Issues With TWC and PUC initial Brief

Conflicting interest . Public interest and higher rates don't go together.
It will impact everyone and people will have to choose between food.
The PUC should be helping the consumers
I did not like the phrase intervenors don't stand a chance, by Mr. Faulk.
Persons with not any water rate experience should not be involved in area.

Conclusion

The welfare of the public is what is the most important issue

Not lining the pockets of profiteers and others who will not be affected

By the crazy amount ours and others ware bills will go up.

Come by ride through our neighbor hood
