Commissioners,

I specifically purchased my home in the Canyon Falls community after ruling out the Seventeen Lakes community 5 miles to the south, due to the number of large power towers in proximity. If the following segments are approved, I will be surrounded by these towers that will obstruct the clear view from my house, negating the reason for my purchase: F3 to the west, E8 to the south, and C9 and E5 to the east. In addition, I enjoy the nature walks in the green spaces provided by the community. These will additionally be impacted by segments E5 and C8. This will ruin the entire attraction of the community and WILL adversely affect my property value (see my reason for purchase location above). We also have many 'critters' that live in that greenspace that will be chased out including deer, bobcats, and coyotes. The feeling of being in the country will be gone. I urge you to find another route that does not impact this community in such an adverse manner.

Sincerely,

Lee Stiles
