I am **NOT** requesting to intervene in this proceeding. As a **PROTESTOR**, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.

One or more of the utility's proposed routes would cross my property.

Other. Please describe and provide comments. You may attach a separate page, if necessary.

We have lived in Canyon Falls for 3 yrs. Since the time we moved here we have seen a significant reduction of wildlife. This will impact our natural spaces that the few remaining wildlife exist in. These lines running through our entrance pkwy & amenities will also impact the desirability of our neighborhood & impact our property values. Continued on the back

Date:

7/19/23

These lines will impact our main amenity center & the views from it where the swimming pool for the subdivision is. One of the selling points for the subdivision is the open spaces & trails which will be impacted. We already have large transmission towers coming through another area of the subdivision. More lines will only make the subdivision look like an area substation. There are other routes that would be less impactful to wildlife, homes, & the general public.
