Phone Number: 214 653 7972 Fax Number: _____
Address, City, State: 1122 Heritage Drive, Justin, TX 76247

I am NOT requesting to intervene in this proceeding. As a **PROTESTOR**, I understand the following:

- I am NOT a party to this case.
- My comments are not considered evidence in this case, and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line
- ☐ One or more of the utility's proposed routes would cross my property.
- ☒ Other Please describe and provide comments. You may attach a separate page, if necessary. _____

Opposed to all routes with link J3

Health impact to our family and children because the powerlines will be closer to our homes than other routes

Link J3 will result in the destruction of precious wildlife habitat. The greenspace and pond in the area are home to numerous species, including Kildeer, Egret Great Blue Hero Whooping Crane, Swamp rabbits, Red tail hawks, Hognose skunks, and Alligator snapping turtles. These animals rely on this habitat for survival, and choosing link 3 will have devastating consequences for their future.

550 ft of route J3 powerlines will be parallel and on top of an over 8" pipeline. This can lead induction coupling between the metal pipeline and the magnetic field from the powerlines. This could lead to failure of the pipeline near people's homes. With the powerlines overhead it would also increase the easement required and make it difficult for pipeline maintenance.
