DOCKET NO. 54429

APPLICATION OF PALO DURO	§	PUBLIC UTILITY COMMISSION
SERVICE COMPANY, INC. AND THE	§	
CITY OF HUDSON OAKS FOR SALE,	§	OF TEXAS
TRANSFER, OR MERGER OF	§	
FACILITIES AND CERTIFICATE	§	
RIGHTS IN PARKER COUNTY	§	

CORRECTED NOTICE OF APPROVAL¹

This Corrected Notice of Approval addresses the application of Palo Duro Service Company, Inc. and the City of Hudson Oaks for approval of the sale, transfer, or merger of facilities and certificate rights in Parker County. The Commission approves the following: (1) the sale and transfer of 0.1 acres of Palo Duro’s singly-certificated service area under its certificate of convenience and necessity (CCN) number 12200 to Hudson Oaks; (2) the sale and transfer of 68.4 acres of Palo Duro’s service area under CCN number 12200 to Hudson Oaks, which is dually-certificated with Hudson Oaks; (3) the amendment of Palo Duro’s CCN number 12200 to remove the 68.5 acres of service area; and (4) the amendment of Hudson Oaks’ CCN number 12273 to add the 0.1 acres.

I. Findings of Fact

The Commission makes the following findings of fact.

Applicants

1. Palo Duro is a Texas corporation registered with the Texas secretary of state under file number 143729200.
2. Palo Duro operates, maintains, and controls facilities for providing retail water service in its certificated area in multiple counties under CCN number 12200, including Parker County.

¹ This Corrected Notice of Approval is being filed to correct a typographical error in Ordering Paragraph 7.

3. Palo Duro owns and operates a public water system registered with the Texas Commission on Environmental Quality (TCEQ) as Trinity River Estates, under identification number TX1840099.
4. Hudson Oaks is a type A general law municipal corporation.
5. Hudson Oaks operates, maintains, and controls facilities for providing retail water service in its certificated area in Parker County under CCN number 12273.

Application

6. On December 6, 2022, Palo Duro and Hudson Oaks filed the application at issue in this proceeding.
7. On January 6 and February 15, October 11, and December 11, 2023, Hudson Oaks filed supplemental information.
8. In the application, as supplemented, the applicants seek approval of the following:
 - a. the sale and transfer of 0.1 acres of Palo Duro's singly-certificated service area under its CCN number 12200 to Hudson Oaks;
 - b. the sale and transfer of 68.4 acres of Palo Duro's service area under CCN number 12200 to Hudson Oaks, which is dually-certificated with Hudson Oaks;
 - c. the amendment of Palo Duro's CCN number 12200 to remove the 68.5 acres of service area; and
 - d. the amendment of Hudson Oaks' CCN number 12273 to add the 0.1 acres.
9. The requested area includes:
 - a. 0.1 acres of area that is singly-certificated under Palo Duro's CCN number 12200;
 - b. 68.4 acres of area under Palo Duro's CCN number that is dually-certificated with Hudson Oaks; and
 - c. 29 customer connections.
10. The requested area is located approximately 1.5 miles southwest of downtown Hudson Oaks, Texas, and is generally bounded on the north by East Bankhead Highway; on the

east by the intersection of East Bankhead Highway and Bankhead Court; on the south by Annetta Center Point Road; and on the west by Center Point Road.

11. In Order No. 3 filed on March 9, 2023, the administrative law judge (ALJ) found the application, as supplemented, administratively complete.

Notice

12. On April 6, 2023, Hudson Oaks filed the following:
 - a. the affidavit of Hayden Brodowsky, director of operations of Hudson Oaks, attesting that notice was provided to current customers of Palo Duro, neighboring utilities, and affected parties on April 6, 2023; and
 - b. a publisher's affidavit attesting to the publication of notice in the *Weatherford Democrat*, a newspaper of general circulation in Parker County, on March 14 and 21, 2023.
13. In Order No. 4 filed on April 21, 2023, the ALJ found the notice sufficient.
14. In Order No. 5 filed on May 18, 2023, the ALJ required a clarification regarding the notice.
15. In Order No. 6 filed on June 6, 2023, the ALJ rescinded the finding that notice was sufficient.
16. On June 19, 2023, Hudson Oaks filed the affidavit of Mr. Brodowsky attesting that notice was provided to Sonna Warvell and Davoil Inc. dba Davestates on June 9, 2023.
17. On June 23, 2023, Hudson Oaks filed a map of the CCN area to be transferred overlaid with parcels for landowners with property containing 25 acres or more.
18. On July 6, 2023, Hudson Oaks filed the affidavit of Mr. Brodowsky attesting that notice was provided to Sonna Warvell and Davoil Inc. dba Davestates on June 9, 2023, and provided a clarification regarding landowners with tracts of land in the requested area that are at least 25 acres and are wholly or partially within the requested area and a map overlaid with a Parker County appraisal district map.
19. In Order No. 9 filed on August 1, 2023, the ALJ found the notice, as supplemented, sufficient.

Evidentiary Record

20. In Order No. 10 filed on September 26, 2023, the ALJ admitted the following evidence into the record of this proceeding:
- a. The application for sale, transfer, or merger of facilities and certificate rights filed on December 6, 2022;
 - b. The applicants' supplement to the application filed on January 6, 2023;
 - c. The applicants' supplement to the application filed on February 15, 2023;
 - d. Commission Staff's supplemental recommendation on administrative completeness and notice and proposed procedural schedule and request to restyle the docket filed on March 8, 2023;
 - e. The applicants' proof of notice filed on April 6, 2023;
 - f. Commission Staff's recommendation on sufficiency of notice filed on April 20, 2023;
 - g. The applicants' supplemental proof of notice filed on May 22, 2023;
 - h. Commission Staff's supplemental recommendation on sufficiency of supplemental notice filed on June 5, 2023;
 - i. The applicants' supplemental proof of notice filed on June 19, 2023;
 - j. The applicants' supplemental proof of notice filed on June 23, 2023;
 - k. The applicants' supplemental proof of notice filed on July 6, 2023;
 - l. Commission Staff's second supplemental recommendation on sufficiency of notice and proposed procedural schedule filed on July 28, 2023; and
 - m. Commission Staff's recommendation on the transaction, and all attachments, filed on August 28, 2023.
21. In Order No. 13 filed on January 22, 2024, the ALJ admitted Commission Staff's response to Order No. 12, including attachments, filed on January 10, 2024, into the record of this proceeding.

22. In Order No. 14 filed on February 12, 2024, the ALJ admitted the following evidence into the record of this proceeding:
 - a. Hudson Oaks' response to Order No. 11 filed on October 11, 2023; and
 - b. Hudson Oaks' response to Order No. 12 filed on December 11, 2023.
23. In Order No. 20 filed on September 24, 2024, the ALJ admitted the following evidence into the record:
 - a. Commission Staff's response to Order No. 12 and applicants' clarification filed on January 10, 2024;
 - b. The applicants' final closing status update – June 2024 filed on June 27, 2024;
 - c. Commission Staff's recommendation on sufficiency of closing documents and proposed procedural schedule filed on July 10, 2024;
 - d. Commission Staff's clarification in response to Order No. 17 filed on July 15, 2024;
 - e. Palo Duro's consent form filed on August 14, 2024;
 - f. Hudson Oaks' consent form filed on August 14, 2024; and
 - g. The map, tariff and certificates attached to the supplemental joint motion to admit evidence filed on September 10, 2024.
24. In Order No. 21 filed on October 14, 2024, the ALJ admitted Commission Staff's response to Order No. 20, including the attached corrected tariff, filed on September 25, 2024 as evidence into the record of this proceeding.
25. In Order No. 25 filed on November 25, 2024, the ALJ admitted the following evidence into the record:
 - a. Commission Staff's response to Order No. 22 filed on October 28, 2024;
 - b. Palo Duro's consent form filed on November 13, 2024;
 - c. Hudson Oaks' consent form filed on November 14, 2024; and
 - d. Commission Staff's supplemental response to Order No. 22 filed on November 20, 2024.

Sale

26. In Order No. 16 filed on February 13, 2024, the ALJ approved the sale and transfer to proceed and required the applicants to file proof that the transaction had closed and that the customer deposits, if any, had been addressed.
27. On June 27, 2024, the applicants filed notice that the transaction was closed effective June 22, 2024.
28. On July 15, 2024, Commission Staff filed a clarification that there are no customer deposits held by Palo Duro.
29. In Order No. 18 filed on July 22, 2024, the ALJ found the closing documentation sufficient.

Purchaser's Compliance History

30. Hudson Oaks has not been under an enforcement action by the Commission, TCEQ, Texas Health and Human Services, the Office of the Texas Attorney General, or the United States Environmental Protection Agency in the past five years for non-compliance with rules, orders, or state statutes.
31. The Commission's complaint records, which date back five years, show no complaints against Hudson Oaks.
32. Hudson Oaks does not have a history of continuing mismanagement or misuse of revenues as a utility service provider.
33. Hudson Oaks has demonstrated a compliance history that is adequate for approval of the transaction to proceed.

Adequacy of Existing Service

34. There are currently 29 connections in the requested area that are being served by Palo Duro through public water system number TX1840099, and such service has been continuous and adequate.
35. The last TCEQ compliance investigation of the Palo Duro system was on August 23, 2022.
36. Palo Duro has provided the TCEQ sufficient documentation to resolve outstanding violations with the TCEQ on June 14, 2022.

37. Capital improvements are necessary for Hudson Oaks to continue providing continuous and adequate service to the requested area.
38. Hudson Oaks has made improvements to increase pressure tank capacity and storage tank capacity and has submitted plans and specifications to TCEQ and the compliance issue has been resolved.
39. The Commission's complaint records, which date back five years, show four complaints against Palo Duro, each of which have been reviewed and closed by the Commission's Consumer Protection Division.

Need for Additional Service

40. There are 29 current customer connections in the requested area that are receiving service from Palo Duro and have an ongoing need for service.
41. This is an application to transfer only existing facilities, customers, and service area.
42. There is no evidence in the record indicating a need for additional service.

Effect of Approving the Transaction and Granting the Amendment

43. Hudson Oaks will be the sole certificated water utility for the requested area.
44. Hudson Oaks will be required to provide continuous and adequate water service to current and future customers in the requested area.
45. Landowners in the requested area will be able to obtain water service from Hudson Oaks.
46. All retail public utilities in the proximate area were provided notice of the application and no protests or adverse comments were filed.
47. There will be no effect on any retail public utility providing service in the proximate area.

Ability to Serve: Managerial and Technical

48. Hudson Oaks employs or contracts with TCEQ-licensed operators who will operate the water system being transferred.
49. Hudson Oaks has the managerial and technical capability to provide adequate and continuous service to the requested area.

Feasibility of Obtaining Service from Adjacent Retail Public Utility

50. Palo Duro is currently serving customers in the requested area, and such service has been continuous and adequate.
51. Obtaining service from an adjacent retail public utility would likely increase costs to customers because new facilities will need to be constructed; at a minimum, an interconnect would need to be installed to connect to a neighboring retail public utility.
52. It is not feasible to obtain service from an adjacent retail public utility.

Regionalization or Consolidation

53. It will not be necessary for Palo Duro to construct a physically separate water system to serve the requested area.
54. Because the requested area will not require construction of a physically separate water system, consideration of regionalization or consolidation with another retail public utility is not required.

Ability to Serve: Financial Capability and Stability

55. Hudson Oaks has a debt service coverage ratio greater than 1.25, satisfying the leverage test.
56. Hudson Oaks demonstrated it has sufficient cash available on hand to cover any projected operations and maintenance shortages during the first five years of operations following approval of the transaction, satisfying the operations test.
57. Hudson Oaks submitted documents indicating it possesses the funds necessary for the purchase of Palo Duro's water system and for the construction of capital improvements necessary for Hudson Oaks to continue providing continuous and adequate service to existing customers.
58. Hudson Oaks demonstrated the financial capability and stability to pay for the facilities necessary to provide continuous and adequate service to the requested area.

Financial Assurance

59. There is no need to require Hudson Oaks to provide a bond or other financial assurance to ensure continuous and adequate service.

Environmental Integrity and Effect on the Land

60. The environmental integrity and effect on the land will be temporary as capital improvements are made for Hudson Oaks to continue providing service so the requested area.

Improvement of Service or Lowering Cost to Customers

61. Hudson Oaks, using the water system already in place, will continue to provide water service to the existing customers in the area.

62. The customers' rates will not change from the current rates for the Trinity River Estates subdivision.

63. Reliability and quality of water service is expected to improve under Hudson Oaks' management.

Map, Tariff, and Certificates

64. On August 13, 2024, Commission Staff emailed Palo Duro the proposed final map, tariff, and certificate and Hudson Oaks the proposed final map and certificate related to this docket.

65. On August 14, 2024, Palo Duro filed its consent form concurring with the proposed tariff, final map, and certificate.

66. On August 14, 2024, Hudson Oaks filed its consent form concurring with the proposed final map and certificate.

67. On September 10, 2024, Commission Staff filed a joint supplemental motion to admit evidence and proposed notice of approval and attached the proposed final map, tariff, and certificates.

68. On September 25, 2024, Commission Staff attached the revised tariff.

69. On November 13, 2024, Commission Staff emailed Palo Duro and Hudson Oaks updated proposed certificates.

70. On November 13, 2024, Palo Duro filed its consent form concurring with the updated certificate.

71. On November 14, 2024, Hudson Oaks filed its consent form concurring with the updated certificate.
72. On November 20, 2024, Commission Staff filed a motion to admit evidence and revised joint proposed notice of approval and attached the revised tariff and updated certificates.

Informal Disposition

73. More than 15 days have passed since the completion of notice provided in this docket.
74. No person filed a protest.
75. Hudson Oaks, Palo Duro, and Commission Staff are the only parties to this proceeding.
76. No party requested a hearing, and no hearing is needed.
77. Commission Staff recommended approval of the application.
78. This decision is not adverse to any party.

II. Conclusions of Law

The Commission makes the following conclusions of law.

1. The Commission has authority over this proceeding under Texas Water Code (TWC) §§ 13.041, 13.241, 13.242, 13.244, 13.246, 13.246, 13.251, and 13.301.
2. Hudson Oaks and Palo Duro are retail public utilities as defined by TWC § 13.002(19) and 16 Texas Administrative Code (TAC) § 24.3(31).
3. Notice of the application was provided in compliance with TWC §§ 13.246 and 13.301(a)(2), and 16 TAC § 24.239(c).²
4. The application meets the requirements of TWC § 13.244 and 16 TAC § 24.233.
5. The Commission processed the application as required by the TWC, the Administrative Procedure Act,³ and Commission rules.

² After this application was filed, 16 TAC § 24.239 was amended, effective March 29, 2023. Accordingly, all references and citations to 16 TAC § 24.239 in this Order are made to the version in effect at the time the application was filed.

³ Tex. Gov't Code §§ 2001.001—903.

6. Hudson Oaks and Palo Duro have complied with the requirements of 16 TAC § 24.239(k) and (l) with respect to customer deposits.
7. Hudson Oaks and Palo Duro completed the sale within the time required by 16 TAC § 24.239(m).
8. After consideration of the factors in TWC § 13.246(c), Hudson Oaks demonstrated that it is capable of rendering continuous service to every customer within the requested area, as required by TWC § 13.251.
9. Hudson Oaks demonstrated adequate financial, managerial, and technical capability for providing adequate and continuous service to the requested area, as required by TWC §§ 13.241(a) and 13.301(b).
10. Regionalization and consolidation concerns under TWC § 13.241(d) do not apply in this proceeding because construction of a physically separate water system is not required.
11. It is not necessary for Hudson Oaks to provide bond or other financial assurance under TWC §§ 13.246(d) and 13.301(c).
12. Hudson Oaks and Palo Duro have demonstrated that the sale and transfer of Palo Duro's facilities and service area held under CCN number 12200 to Hudson Oaks will serve the public interest and is necessary for the service, accommodation, convenience, or safety of the public as required by TWC §§ 13.246(b) and 13.301(d) and (e).
13. Under TWC § 13.257(r) and (s), Hudson Oaks and Palo Duro must each record a certified copy of the map and certificate approved by this Notice of Approval, along with a boundary description of the service area, in the real property records of Parker County within 31 days of receiving this Notice of Approval and submit to the Commission evidence of the recording.
14. The requirements for informal disposition under 16 TAC § 22.35 have been met in this proceeding.

III. Ordering Paragraphs

In accordance with these findings of fact and conclusions of law, the Commission issues the following orders.

1. The Commission approves the sale and transfer of Palo Duro's water facilities and service area held under water CCN number 12200 to Hudson Oaks, to the extent provided in this Notice of Approval and as shown on the attached map.
2. The Commission amends Hudson Oaks CCN number 12273 to include the 0.1-acre area previously included in Palo Duro's water CCN number 12200, as shown on the attached map.
3. The Commission amends Palo Duro's CCN number 12200 to remove the 68.5 acres of service area, as shown on the attached map.
4. The Commission approves the map and tariff attached to this Notice of Approval.
5. The Commission issues the certificates attached to this Notice of Approval.
6. Hudson Oaks must provide service to every customer or qualified applicant for service within the approved area under CCN number 12273 that requests water service and meets the terms of Hudson Oaks' water service policies, and such service must be continuous and adequate.
7. Palo Duro must provide service to every customer or qualified applicant for service within the approved area under CCN number 12200 that requests water service and meets the terms of Palo Duro's water service policies, and such service must be continuous and adequate.
8. Hudson Oaks and Palo Duro must each comply with the recording requirements in TWC § 13.257(r) and (s) for the areas in Parker County affected by the application and file in this docket proof of recording no later than 45 days after receipt of this Notice of Approval.
9. Within ten days of the date of this Notice of Approval, Commission Staff must provide the Commission with a clean copy of the tariff approved by this Notice of Approval to be stamped *Approved* and retained by Central Records.
10. The Commission denies all other motions and any other requests for general or specific relief, if not specifically granted.

Signed at Austin, Texas on the 9th day of December 2024.

COMMERCIAL & NON-RESIDENTIAL DEPOSIT 1/6TH OF ESTIMATED ANNUAL BILL

GOVERNMENTAL TESTING, INSPECTION AND COSTS SURCHARGE:

WHEN AUTHORIZED IN WRITING BY PUC AND AFTER NOTICE TO CUSTOMERS, THE UTILITY MAY INCREASE RATES TO RECOVER INCREASED COSTS FOR INSPECTION FEES AND WATER TESTING. [16 IAC 24.25(b)(2)(G)]

LINE EXTENSION AND CONSTRUCTION CHARGES:

REFER TO SECTION 3.0--EXTENSION POLICY FOR TERMS, CONDITIONS, AND CHARGES WHEN NEW CONSTRUCTION IS NECESSARY TO PROVIDE SERVICE.

SECTION 2.0 -- SERVICE RULES AND POLICIES

The utility will have the most current Public Utility Commission of Texas (Commission or PUC) Rules, Chapter 24, available at its office for reference purposes. The Rules and this tariff shall be available for public inspection and reproduction at a reasonable cost. The latest Rules or Commission approved changes to the Rules supersede any rules or requirements in this tariff.

Section 2.01 - Application for Water Service

All applications for service will be made on the utility's standard application or contract form (attached in the Appendix to this tariff), will be signed by the applicant, any required fees (deposits, reconnect, tap, extension fees, etc. as applicable) will be paid and easements, if required, will be granted before service is provided by the utility. A separate application or contract will be made for each service location.

Section 2.02 - Refusal of Service

The utility may decline to serve an applicant until the applicant has complied with the regulations of the regulatory agencies (state and municipal regulations) and for the reasons outlined in the PUC Rules. In the event that the utility refuses to serve an applicant, the utility will inform the applicant in writing of the basis of its refusal. The utility is also required to inform the applicant that a complaint may be filed with the Commission.

Section 2.03 - Fees and Charges & Easements Required Before Service Can Be Connected

(A) Customer Deposits

If a residential applicant cannot establish credit to the satisfaction of the utility, the applicant may be required to pay a deposit as provided for in Section 1.02 - Miscellaneous Fees of this tariff. The utility will keep records of the deposit and credit interest in accordance with PUC Rules.

Residential applicants 65 years of age or older may not be required to pay deposits unless the applicant has an outstanding account balance with the utility or another water or sewer utility which accrued within the last two years.

Nonresidential applicants who cannot establish credit to the satisfaction of the utility may be required to make a deposit that does not exceed an amount equivalent to one-sixth of the estimated annual billings.

Refund of deposit - If service is not connected, or after disconnection of service, the utility will promptly refund the customer's deposit plus accrued interest or the balance, if any, in excess of the unpaid bills for service furnished. The utility may refund the deposit at any time prior to termination of utility service but must refund the deposit plus interest for any residential customer who has paid 18 consecutive billings without being delinquent.

(B) Tap or Reconnect Fees

A new customer requesting service at a location where service has not previously been provided must pay a tap fee as provided in Section 1. A customer requesting service where service has previously been provided must pay a reconnect fee as provided in Section 1.

SECTION 2.0 – SERVICE RULES AND POLICIES (Continued)

Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to request for payment and/or commencement of construction. If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant or existing customer shall be informed of their right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's or existing customer's property(ies) is (are) located.

Fees in addition to the regular tap fee may be charged if listed specifically in Section 1 to cover unique costs not normally incurred as permitted by 16 TAC § 24.163(a)(1)(C). For example, a road bore for customers outside a subdivision or residential area could be considered a unique cost.

(C) Easement Requirement

Where recorded public utility easements on the service applicant's property do not exist or public road right-of-way easements are not available to access the applicant's property, the Utility may require the applicant to provide it with a permanent recorded public utility easement on and across the applicant's real property sufficient to provide service to that applicant. Such easement(s) shall not be used for the construction of production, storage, transmission or pressure facilities unless they are needed for adequate service to that applicant.

Section 2.04 - Utility Response to Applications for Service

After the applicant has met all the requirements, conditions and regulations for service, the utility will install tap, meter and utility cut-off valve and/or take all necessary actions to initiate service. The utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the utility will provide the applicant with a written explanation of the construction required and an expected date of service.

Except for good cause where service has previously been provided, service will be reconnected within one working day after the applicant has met the requirements for reconnection.

Section 2.05 - Customer Responsibility

The customer will be responsible for furnishing and laying the necessary customer service pipe from the meter location to the place of consumption. Customers will not be allowed to use the utility's cutoff valve on the utility's side of the meter. Existing customers may install cutoff valves on their side of the meter and are encouraged to do so. All new customers may be required to install and maintain a cutoff valve on their side of the meter.

No direct connection between a public water supply system and any potential source of contamination or between a public water supply system and a private water source (ex. private well) will be allowed. A customer shall not connect, or allow any other person or party to connect, onto any water lines on his premises.

SECTION 2.0 – SERVICE RULES AND POLICIES (Continued)

Section 2.06 - Customer Service Inspections

Applicants for new service connections or facilities which have undergone extensive plumbing modifications are required to furnish the utility a completed customer service inspection certificate. The inspection certificate shall certify that the establishment is in compliance with the Texas Commission on Environmental Quality (TCEQ) Rules and Regulations for Public Water Systems, 30 TAC § 290.46(j). The Utility is not required to perform these inspections for the applicant/customer, but will assist the applicant/customer in locating and obtaining the services of a certified inspector.

Section 2.07 - Back Flow Prevention Devices

No water connection shall be allowed to any residence or establishment where an actual or potential contamination hazard exists unless the public water facilities are protected from contamination by either an approved air gap, backflow prevention assembly, or other approved device. The type of device or backflow prevention assembly required shall be determined by the specific potential hazard identified in 30 TAC § 290.47(f) Appendix F, Assessment of Hazards and Selection of Assemblies of the TCEQ Rules and Regulations for Public Water Systems.

The use of a backflow prevention assembly at the service connection shall be considered as additional backflow protection and shall not negate the use of backflow protection on internal hazards as outlined and enforced by local plumbing codes. When a customer service inspection certificate indicates that an adequate internal cross-connection control program is in effect, backflow protection at the water service entrance or meter is not required.

At any residence or establishment where it has been determined by a customer service inspection, that there is no actual or potential contamination hazard, as referenced in 30 TAC § 290.47(f) Appendix F, Assessment of Hazards and Selection of Assemblies of the TCEQ Rules and Regulations for Public Water Systems, then a backflow prevention assembly or device is not required. Outside hose bibs do require, at a minimum, the installation and maintenance of a working atmospheric vacuum breaker.

All backflow prevention assemblies or devices shall be tested upon installation by a TCEQ certified backflow prevention assembly tester and certified to be operating within specifications. Backflow prevention assemblies which are installed to provide protection against health hazards must also be tested and certified to be operating within specifications at least annually by a certified backflow prevention assembly tester.

If the utility determines that a backflow prevention assembly or device is required, the utility will provide the customer or applicant with a list of TCEQ certified backflow prevention assembly testers. The customer will be responsible for the cost of installation and testing, if any, of backflow prevention assembly or device. The customer should contact several qualified installers to compare prices before installation. The customer must pay for any required maintenance and annual testing and must furnish a copy of the test results demonstrating that the assembly is functioning properly to the utility within 30 days after the anniversary date of the installation unless a different date is agreed upon.

SECTION 2.0 – SERVICE RULES AND POLICIES (Continued)

Section 2.08 - Access to Customer's Premises

The utility will have the right of access to the customer's premises at all reasonable times for the purpose of installing, testing, inspecting or repairing water mains or other equipment used in connection with its provision of water service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of the utility system including inspecting the customer's plumbing for code, plumbing or tariff violations. The customer shall allow the utility and its personnel access to the customer's property to conduct any water quality tests or inspections required by law. Unless necessary to respond to equipment failure, leak or other condition creating an immediate threat to public health and safety or the continued provision of adequate utility service to others, such entry upon the customer's property shall be during normal business hours and the utility personnel will attempt to notify the customer that they will be working on the customer's property. The customer may require any utility representative, employee, contractor, or agent seeking to make such entry identify themselves, their affiliation with the utility, and the purpose of their entry.

All customers or service applicants shall provide access to meters and utility cutoff valves at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply.

Section 2.09 - Meter Requirements, Readings, and Testing

One meter is required for each residential, commercial, or industrial connection. All water sold by the utility will be billed based on meter measurements. The utility will provide, install, own and maintain meters to measure amounts of water consumed by its customers.

Meters will be read at monthly intervals and as nearly as possible on the corresponding day of each monthly meter reading period unless otherwise authorized by the Commission.

Meter tests. The utility will, upon the request of a customer, and, if the customer so desires, in his or her presence or in that of his or her authorized representative, make without charge a test of the accuracy of the customer's meter. If the customer asks to observe the test, the test will be made during the utility's normal working hours at a time convenient to the customer. Whenever possible, the test will be made on the customer's premises, but may, at the utility's discretion, be made at the utility's testing facility. If within a period of two years the customer requests a new test, the utility will make the test, but if the meter is found to be within the accuracy standards established by the American Water Works Association, the utility will charge the customer a fee which reflects the cost to test the meter up to a maximum \$25 for a residential customer. Following the completion of any requested test, the utility will promptly advise the customer of the date of removal of the meter, the date of the test, the result of the test, and who made the test.

Section 2.10 - Billing

(A) Regular Billing

Bills from the utility will be mailed monthly unless otherwise authorized by the Commission. The due date of bills for utility service will be at least sixteen (16) days from the date of issuance.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the utility will constitute proof of the date of issuance. Payment for utility service is delinquent if full payment, including late fees and the regulatory assessment, is not received at the utility or the utility's authorized payment agency by 5:00 p.m. on the due date. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next workday after the due date.

(B) Late Fees

A late penalty of either \$5.00 or 10.0% will be charged on bills received after the due date. The penalty on delinquent bills will not be applied to any balance to which the penalty was applied in a previous billing. The utility must maintain a record of the date of mailing to charge the late penalty.

(C) Information on Bill

Each bill will provide all information required by the PUC Rules. For each of the systems it operates, the utility will maintain and note on the monthly bill a local or toll-free telephone number (or numbers) to which customers can direct questions about their utility service.

(D) Prorated Bills

If service is interrupted or seriously impaired for 24 consecutive hours or more, the utility will prorate the monthly base bill in proportion to the time service was not available to reflect this loss of service.

Section 2.11- Payments

All payments for utility service shall be delivered or mailed to the utility's business office. If the business office fails to receive payment prior to the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled. Utility service crews shall not be allowed to collect payments on customer accounts in the field.

Payment of an account by any means that has been dishonored and returned by the payor or payee's bank, shall be deemed to be delinquent. All returned payments must be redeemed with cash or valid money order. If a customer has two returned payments within a twelve-month period, the customer shall be required to pay a deposit if one has not already been paid.

Section 2.12 - Service Disconnection

(A) With Notice

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered.

The utility is encouraged to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 26 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with the PUC Rules.

SECTION 2.0 -- SERVICE RULES AND POLICIES (Continued)

B) Without Notice

Utility service may also be disconnected without notice for reasons as described in the PUC Rules.

Section 2.13 - Reconnection of Service

Utility personnel must be available during normal business hours to accept payments on the day service is disconnected and the following day unless service was disconnected at the customer's request or due to a hazardous condition.

Service will be reconnected within 36 hours after the past due bill, reconnect fees and any other outstanding charges are paid or the conditions which caused service to be disconnected are corrected.

Section 2.14 - Service Interruptions

The utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the utility will re-establish service within the shortest possible time. Except for momentary interruptions due to automatic equipment operations, the utility will keep a complete record of all interruptions, both emergency and scheduled and will notify the Commission in writing of any service interruptions affecting the entire system or any major division of the system lasting more than four hours. The notice will explain the cause of the interruptions.

Section 2.15 - Quality of Service

The utility will plan, furnish, and maintain production, treatment, storage, transmission, and distribution facilities of sufficient size and capacity to provide a continuous and adequate supply of water for all reasonable consumer uses. Unless otherwise authorized by the Commission, the utility will maintain facilities as described in the TCEQ Rules and Regulations for Public Water Systems.

Section 2.16 - Customer Complaints and Disputes

If a customer or applicant for service lodges a complaint, the utility will promptly make a suitable investigation and advise the complainant of the results. Service will not be disconnected pending completion of the investigation. If the complainant is dissatisfied with the utility's response, the utility must advise the complainant that he has recourse through the PUC complaint process. Pending resolution of a complaint, the commission may require continuation or restoration of service.

The utility will maintain a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint and the adjustment or disposition thereof, for a period of two years after the final settlement of the complaint.

In the event of a dispute between a customer and a utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the utility will inform the customer that a complaint may be filed with the Commission.

Section 2.17 - Customer Liability

Customer shall be liable for any damage or injury to utility-owned property shown to be caused by the customer.

SECTION 3.0--EXTENSION POLICY

Section 3.01 - Standard Extension Requirements

Line Extensions and Construction Charges: No Contribution in Aid of Construction may be required of any customer except as provided for in this approved extension policy.

The Utility is not required to extend service to any applicant outside of its certified service area and will only do so under terms and conditions mutually agreeable to the Utility and the applicant, in compliance with PUC rules and policies, and upon extension of the Utility's certified service area boundaries by the PUC.

The applicant for service will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the utility and the customer, or sharing of costs between the customer and other applicants prior to beginning construction.

The Utility is not required to extend service to any applicant outside of its certificated service area and will only do so under terms and conditions mutually agreeable to the Utility and the applicant, in compliance with PUC rules and policies, and upon extension of the Utility's certificated service area boundaries by the PUC.

Section 3.02 - Costs Utilities and Service Applicants Shall Bear

Within its certified area, the utility will pay the cost of the first 200 feet of any water main or distribution line necessary to extend service to an individual residential customer within a platted subdivision.

However, if the residential customer requesting service purchased the property after the developer was notified in writing of the need to provide facilities to the utility, the utility may charge for the first 200 feet. The utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the utility's approved extension policy after receiving a written request from the utility.

Residential customers will be charged the equivalent of the costs of extending service to their property from the nearest transmission or distribution line even if that line does not have adequate capacity to serve the customer. However, if the customer places unique, non-standard service demands upon the system, the customer may be charged the additional cost of extending service to and throughout their property, including the cost of all necessary transmission and storage facilities necessary to meet the service demands anticipated to be created by that property.

Unless an exception is granted by the PUC, the residential service applicant shall not be required to pay for costs of main extensions greater than 2" in diameter for water distribution and pressure wastewater collection lines and 6" in diameter for gravity wastewater lines.

Exceptions may be granted by the PUC if:

- adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the utility's burden to justify that a larger diameter pipe is required for adequate service;
- or larger minimum line sizes are required under subdivision platting requirements or building codes of municipalities within whose corporate limits or extraterritorial jurisdiction the point of use is located; or the residential service applicant is located outside the CCN service area.

SECTION 3.0 -- EXTENSION POLICY (Continued)

If an exception is granted, the Utility shall establish a proportional cost plan for the specific extension or a rebate plan which may be limited to seven years to return the portion of the applicant's costs for oversizing as new customers are added to ensure that future applicants for service on the line pay at least as much as the initial service applicant.

For purposes of determining the costs that service applicants shall pay, commercial customers with service demands greater than residential customer demands in the certified area, industrial, and wholesale customers shall be treated as developers. A service applicant requesting a one-inch meter for a lawn sprinkler system to service a residential lot is not considered nonstandard service.

If an applicant requires service other than the standard service provided by the utility, such applicant will be required to pay all expenses incurred by the utility in excess of the expenses that would be incurred in providing the standard service and connection beyond 200 feet and throughout his property including the cost of all necessary transmission facilities.

The utility will bear the full cost of any over-sizing of water mains necessary to serve other customers in the immediate area. The individual residential customer shall not be charged for any additional production, storage, or treatment facilities. Contributions in aid of construction may not be required of individual residential customers for production, storage, treatment or transmission facilities unless otherwise approved by the Commission under this specific extension policy.

Section 3.03 - Contributions in Aid of Construction

Developers may be required to provide contributions in aid of construction in amounts sufficient to furnish the development with all facilities necessary to provide for reasonable local demand requirements and to comply with TCEQ minimum design criteria for facilities used in the production, transmission, pumping, or treatment of water or TCEQ minimum requirements. For purposes of this subsection, a developer is one who subdivides or requests more than two meters on a piece of property. Commercial, industrial, and wholesale customers will be treated as developers.

Any applicant who places unique or non-standard service demands on the system may be required to provide contributions in aid of construction for the actual costs of any additional facilities required to maintain compliance with the TCEQ minimum design criteria for water production, treatment, pumping, storage and transmission.

Any service extension to a subdivision (recorded or unrecorded) may be subject to the provisions and restrictions of 16 TAC § 24.163(d). When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge for facilities which must be committed to such extension compliant with the TCEQ minimum design criteria. As provided by 16 TAC § 24.163(d)(4), for purposes of this section, commercial, industrial, and wholesale customers shall be treated as developers.

SECTION 3.0 -- EXTENSION POLICY (Continued)

A utility may only charge a developer standby fees for unrecovered costs of facilities committed to a developer's property under the following circumstances:

- Under a contract and only in accordance with the terms of the contract; or
- if service is not being provided to a lot or lots within two years after installation of facilities necessary to provide service to the lots has been completed and if the standby fees are included on the utilities approved tariff after a rate change application has been filed. The fees cannot be billed to the developer or collected until the standby fees have been approved by the commission or executive director.
- for purposes of this section, a manufactured housing rental community can only be charged standby fees under a contract or if the utility installs the facilities necessary to provide individually metered service to each of the rental lots or spaces in the community.

Section 3.04 - Appealing Connection Costs

The imposition of additional extension costs or charges as provided by Sections 3.0 - Extension Policy of this tariff shall be subject to appeal as provided in this tariff, PUC rules, or the rules of such other regulatory authority as may have jurisdiction over the utility's rates and services. Any applicant required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to payment and/or commencement of construction. If the applicant does not believe that these costs are reasonable or necessary, the applicant shall be informed of the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's property(ies) is located.

Section 3.05 - Applying for Service

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than one service connection is desired by any individual applicant. Service application forms will be available at the Utility's business office during normal weekday business hours. Service applications will be sent by prepaid first-class United States mail to the address provided by the applicant upon request. Completed applications should be returned by hand delivery in case there are questions which might delay fulfilling the service request. Completed service applications may be submitted by mail if hand delivery is not possible.

Where a new tap or service connection is required, the service applicant shall be required to submit a written service application and request that a tap be made. A diagram, map, plat, or written metes and bounds description of precisely where the applicant desires each tap or service connection is to be made and, if necessary, where the meter is to be installed, along the applicant's property line may also be required with the tap request. The actual point of connection and meter installation must be readily accessible to Utility personnel for inspection, servicing, and meter reading while being reasonably secure from damage by vehicles and mowers. If the Utility has more than one main adjacent to the service applicant's property, the tap or service connection will be made to the Utility's nearest service main with adequate capacity to service the applicant's full potential service demand.

SECTION 3.0 -- EXTENSION POLICY (Continued)

Beyond the initial 200 feet, the customer shall bear only the equivalent cost of extending from the nearest main. If the tap or service connection cannot be made at the applicant's desired location, it will be made at another location mutually acceptable to the applicant and the Utility. If no agreement on location can be made, the applicant may refer the matter to the PUC for resolution.

Section 3.06 - Qualified Service Applicant

A "qualified service applicant" is an applicant who has: (1) met all of the Utility's requirements for service contained in this tariff, PUC rules and/or PUC order, (2) has made payment or made arrangement for payment of tap fees, (3) has provided all easements and rights-of-way required to provide service to the requested location, (4) delivered an executed customer service inspection certificate to the Utility, if applicable, and (5) has executed a customer service application for each location to which service is being requested.

The Utility shall serve each qualified service applicant within its certified service area as soon as practical after receiving a completed service application. All service requests will be fulfilled within the time limits prescribed by PUC rules once the applicant has met all conditions precedent to achieving "qualified service applicant" status. If a service request cannot be fulfilled within the required period, the applicant shall be notified in writing of the delay, its cause and the anticipated date that service will be available. The PUC service dates shall not become applicable until the service applicant has met all conditions precedent to becoming a qualified service applicant as defined by PUC rules.

Section 3.07 - Developer Requirements

As a condition of service to a new subdivision, the Utility shall require a developer (as defined by PUC rule) to provide permanent recorded public utility easements as a condition of service to any location within the developer's property.

APPENDIX A - DROUGHT CONTINGENCY PLAN

“This page incorporates by reference the utility’s Draught Contingency Plan, as approved and periodically amended by the Texas Commission on Environmental Quality.”

APPENDIX B – SAMPLE SERVICE AGREEMENT
(Utility Must Attach Blank Copy)

APPENDIX C -- APPLICATION FOR SERVICE
(Utility Must Attach Blank Copy)

Public Utility Commission of Texas

By These Presents Be It Known To All That

Palo Duro Service Company, Inc.

having obtained certification to provide water utility service for the convenience and necessity of the public, and it having been determined by this Commission that the public convenience and necessity would in fact be advanced by the provision of such service, Palo Duro Service Company, Inc. is entitled to this

Certificate of Convenience and Necessity No. 12200

to provide continuous and adequate water utility service to that service area or those service areas in Parker and Wise counties as by final Order or Orders duly entered by this Commission, which Order or Orders resulting from Docket No. 54429 are on file at the Commission offices in Austin, Texas; and are matters of official record available for public inspection; and be it known further that these presents do evidence the authority and the duty of Palo Duro Service Company, Inc. to provide such utility service in accordance with the laws of this State and Rules of this Commission, subject only to any power and responsibility of this Commission to revoke or amend this Certificate in whole or in part upon a subsequent showing that the public convenience and necessity would be better served thereby.

Public Utility Commission of Texas

By These Presents Be It Known To All That

City of Hudson Oaks

having obtained certification to provide water utility service for the convenience and necessity of the public, and it having been determined by this Commission that the public convenience and necessity would in fact be advanced by the provision of such service, the City of Hudson Oaks is entitled to this

Certificate of Convenience and Necessity No. 12273

to provide continuous and adequate water utility service to that service area or those service areas in Parker County as by final Order or Orders duly entered by this Commission, which Order or Orders resulting from Docket No. 54429 are on file at the Commission offices in Austin, Texas; and are matters of official record available for public inspection; and be it known further that these presents do evidence the authority and the duty of the City of Hudson Oaks to provide such utility service in accordance with the laws of this State and Rules of this Commission, subject only to any power and responsibility of this Commission to revoke or amend this Certificate in whole or in part upon a subsequent showing that the public convenience and necessity would be better served thereby.
