§  
§

**PUBLIC UTILITY COMMISSION  
  
OF TEXAS**

**ORDER NO. 9  
REQUIRING CLARIFICATION**

This Order addresses the need for clarification regarding the application and agreement at issue in this proceeding.

First, by October 1, 2024, Enviro-Management must clarify the customer connection count as of December 31, 2021. The proposed order filed by Enviro-Management and Commission Staff states that the connection count was 110 connections, however, the application states that it was 137, with an average connection count of 127.

Second, by October 1, 2024, Enviro-Management and Commission Staff must clarify whether the rate case expense surcharge of \$0.45 a month for six months is reflected in the proposed tariff. If it is not reflected in the proposed tariff, Enviro-Management and Commission Staff must provide an explanation of why it is not reflected in the tariff. Alternatively, Enviro-Management and Commission Staff may file a revised proposed tariff and move to admit it into the record of this proceeding.
