To build a transmission line so close to the homes in Harriet Creek shows lack of concern for the health & well being of those living near this structure. Radiation could emit from this structure, putting the lives of those nearest to it in serious jeopardy. In addition, it would lower our property values, because no one would want to buy a home near this line.

This structure so close to the entrance of our subdivision would be an eye sore for anyone wanting to buy a home in Harriet Creek. This proposal shows lack of concern for the health & well being for those of us living here.
