I am NOT requesting to intervene in this proceeding. As a PROTESTOR, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding

Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☐ Other. Please describe and provide comments. You may attach a separate page, if necessary _____

Why affect a good view with unsightly items to impact the environment and loose the natural beauty of a green belt, parks and trails. A good number of the proposed transmission lines can be eliminated

Continuation:

Can be eliminated and rerouted to maintain home value for future sales and the habitat which is part of the community. It makes no sense to bring dangerously high voltage SO close to habitable structures, children and nature. There is got to be a better routing than this. The proposed transmission lines bring increased risk of fire, electrocution, radiation exposure, health problems and audible noise. Disturbing natural areas will bring changes to habitat, bird strikes, access issues, electric and magnetic fields. Rethink the proposed transmission lines and towers, please move them away at least 1,000 feet from homes.
