PUBLIC UTILITY COMMISSION
FILING CLERK

ORDER APPROVING ERCOT REVISION REQUESTS

This Order addresses three proposed revisions to Electric Reliability Council of Texas (ERCOT) protocols. The Commission approves these revisions and accompanying market impact statements.

At its meeting on April 23, 2024, the ERCOT Board of Directors (Board) recommended Commission approval of the following three proposed revisions:

- NPRR1197, Optional Exclusion of Load from Netting at ERCOT-Polled Settlement (EPS) Metering Facilities which Include Resources;
- NPRR1205, Revisions to Credit Qualification Requirements of Banks and Insurance Companies; and
- RMGRR177, Switch Hold Removal Clarification.

On May 1, 2024, for each proposed revision, ERCOT filed a copy of its Board Report, which includes an ERCOT Market Impact Statement, and ERCOT Impact Analysis. These supporting ERCOT documents constitute the market impact analysis. Commission Staff filed a memorandum on June 6, 2024, related to these revisions in which it recommended that the Commission approve the revisions.

The Commission finds that the revisions to the ERCOT protocols are necessary for the proper functioning of the ERCOT market as demonstrated by the supporting material. The Commission issues the following orders:

1. The Commission approves NPRR1197 and accompanying market impact statement.
2. The Commission approves NPRR1205 and accompanying market impact statement.
3. The Commission approves RMGRR177 and accompanying market impact statement.

Signed at Austin, Texas the 13th day of June 2024.
