TO: Interim Chair Kathleen Jackson
Commissioner Will McAdams
Commissioner Lori Cobos
Commissioner Jimmy Glotfelty

FROM: Ramya Ramaswamy, Market Analysis
Harika Basaran, Market Analysis

DATE: December 12, 2023

RE: December 14, 2023, Open Meeting – Item No. 23

Project No. 54445 – *CY 2023 Review of Rules Adopted by the Independent Organization (NPRR1186)*

On December 11, 2023, the Electric Reliability Council of Texas (ERCOT) filed a request to defer discussion and consideration of Nodal Protocol Revision Request (NPRR) 1186, *Improvements Prior to RTC 1 B Project for Better ESR State of Charge Awareness, Accounting, and Monitoring*, until the January 18, 2024 open meeting. ERCOT also committed to filing a detailed presentation no later than January 4, 2024. ERCOT suggested that the month-long delay will enable it to better prepare its materials and provide an opportunity for both the Commission and interested parties to thoroughly consider its presentation materials.

Commission Staff finds ERCOT's proposal to defer discussion of NPRR1186 until the January 18, 2024, open meeting reasonable. If the commissioners agree with ERCOT's proposal, Commission Staff recommends that interested parties be advised to submit written comments in response to ERCOT's materials by 3:00 pm on January 11, 2024, and that comments should be filed in Project No. 54445 and limited to a maximum of five pages.
