**JOINT PROPOSED NOTICE OF APPROVAL**

This Notice of Approval addresses the application of Aqua Texas, Inc. (Aqua Texas) providing its 2022 true-up report in compliance with its North Region tariff and requesting approval for a regional pass-through gallonage rate increase affecting its North Region under 16 Texas Administrative Code (TAC) § 24.25(b)(2). The Commission approves Aqua Texas's annual true-up report for calendar year 2022. Additionally, the Commission approves a regional pass-through rate of \$0.6224 per 1,000 gallons for its North Region, effective March 1, 2023.

**I. Findings of Fact**

The Commission makes the following findings of fact.

**Applicant**

1. Aqua Texas is a Texas corporation registered with the Texas secretary of state under filing number 800304878.
2. Aqua Texas provides retail water service under certificate of convenience and necessity (CCN) number 13201 in its North Region, which comprises Anderson, Bosque, Camp, Cherokee, Collin, Cooke, Denton, Erath, Grayson, Gregg, Henderson, Hood, Hunt, Johnson, Kaufman, McLennan, Marion, Parker, Smith, Somervell, Tarrant, Wise, and Wood counties.

**Application**

3. On February 23, 2023, Aqua Texas filed an application providing its 2022 true-up report in compliance with its North Region tariff and requesting approval of a regional pass-through gallonage rate increase.
4. Aqua Texas's regional pass-through gallonage rate increase affects its North Region.
5. In its application, Aqua Texas requested an increase based on the overall fees it pays to the 18 entities listed in its application.<sup>1</sup> Specifically, Aqua Texas requested a regional pass-through gallonage rate increase for customers subject to its North Region regional pass-

through gallonage charge from \$0.4231 to \$0.6224 per 1,000 gallons, effective March 1, 2023.

6. The application contained the affected CCN numbers, the affected subdivisions, the affected public water systems' names and corresponding numbers issued by the Texas Commission on Environmental Quality, a copy of the notice to the customers, documentation supporting the stated amounts of any new or modified pass-through costs, all calculations and assumptions for any true-up of pass-through costs, and the calculations and assumptions used to determine the new rates, and a copy of the pages of the utility's tariff that contain the rates that will change if the utility's application is approved.
7. In Order No. 2 filed on March 29, 2023, the administrative law judge (ALJ) found the application, as supplemented, administratively complete.

**Notice**

8. On February 27, 2023, Aqua Texas mailed notice to all affected customers, detailing the proposed regional pass-through gallonage rate increase, effective March 1, 2023.
9. The notice contained the proposed effective date of the change, the present calculation of customer billings, the new calculation of customer billings, the change in charges to Aqua Texas for purchased water, and the following language: "This tariff change is being implemented in accordance with the minor tariff changes allowed by 16 Texas Administrative Code § 24.25. The cost to you as a result of this change will not exceed the costs charged to your utility."
10. In Order No. 2 filed on March 29, 2023, the ALJ found the notice sufficient.

**Evidentiary Record**

11. In Order No. \_\_ filed on \_\_\_\_, \_\_\_\_, 2023, the ALJ admitted the following evidence into the record of this proceeding: (a) Aqua Texas's application for a true-up report and pass-through gallonage charge for its North Region and all attachments filed on February 23, 2023; (b) Aqua Texas's supplement to the application filed on March 21, 2023; (c) Commission Staff's recommendation on the administrative completeness of the application and noticed filed on March 27, 2023; (d) Order No. 2 Finding Application Administratively Complete, Notice Sufficient, and Establishing Procedural Schedule filed on March 29, 2023; and (e) Commission Staff's final recommendation filed on May 30, 2023.

**Jurisdiction**

12. Aqua Texas is a utility that purchases water.
13. Aqua Texas is under the original jurisdiction of the Commission.

**Eligibility for Pass-Through Rate Change**

14. The proposed rate will pass through only the actual costs charged to Aqua Texas by its suppliers and does not duplicate costs otherwise charged to customers under the current tariff.
15. Aqua Texas provided a true-up report reflecting the amounts billed to Aqua Texas's customers in 2022 compared with amounts paid to suppliers, as required under the current tariff. The true-up report was filed within the time contemplated by Aqua Texas's North Region tariff.

**Tariffs and Corrections to the Pass-Through Formula**

16. The tariff for Aqua Texas's North Region in effect when the application was filed was approved by the Commission on October 24, 2022, in Tariff Control No. 53264.<sup>2</sup> A new North Region water utility tariff with this same formula was subsequently approved to reflect interim system improvement charge rates in Docket No. 53428.<sup>3</sup> Aqua Texas applied the approved formula from Docket No. 53428 in determining the new regional pass-through gallonage rate for its North Region.
17. Aqua Texas provided a true-up report reflecting the amounts billed in the previous year compared with amounts paid to water districts having jurisdiction over Aqua Texas.
18. Aqua Texas's North Region tariff prescribes the formula by which the regional pass-through gallonage rate is to be calculated and applied to customers of applicable public water systems. The formula takes into account the projected sum for the upcoming 12 months for purchased water and district costs, the actual collections by Aqua Texas in the previous 12 months from the previously-approved regional pass-through gallonage rate, the year-end meter equivalents, and the average annual usage per meter equivalent, in 1,000 gallon units, from Aqua Texas's most recent rate case.
