Statement of Position

Harold Woolsey/Lisa Lyngos (Legal Guardian of Harold Woolsey)

12930 Helen Ct. Justin TX 76247 (Tract #2188)

Regarding:

PUC of Texas Control #55067

Application of Oncor Electric Delivery Company LLC for the Ramhorn Hill to
Dunham 345 KV Transmission Line

I am Lisa Lyngos, daughter and legal guardian of Harold Woolsey. Together we own the property at 12930 Helen Ct that is referenced above (tract #2188). Our land/living quarters are adjacent (within 500 feet) of the proposed alternate link M8. We do not object to Route 179 which is the Oncor proposed route. We do, however, object to the M8 link for the following reasons:

- M8 fails to meet the PUC requirement of 'prudent avoidance' (limiting exposures to electric and magnetic fields that can be avoided with reasonable investment/effort) for not only our property but 15 other properties in the Guy James Ranch neighborhood.
- With the proposed location of the M8 high voltage overhead lines, the risk of health issues from the electromagnetic fields generated by the power lines would be present. EMF health issues have been well documented (studies available upon request) and M8 would unnecessarily put our short/long term health at risk.
- The proposed M8 route will affect the safety of individuals flying into/out of Propwash Airport (a designated public-use airport by the FAA). Our property falls directly under a southwesterly departure from the airport and therefore we have additional concerns regarding any structure that may impede a safe departure from the airport.

Thank you for your consideration of our concerns regarding this matter.

Sincerely:

Lisa Lyngos

Harold Woolsey
