Section 1.03 – Purchased Water and Sewer Adjustment Clause

Upon a notice from the City of Donna of a change in price in the cost of purchased water or sewer service, the Utility may (after notice has been given to the ratepayers and the Commission) adjust its rates in accordance with the Tariff provisions.

The adjustment to the utility's rate structure will be calculated as set for the below:

- I. Adjusted Monthly Minimum Charge – Current Monthly Minimum Charge + “A” + “B”

Where:

“A” = Change in Price of Purchase Water from the City of Donna---which is---{ Change in the monthly minimum Price divided by the number of customers} + {2 times the Change in Price per 1,000 gallons of water}

“B” = Change in Price of Purchased Sewer Service from the City of Donna---which is--- { Change in the monthly minimum Price of Purchases Sewer Service divided by the number of customers} + {2 times the Change in Price per 1,000 gallons of Purchased Sewer Service times 0.80}

- II. Adjusted Gallonage Charge = Current Gallonage Charge + “X” + “Y”

Where:

“X” = Change in Price per 1,000 gallons of Purchased Water from the City of Donna

“Y” = Change in Price per 1,000 gallons of Purchased Sewer Service from the City of Donna times 0.80

Change as used above is the algebraic summation of the Price imposed by the City of Donna subsequent to the date of this Tariff (New Price) and the Price existing on the date this Tariff was approved (Old Price), i.e. New Price minus Old Price.

Number of customers as used above is the number existing customers at the beginning of the period in which a Change in Price becomes effective.
