### ORDER APPROVING ERCOT REVISION REQUESTS

This Order addresses revision to one Electric Reliability Council of Texas (ERCOT) rule. The Commission approves the revision and accompanying market impact statement.

At its meeting on March 21, 2023, the ERCOT Technical Advisory Committee (TAC) recommended Commission approval of the following Load Profiling Guide Revision Request (PGRR).

LPGRR071, *Reduced Timing Requirement for Submittal of Usage and Demand Values by Opt-In Entities*

On April 3, 2023, ERCOT filed a copy of its TAC Report, which includes an ERCOT Market Impact Statement, and ERCOT Impact Analysis. These supporting ERCOT documents constitute the market impact analysis. Commission Staff filed a memorandum on April 19, 2023, related to these revisions in which it recommends that the Commission approve the revisions to the rules.

The Commission finds that these revisions are necessary for the proper functioning of the ERCOT market as demonstrated by the supporting material. The Commission issues the following orders:

1. The Commission approves LPGRR071 and accompanying market impact statement.

Signed at Austin, Texas the 27<sup>th</sup> day of April 2021.
