Docket 55067

Proposed Line E8 runs directly south of the street where I live. My home's value would be negatively impacted by having this line so close to my neighborhood. We considered homes in a neighborhood that had such power lines already and chose not to buy solely for that reason. This home represents a good part of our life savings, and we cannot afford for it to lose value as we are in our mid-60s.

Canyon Falls is a beautiful natural neighborhood that invested millions in preserving the native North Texas environment through the trails, bridges, and landscaping. When I turn onto Canyon Falls Drive, a sense of peace comes over me as I am blessed by the beauty of this place I call home. Large powerlines crossing that street by a day care would destroy that sense of peace and adversely affect all those that call this place home including the plentiful wildlife as well as the children and families.
