Item Number - 44

To who it may concern.

I Cecil v Fairfax wish to request a hearing to protest the merger or joining of water companies involved. The price increase will burden all who are retired and people with fixed income and lower income people.

The rates we now pay are fair. The services are not the best and I feel they will not get any better and only burden all who live here and any increases will just put money in someone's pocket.

We need good water at a fair rate .

Do not let the few hold our need of water over our heads for their profits.

Thank you Cecil V Fairfax
