CSWR-TEXAS
Utility Operating Company

February 3, 2023

Dear CSWR-Texas Customer,

On February 3, 2023, CSWR-Texas Utility Operating Company, LLC (“CSWR-Texas” or the “Company”) filed a request with the Public Utility Commission of Texas (“PUCT”) and other regulators to increase water and wastewater rates for its Texas customers.

Since 2019, the Company has invested over \$30 million in Texas water and wastewater systems. These investments are necessary to ensure that customers served by these systems are now receiving safe and reliable water and wastewater service. These investments have included rectifying issues related to all aspects of its facilities, including its wells, storage, pipes, pumps, disinfection, power and control systems, distribution systems, inflow and infiltration systems, lift stations, sludge treatment plants (blowers, piping, aeration or clarifier equipment), and non-discharging septic systems in addition to other functional issues. To date, the Company already has completed improvement projects at 16 of the systems acquired in Texas, has begun implementing improvements at 38 additional sites, and is in the design phase for improvements at the remaining 20 facilities. As a result, CSWR-Texas is seeking a revenue requirement for water operations of approximately \$7.4 million, which represents an increase of approximately \$3.5 million over revenues collected under current rates. In addition, CSWR-Texas is asking the PUCT to approve a total annual revenue requirement for wastewater operations of approximately \$2.2 million, which represents an annual increase of approximately \$1.1 million over revenues collected under current rates.

CSWR-Texas’s rates are subject to the approval of the PUCT and certain municipalities. The Company has requested that rates take effect for all customers on March 10, 2023, which is 35 days after the filing of its application and issuance of this notice to customers. However, **no change in rates will take effect until such change is approved by the applicable regulatory authority.** The attached “Customer Notice” provides further information about this filing, including a description of the change in rates, instructions on how to review the entire application and how to protest the proposed rate change or formally intervene in this proceeding.

While we understand there is never a good time to raise rates, this increase is necessary to allow us to continue to meet our shared goals of providing outstanding wastewater service and delivering safe and reliable drinking water delivered to your taps. It also ensures safe working conditions for our staff and continued prudent business practices.

We welcome any feedback from our customers, whether it is about the proposed rates or about our services. You can contact us at 1-866-301-7725 from 8:00 a.m. to 5:00 p.m., Monday through Friday, or email us at support@cswrtextasuoc.com

Respectfully,

CSWR-Texas Management

has filed a rate change application with the Public Utility Commission of Texas (Commission or PUCT). The application may be reviewed online at interchange.puc.texas.gov. You may also inspect a copy of the rate change application at your utility's office at the address below or at the Commission's office (1701 N. Congress Ave, Austin, TX 78701). The proposed rates will apply to service received after the effective date provided below, unless modified or suspended by the Commission. If the Commission receives a sufficient number of protests, separately or in a combined protest letter, from at least 835 ratepayers (10 percent of the utility's customers over whose rates the Commission has original jurisdiction) or from any affected municipality before the 91st day after the proposed effective date, the matter will be set for hearing. **See Protest Form on the next page for instructions on how to protest.**

EFFECTIVE DATE OF PROPOSED INCREASE: 3/10/2023

(must be at least 35 days after notice is provided to customers and 35 days after application is filed)

(Proposed rates requested by the utility are not final. The Commission may modify the rates and order a refund or credit against future bills all sums collected during the pendency of the rate proceeding in excess of the rate finally ordered plus interest.)

Reason(s) for Proposed Rate Change:

To recover revenues sufficient to cover the cost to provide safe and reliable service through maintenance and repairs
