- ☒ Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

We do not want this transmission line near our neighborhood or community. We lived six houses away from a proposed route. This will negatively affect our property value and resale value. You will be destroying the little of natural trees and habitat that remains in the area. The consequences of living near a high voltage transmission line and the extreme eye sore that this will be in our line of sight from our home. This route also will have an elementary school and preschool near it as well.
