CSWR-TEXAS UTILITY OPERATING COMPANY

FILLING CLERK, PUBLIC UTILITY COMMISSION OF TEXAS

Just received a letter from CSWR-TEXAS UTILITY OPERATING COMPANY

Advising me the water rates will automatically increased from 1.83 to 5.53 per 1000 gallons March 10, 2023.

I had been a customer of Amberwood Water company the last 13 years and they increase the rate in a NORMAL rate, but this new company starts to give us service last month, and the second letter I receive from them is this water rates increase.

This letter is to protest that action.
