Re: Critical Load Designation

To Whom It May Concern:

The accounts listed below are designated Critical Load by Heart of Texas Electric Cooperative for North Bosque Water Supply:

22767002- 3229 Baylor Camp Rd Crawford, Tx. 76638

Re: Results of Critical Load Application Review

Oncor has completed the review of your critical load application. In the attached spreadsheet, column E provides the status (Approved or Denied) for each requested ESI

ID. Column F provides the reason for denial if any of the ESI IDs have been denied Critical Load status.

The Public Utility Commission of Texas (PUCT) defines a Critical Load Public Safety Customer in Substantive Rules 25.497(a) as "A customer for whom electric service is considered crucial for the protection or maintenance of public safety, including but not limited to hospitals, police stations, fire stations, and critical water and wastewater facilities."

***Designation of a critical load does not guarantee an uninterrupted supply of electricity. It is the responsibility of the Retail Customer to make arrangements for alternative sources of electric power should a localized outage or load shed event occur.***

As provided in Sections 4.2.5, 5.2.5, and 5.3.7.1 of Oncor's Tariff for Retail Delivery Service, Oncor shall, if reasonably possible, provide notice to Critical Load Public Safety and Critical Load Industrial Customers when Oncor curtails, reduces voltage, or interrupts delivery service during an emergency or other necessary event.
