To Whom It May Concern,

Since I am not an expert on power grids, I recommend that you read the following article:

<https://www.forbes.com/sites/uhenergy/2021/07/06/how-to-fix-the-troubled-texas-grid/?sh=57fa8e6321e0>

In February, it will have been two years since the catastrophic freeze in 2022. No Texan should be subjected to an experience like that ever again.

Please be cognizant of the safety and well-being of all Texas citizens.

Sincerely,

Sonja D. Letcher
