Our family moved to canyon falls in 2019. The natural green belts and trails made the area very desirable and easy to relocate. We feel that the installation of these proposed power lines would devastate the natural environment of the wildlife habitats in canyon falls. In addition, our neighborhood HOA has contributed time, money, and effort to maintain the natural environments of the green belts and trails. We have witnessed deer, armadillos, snakes, possums, foxes, bobcats, peacocks, wild turkeys, and coyotes that would be displaced by the significant construction of the power lines through the green belt.

Furthermore, the size and scope of the power lines running unreasonably close to our properties would have a severely detrimental effect on home values and be a significant detractor to living in the area. Please choose an alternative route for the lines that will not affect these beautiful surroundings.

Thank you.
