This rate request doubles our current bill!

How about a smaller rate increase each year for the next few years?

This would allow many on a fixed budget or those being hit hard by extreme runaway inflation to at least have the opportunity to adjust what they can in order to pay their bill.

Of course we want safe and reliable water. But doubling our bill in one act is going to put a lot of people in more of a bind than they are already in.

Thank you,
L. R. Brown
