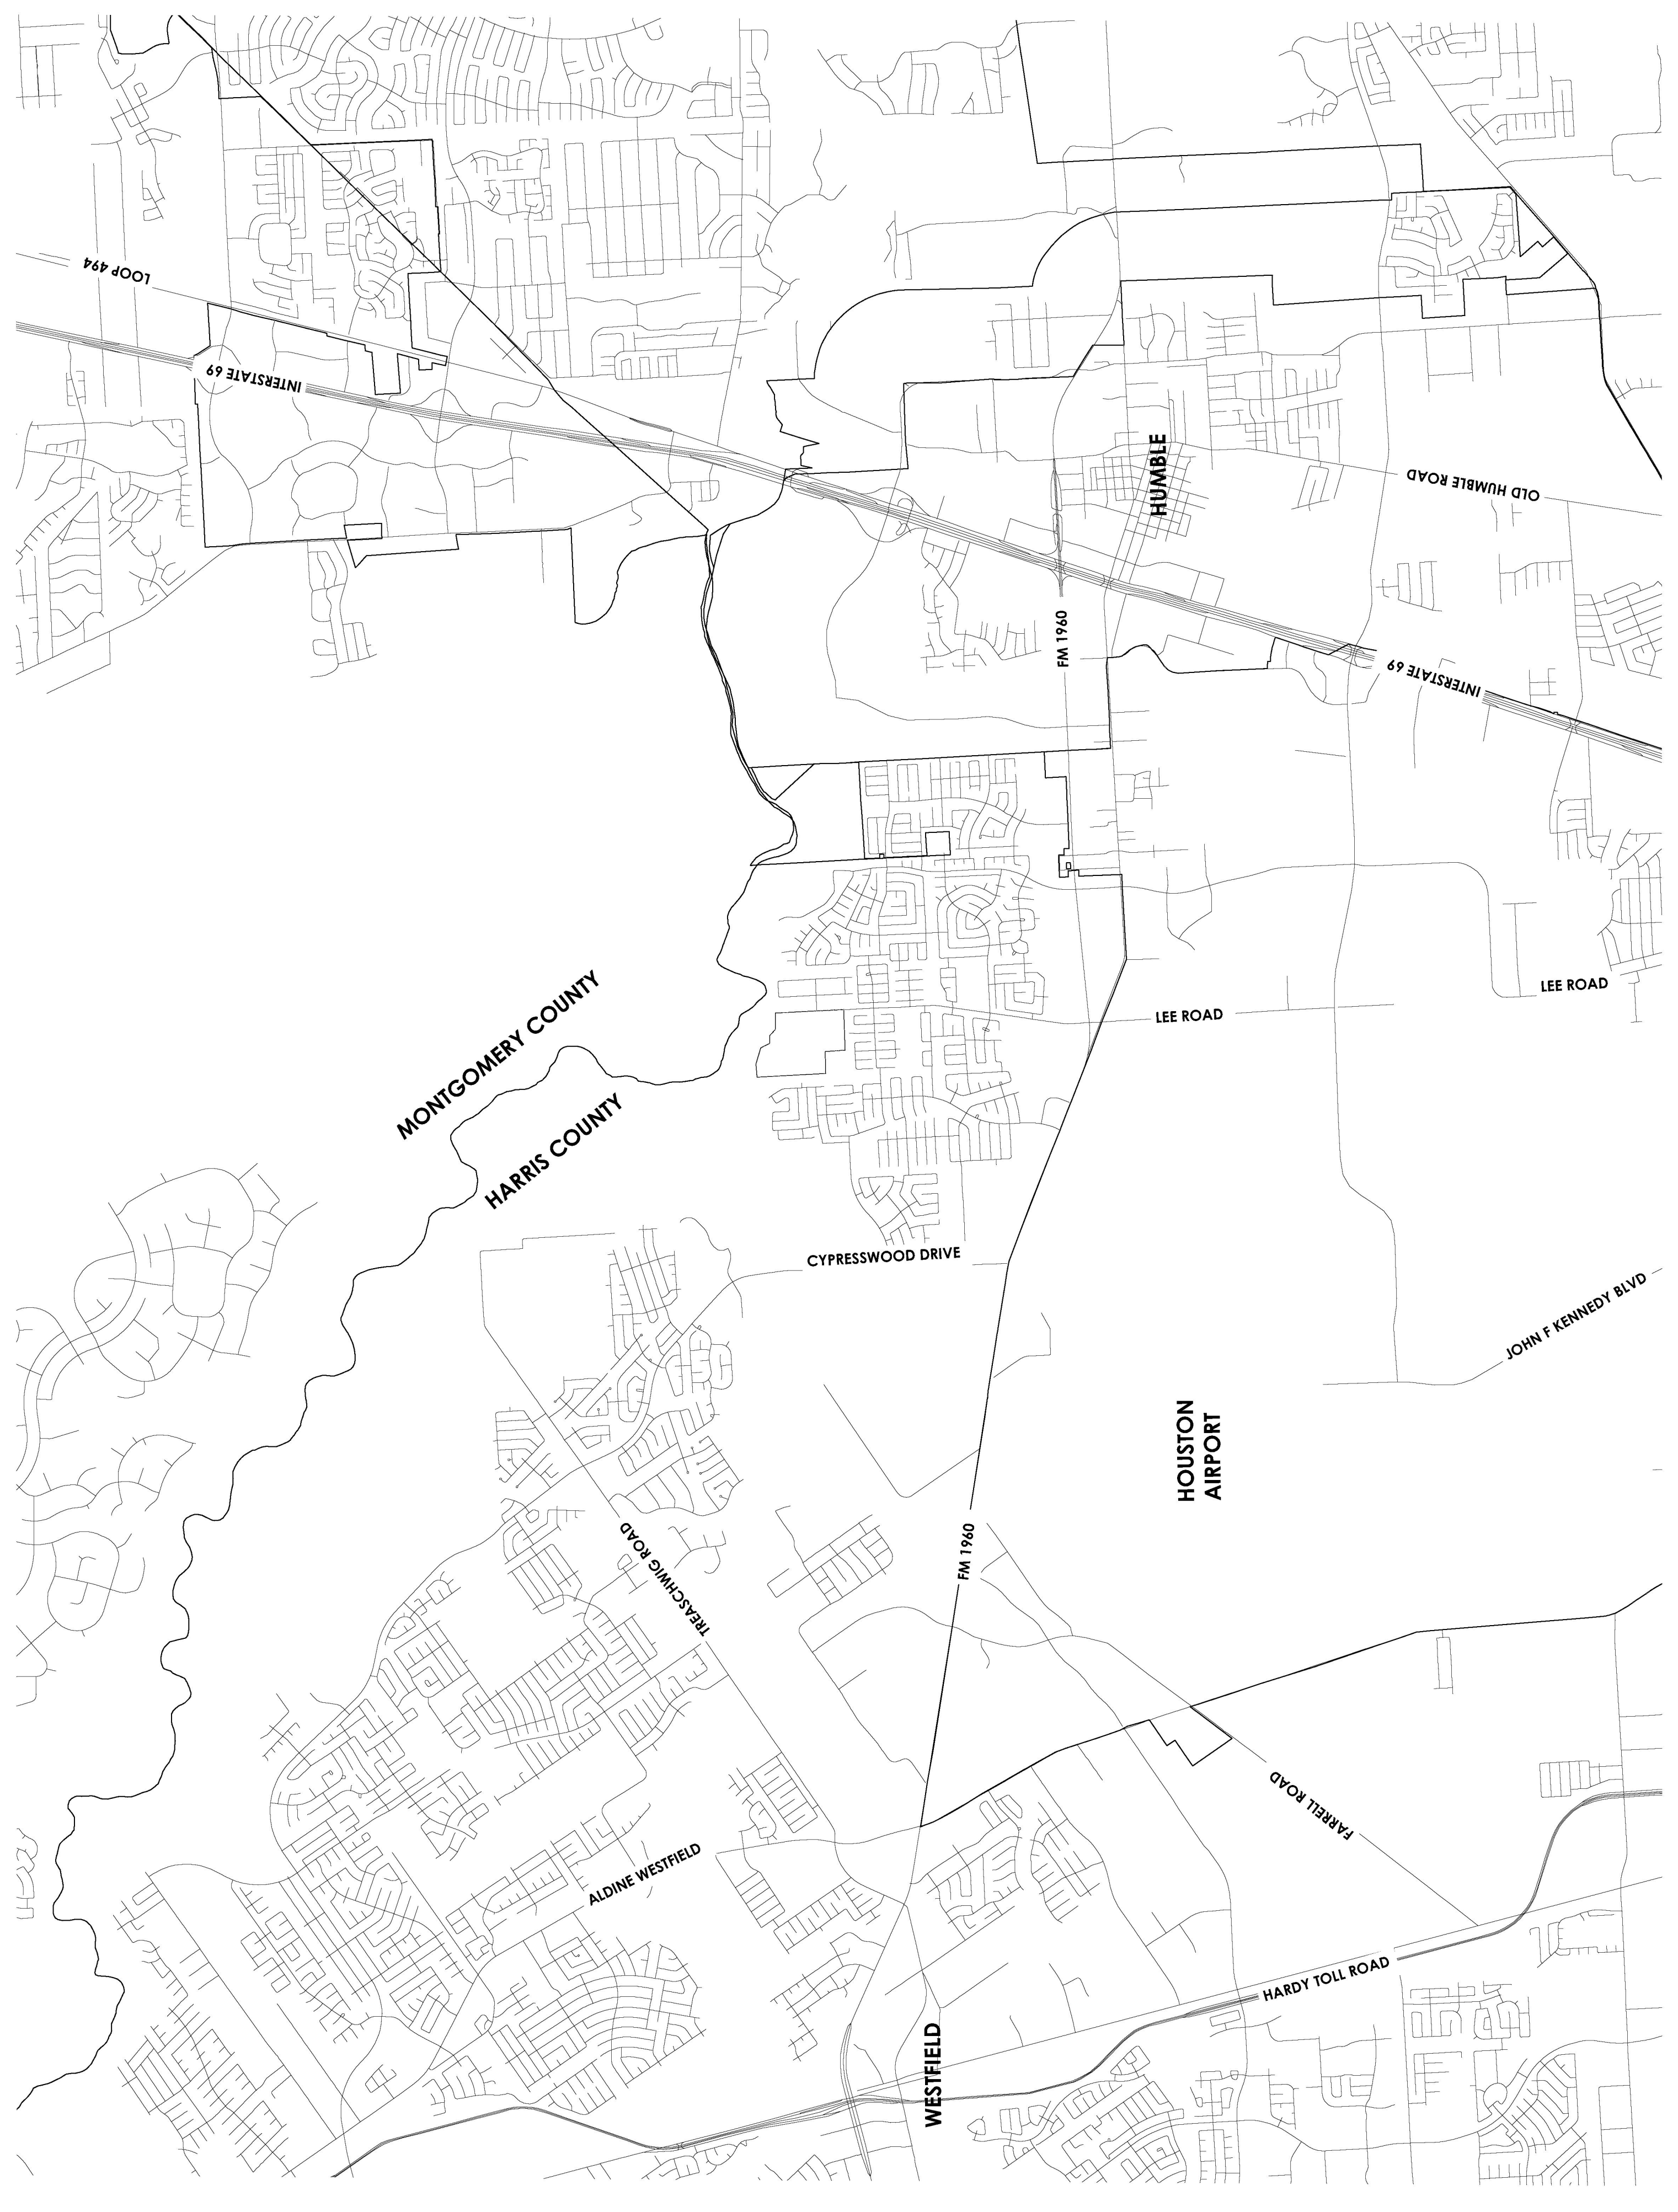

Please see the Company's response Q.18, Attachment I-1 and Attachment J. The Company is working to determine cost-effective solutions to the current well capacity issues and will continue to work with the TCEQ to address these concerns or seek the appropriate variances, to the extent that is a viable short-term solution. At this time, the Company expects that these issues can be resolved through minor improvements to the system or the utilization of local interconnects to neighboring utilities.

### **Statement of Confidentiality**

Pursuant to the Commission's standard protective order, CSWR-Texas Utility Operating Company, LLC ("CSWR Texas") is designating certain materials filed as part of its application as Protected Materials. The undersigned counsel for CSWR Texas has reviewed the information sufficiently to state in good faith that the information is exempt from public disclosure under the Public Information Act and merits the Protected Materials designation or Highly Sensitive Protected Material designation given below.

Confidential Attachment A contains the executed Purchase Agreement between CSWR Texas or its affiliates and the selling utility. The terms and pricing information of the Purchase Agreement are not publicly available, are commercially sensitive, and public disclosure of the information would cause substantial competitive harm to CSWR Texas because any other entity that seeks to acquire water or wastewater utilities in Texas or elsewhere could use the information to its competitive advantage to the detriment of CSWR Texas. Accordingly, the information contained in Confidential Attachment A is exempt from public disclosure under Tex. Gov't Code §§ 552.101 and 552.110 and merits the Protected Material designation.

Highly Sensitive Attachment D is a list of customer deposits that contains customer-specific information including names, addresses, phone numbers, and account payment histories. This information is specifically protected by Tex. Util. Code § 182.052 and is expressly protected under Paragraph 6 of the Commission's standard protective order. Accordingly, the information contained in Attachment D is exempt from public disclosure under Tex. Gov't Code § 552.101 and Tex. Util. Code § 182.052 and merits the Protect Materials designation.

Confidential Attachment F contains the consolidated financial statements of CSWR, LLC and subsidiaries, including an independent auditor's report. This information is not publicly available, is commercially sensitive, and public disclosure of the information would cause substantial competitive harm to CSWR Texas and its subsidiaries. Any other entity that seeks to acquire water utilities in Texas and elsewhere could use the financial information to its competitive advantage, to the detriment of CSWR, LLC and its subsidiaries. Accordingly, the information contained in Attachment F is exempt from public disclosure under Tex. Gov't Code §§ 552.101 and 552.110 and merits the Protected Material information.

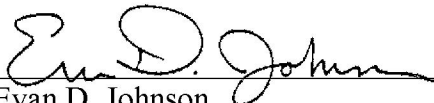

Highly Sensitive Attachment G contains projected financial information for the acquired system, including information from which the purchase price could be ascertained; consolidated

financial statements for CSWR Texas's parent company, CSWR, LLC, and its subsidiaries; combined financial projections for other systems that CSWR Texas is in the process of acquiring; and information regarding CSWR, LLC's financial positions. This information is not publicly available, is commercially sensitive, and public disclosure of the information would cause substantial competitive harm to CSWR, LLC and its subsidiaries, including CSWR Texas. Any other entity that seeks to acquire water utilities in Texas and elsewhere could use the financial information to its competitive advantage, to the detriment of CSWR, LLC and its subsidiaries. Accordingly, the information contained in Attachment G is exempt from public disclosure under Tex. Gov't Code §§ 552.101 and 552.110 and merits the Protected Material information.

Confidential Attachment I-1 contains correspondence between the TCEQ and the Company that reveals the identity of potential acquisitions by CSWR Texas that are not otherwise publicly available. This information is not publicly available, is commercially sensitive, and public disclosure of the information would cause substantial competitive harm to CSWR Texas and its affiliates. Accordingly, the information contained in Confidential Attachment I-1 is exempt from public disclosure under Tex. Gov't Code §§ 552.101.

Confidential Attachment J is an engineering report that is the proprietary information of a third-party engineering firm. Public disclosure of the information would cause substantial competitive harm to the engineering firm by allowing other engineering companies to copy the firm's methods and analyses. Public disclosure could also negatively impact the engineering firm's willingness to perform services for CSWR Texas in the future. Accordingly, the information contained in Confidential Attachment J is exempt from public disclosure under Tex. Gov't Code §§ 552.101.

Confidential Attachment K-1 contains purchase price information taken from the Purchase Agreement, which is attached to the application as Attachment A. The pricing information contained in Confidential Attachment K-1 is not publicly available, is commercially sensitive, and public disclosure of the information would cause substantial competitive harm to CSWR Texas and its affiliates. Any other entity that seeks to acquire water utilities in Texas and elsewhere could use the information to its competitive advantage to the detriment of CSWR Texas. Accordingly, the information contained in Confidential Attachment K-1 is exempt from public disclosure under Tex. Gov't Code §§ 552.101 and 552.110 and merits the Protected Material designation.
