July 24, 2023

Public Utility Commission of Texas

Docket: 55067 – Ramhorm Hill-Dunham Transmission Line

To Whom It May Concern:

My name is Susan Kay Patton. I reside at 1017 Coralberry Drive, Northlake, TX, 76226 in the Laurel subdivision/village of Canyon Falls located near I-35W and FM 1171. My intent with this letter to express my protest and disagreement with the possibility of the new power line extension running in location **E8 in the Ramhorm Hill-Dunham Transmission Line proposal.**

The impact to this extension at this location would directly impact myself and my children with exposure to ELF-EMF exposure. I purchased this home in 2021 and one of the deciding factors was that it was NOT adjacent to power lines as other appealing properties presented to me were near existing power lines such as those being proposed to now run directly behind my home. As someone at risk to recurrence of tumors (had multiple removed previously), anything I can do to lower my risk is a priority to me. Additionally, implementing the E8 extension would also increase my property value by reducing it 5-10%. As a single mother, I am not in a position to lose \$25,000 to \$50,000+ dollars in property value.

I would like to also **protest C5, C8, C9, E3, and E5** as it directly impacts our nature reserve, walking trails, and dog park. These amenities are also critical to our community and children, families, and pets that utilize them, including myself, my children, and my pets. The building of this new extension would impact Canyon Falls greatly and would like to request another location is selected so our community is not be impacted by this proposal.

There are alternatives available to Oncor that will greatly reduce the number of lives impacted by running the new extension south of FM 1171 where residential areas are minimal. C6 and E6 are preferred.

Thank you for your time to review my protest and consideration of this concern.

Sincerely,

A handwritten signature in black ink, appearing to be 'Susan Kay Patton', with a long, sweeping horizontal line extending to the right.
