Comments in Docket No. 55067

Dear Sirs,

We bought into the highly desirable Canyon Falls Community- Family friendly, outdoor geared, nature filled, with open spaces for hiking, walking, biking, and enjoyment of wildlife viewing, as well as a large community center with pool, Dog Park, and playground. Our family personally regularly uses and enjoys these amenities, as well as many in this community. We have Argyle's newest high school and a brand new preschool. I believe in all likelihood this would financially ruin Kiddie Academy which is needed in this community. It would also negatively affect the resale values of our homes and lower the number of prospective buyers. The proposed 345 kV high voltage transmission lines have **NO PLACE** in this community. Bringing these into this **RESIDENTIAL** community would have a highly negative impact, both financially and environmentally. **NO ONE** wants to live near or under high powered transmission lines. We are protesting your proposed lines of C5, C7, C8, C9, E2, E3, E5, E8, and F2. Instead use C6 which follows FM 1171.

Respectfully,

 7/9/23
