Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☐ Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

My property & neighborhood would be negatively impacted by powerlines routes C3 & C6 for the Ramhorn Hill - Dunham 345KV. I oppose these routes because of concerns for property value decreasing, increased hazard (fire) putting my property at risk & raising insurance rates, health concerns, EMF radiation have been linked to higher risks for cancer, aesthetics of having powerlines by my home, noise concerns with electrical buzzing that usually occurs with high voltage powerlines. Also they do not follow existing powerlines routes which would reduce land acquisition costs & reduce the impact on surrounding property owners. Routes C7 & C23 in our area would allow ONCOR to follow existing routes & avoid all occupied residential communities
