If applicable, describ	e the "multip	ple-use facility" here	<u>):</u>						
		INFORMAT	TON C	N UTILITY SERV	/ICE				
Tenants are billed for	or Wate	er Wastewate	er		Subm	etered	<u>OR</u>	Al	located ★★★
Name of utility providing water/wastewater									
Date submetered or allocated billing begins (or began)  Required									
METHOD USED TO OFFSET CHARGES FOR COMMON AREAS Check one line only.									
Not applicable, because Bills are based on the tenant's actual submetered consumption									
	There are <u>neither</u> common areas <u>nor</u> an installed irrigation system								
All common area	s and the irri	gation system(s) are	metere	ed or submetered:					
We deduct the actua	al utility char	ges for water and wa	astewa	ter to these areas t	hen all	ocate 1	he rem	aining	charges among
our tenants.	·								
This property has	s an installed	irrigation system th	at is <u>no</u>	ot separately meter	red or si	ubmet	ered:		
We deduct percent (we deduct at least 25 percent) of the utility's total charges for water and wastewater									
consumption, then a	allocate the re	emaining charges am	nong ou	ır tenants.					
This property has an installed irrigation system(s) that <u>is/are</u> separately metered or submetered:									
We deduct the actual utility charges associated with the irrigation system(s), then deduct at least 5 percent of the utility's									
total charges for water and wastewater consumption, then allocate the remaining charges among our tenants.									
This property doe	es <u>not</u> have ar	n installed irrigation	systen	n:					
We deduct at least 5 percent of the retail public utility's total charges for water and wastewater consumption, and then									
allocate the remaining charges among our tenants.

Austin, TX 78711-3326				Austin, TX 78701					

## METHOD USED TO ALLOCATE UTILITY CHARGES

Check the box or boxes that describe the allocation method used to bill tenants.

1. Occupancy method: The number of occupants in the tenant's dwelling unit is divided by the total number of occupants in all dwelling units at the beginning of the month for which bills are being rendered.

Ratio occupancy method:		Number of Occupants for
	Number of Occupants	Billing Purposes
The number of occupants in the tenant's dwelling unit	1	1.0
is adjusted as shown in the table to the right. This	2	1.6
adjusted value is divided by the total of these values	3	2.2
for all dwelling units occupied at the beginning of the	>3	2.2 + 0.4 for each additional occupant
retail public utility's billing period.		-

3. Estimated occupancy method:	Number of	Number of Occupants for		
	Bedrooms	Billing Purposes		
The estimated occupancy for each unit is based on the	0 (Efficiency)	1		
number of bedrooms as shown in the table to the	1	1.6		
right. The estimated occupancy in the tenant's	2	2.8		
dwelling unit is divided by the total estimated	3	4.0		
occupancy in all dwelling units regardless of the actual	>3	4.0 + 1.2 for each additional bedroom		
number of occupants or occupied units.				

For Box #4: if you check off with the % you will need to choose #1, #2, or # 3 from above as the reminder of no more than 50%.

4. Occupancy and size of rental unit percent (in which no more than 50%) of the utility bill for

consumption is allocated using the occupancy method checked above. The remainder is allocated according to either:

- the size of the tenant's dwelling unit divided by the total size of all dwelling units, OR
- the size of the space rented by the tenant of a manufactured home divided by the size of all rental spaces.

## Submetered hot water:

The individually submetered hot water used in the tenant's dwelling unit is divided by all submetered hot water used in all dwelling units.

Submetered cold water is used to allocate charges for hot water provided through a central system:

The individually submetered cold water used in the tenant's dwelling unit is divided by all submetered cold water used in all dwelling units.

The size of the area rented by the tenant divided by the total area of all the size of rental spaces.

Size of the rented space in a multi-use facility:

The square footage of the space rented by the tenant divided by the total square footage of all rental spaces.
