ORDER NO. 2
REQUIRING CONFIRMATION OR CLARIFICATION

This Order requires confirmation or clarification regarding Commission Staff's June 1, 2023 filing, which proposed a method for processing this case and proposed a procedural schedule. Specifically, Commission Staff believes that because the 281/346/713/832 numbering plan area already has four preexisting overlays and because customers will not need to change their dialing methods, a public hearing is not necessary. Instead, Commission Staff proposed a 30-day public comment period after appropriate notification where interested parties may file their comments in this docket. Commission Staff proposed that a notice in their bill inform affected customers and that the Commission issue a press release to major regional new organizations.

The administrative law judge (ALJ) notes that in the most recent docket processed by the Commission that is similar to this one, Docket No. 48765,¹ the parties initially proposed a schedule similar to that proposed by Commission Staff here, but later requested a modified and revised procedural schedule because Staff no longer proposed that customers be informed by a bill notice because a change to current dialing methods was not needed and because the proposed relief was an overlay. Therefore, before the ALJ approves the proposed method of processing and establishes the requested procedural schedule, the ALJ requires confirmation that such a change in notice is not also appropriate in this application.

By June 20, 2023, the parties must confirm or clarify whether notice as originally proposed in Commission Staff's June 1, 2023 filing remains appropriate and if any other changes to processing or the proposed procedural schedule are necessary.
