RE: Docket # 55067, (Links to J3)

To: PUCT Commissioners

I am writing this in protest to Docket # 55067 for the J3 line.

We are an older retired couple. We don't have the resources to hire an attorney or specialists like some of the property owners fighting the Transmission line. We are just asking you to understand how this is affecting us.

We bought this house in 2020 after looking for many months at many homes. This was going to be our forever home for the rest of our lives. We looked at one home in Seventeen Lakes in Roanoke/Ft Worth. But the only lots available to us were under a power line so we decided not to buy. When we found Legacy Ranch, we liked the open space, the little creek behind us, even when it floods, all the birds that live there, the views in all directions. Never did we imagine the possibility of a massive power line going thru our property.

We drive around and see all the empty fields close by and wonder why these are not considered. These properties don't impact a residential neighborhood with children who play outside or retirees who can't afford to have their property to devalue. In these fields are only cows, a few gas wells, and even a dump for discarded household items. There aren't even trees that would have to be cut down.

The pictures attached to my file look south of Legacy Ranch and along HWY 156. So much open space that should be considered.

Why not take the line east on Hwy 114. Then go north on Hwy 156 to John Wiley where it could go east directly to the sub station on Hwy 377. It doesn't impact homes or children or retirees like us.

Legacy Ranch in Justin, TX, is a very small community. We don't have the pull these large, massive neighborhoods have. Please help us.

I know this isn't a Lawyer speak detailed testimony, but it's from the heart and we are desperate to save our home and that of our neighbors.

Thank you for considering my testimony.
