as far as I know SAWS still provides my water so your info on providing water as an excuse to raise rates is meaningless.

you started sewage service for my home in Aug 2022, after 6 months of service you propose to triple my monthly rate. How did you ever get the contract? Did you underbid and never looked into what you were taking over? Or are you really going to only increase the rate at twice as much of the current rate and that will look like a good deal to us homeowners? And, just as a point of interest, <sup>in</sup> what time frame are all these needed improvements going to be finished? and, are all the revenue collected in Texas going to be used in Texas?
