PUBLIC UTILITY COMMISSION  
FILIP'S CLERK

**TO:** Chairman Thomas J. Gleeson  
Commissioner Jimmy Glotfelty  
Commissioner Kathleen Jackson

**FROM:** Commissioner Lori Cobos *LC w/permission JG*

**DATE:** June 12, 2024

**RE:** June 13, 2024 Open Meeting – Agenda Item No. 31  
Project No. 54584, *Reliability Standard for the ERCOT Market*

---

First and foremost, I would like to thank Commission Staff for their hard work and diligence in preparing a proposal for publication for the Commission's consideration at tomorrow's open meeting. Establishing a reliability standard for the Electric Reliability Council of Texas, Inc. (ERCOT) market is critically important for our state. As we move forward with getting stakeholder comment on the proposal, I would like to get specific stakeholder feedback on the following:

1. What are the advantages and disadvantages of enshrining an exceedance tolerance for magnitude and duration in the Commission's rule?
2. Should the exceedance tolerance be evaluated more frequently than the reliability standard? If so, what is the appropriate frequency?

I look forward to discussing this important matter with you. Thank you for your consideration.
