DOCKET NO. 54683

APPLICATION OF § PUBLIC UTILITY COMMISSION
ENVIRO-MANAGEMENT FOR §
AUTHORITY TO CHANGE RATES § OF TEXAS

**ENVIRO-MANAGEMENT'S RESPONSE TO THE COMMISSION'S
ORDER NO. 9 REQUIRING CLARIFICATION ON CONNECTION COUNT**

Enviro-Management files this response to the Public Utility Commission Staff's Order No. 9, received September 10, 2024, requiring clarification on connection count. This response is submitted on September 17, 2024, and is timely filed.

To clarify, the connection count was 117 connections as of December 31, 2021. The connection count for the end of the test year (December 31, 2022) and as stated on the application was 137.

The Heritage Oaks subdivision was developed in the 1970's without meters and some meters were added in the 1980's. The neighborhood consists of mobile homes, travel trailers and a few houses. Over the past couple of years there have been an influx of new residents moving in and meters were added to abandoned, existing taps. A few new taps were also added, bringing the connection count to 137.

Respectfully submitted,

ENVIRO-MANAGEMENT

/s/ Sheila Agnew
