I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.

☐ One or more of the utility's proposed routes would cross my property.

☐ Other. Please describe and provide comments. You may attach a separate page, if necessary.

~~On our towers will be visible from my property and home. The site of these structures will greatly decrease the value of my home, and all of our neighborhood. The affects of the electricity damages trees, foliage, people and animals. The loss of the trees for the construction will take away parks, the stream, and natural wildlife in our area. The new city construction south of the proposed area will be greatly diminished. All of these items are things we moved here to have near us. DON'T DESTROY OUR HOME AREA. Choose another route!~~
