PUC DOCKET NO. 55067

APPLICATION OF ONCOR ELECTRIC	§	BEFORE THE
DELIVERY COMPANY LLC TO	§	
AMEND ITS CERTIFICATE OF	§	
CONVENIENCE AND NECESSITY FOR	§	PUBLIC UTILITY COMMISSION
THE RAMHORN HILL – DUNHAM	§	
345-KV TRANSMISSION LINE IN	§	
DENTON AND WISE COUNTIES	§	OF TEXAS

**AFFIDAVIT ATTESTING TO THE PROVISION OF
NOTICE OF THE FINAL ORDER TO LANDOWNERS**

STATE OF TEXAS §

COUNTY OF DALLAS §

BEFORE ME, the undersigned authority, personally appeared Chris Reily, known to me to be the person whose name is subscribed below who, upon oath deposed and stated as follows:

1. My name is Chris Reily. My business address is 1616 Woodall Rodgers Fwy., Suite 6A-012, Dallas, Texas 75202. I am over eighteen (18) years of age and have never been convicted of a felony. I have personal knowledge of the facts contained herein, and they are true and correct to the best of my knowledge.
2. I am employed as Regulatory Manager by Oncor Electric Delivery Company LLC (“Oncor”), and I am authorized to make this Affidavit on behalf of Oncor.
3. On May 6, 2024, the Public Utility Commission of Texas issued an Order on Rehearing in Docket No. 55067 (“Final Order”), approving Oncor’s application to amend its certificate of convenience and necessity to construct, own, and operate the Ramhorn Hill Switch to Dunham Switch 345-kilovolt transmission line in Denton and Wise counties, Texas.
4. In accordance with 16 Tex. Admin. Code (“TAC”) § 22.52(a)(6), on June 28, 2024, Oncor provided notice of the entry of the Final Order by first class mail to all owners of land who previously received direct notice.

5. Consistent with 16 TAC § 22.52(a)(6)(A), owners of land that will be “directly affected” by the approved route of the transmission line, as that term is defined in 16 TAC § 22.52(a)(3), were mailed a notice letter enclosing a copy of the Final Order and a project map depicting the approved route. A representative copy of the notice letter mailed to each owner of directly affected land, including representative copies of the Final Order and project map figures depicting the approved route, as well as a list of the owners of directly affected land, is attached to this affidavit as Exhibit No. 1.
6. Property owners who previously received direct notice and whose land will not be “directly affected” by the approved route of the transmission line, as that term is defined in 16 TAC § 22.52(a)(3), were mailed a notice letter stating that their land is no longer the subject of a pending proceeding and will not be directly affected by the approved facilities. A representative copy of the notice letter mailed to each owner of land that will not be directly affected, as well as a list of the owners of land that will not be directly affected, is attached to this affidavit as Exhibit No. 2.
7. Pipeline owners/operators and associations that were previously provided courtesy notice of Oncor’s application were mailed notice of the entry of the Final Order with a copy of the project map depicting the approved route. A representative copy of the notice letter mailed to pipeline owners/operators and associations, including a representative copy of the project map figures depicting the approved route, as well as a list of these pipeline owners/operators and associations, is attached to this affidavit as Exhibit No. 3.

FURTHER AFFIANT SAYETH NAUGHT.

Chris Reily
Authorized Representative of Oncor

SUBSCRIBED AND SWORN TO before me on this the 30th day of July, 2024, to certify which witness my official hand and seal of office.

Notary Public, State of Texas

CERTIFICATE OF SERVICE

It is hereby certified that a copy of the foregoing has been served by email on all parties of record who have provided an email address on this the 30th day of July, 2024, in accordance with the Commission's Second Order Suspending Rules that issued on July 16, 2020, in Project No. 50664.

Subject: PUC Docket No. 55067 – Application of Oncor Electric Delivery Company LLC to Amend its Certificate of Convenience and Necessity for the Ramhorn Hill Switch – Dunham Switch 345 kV Transmission Line in Denton and Wise Counties, Texas

Dear Landowner:

On June 8, 2023, Oncor Electric Delivery Company LLC ("Oncor") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") requesting authorization to install a new double-circuit 345 kV transmission line on triple-circuit capable structures between the proposed Ramhorn Hill Switch and the proposed Dunham Switch, located in Denton and Wise Counties, Texas. At that time, formal notice of the filing was mailed to you as a property owner whose property could be directly affected by the outcome of the proceeding at the Commission.

Pursuant to 16 Texas Administrative Code ("TAC") § 22.52(a)(6), this letter serves as notice that Oncor's application was considered and approved by the Commission, through an Order on Rehearing that was issued on May 6, 2024. The Order on Rehearing and a map showing the approved route are enclosed. Based on public property tax records at the time of filing, you own interests in the tract(s) listed at the top of this letter that were identified as directly affected by the approved facilities. Information relating to the project can be found at <https://www.oncor.com/transmissionprojects>, by selecting "Ramhorn Hill - Dunham 345 kV Transmission Line" from the drop-down menu.

If you have any questions about this notice you may contact Chris Reily of Oncor at (214) 486-4717.

APPLICATION OF ONCOR ELECTRIC	§	PUBLIC UTILITY COMMISSION
DELIVERY LLC TO AMEND ITS	§	
CERTIFICATE OF CONVENIENCE	§	OF TEXAS
AND NECESSITY FOR THE	§	
RAMHORN HILL - DUNHAM 345-KV	§	
TRANSMISSION LINE IN DENTON	§	
AND WISE COUNTIES	§	

ORDER ON REHEARING

This Order addresses the application of Oncor Electric Delivery Company LLC (Oncor) to amend its certificate of convenience and necessity (CCN) for the Ramhorn Hill – Dunham 345-kilovolt (kV) transmission line in Denton and Wise Counties. The State Office of Administrative Hearings (SOAH) issued a proposal for decision (PFD) in this proceeding that included the recommended route and an alternative, the secondary route. If written consent by the directly affected landowner of tract 801 is obtained, the PFD recommends route 179-C as modified by La Estancia Investments, LP's alternatives 1 and 2 and Denton County Land & Cattle 1, LP's and Denton County Land & Cattle 2, LP's (collectively, DCLC) modifications to links M1 and M5 (the PFD's recommended route). If written consent by the directly affected landowner of tract 801 is not obtained, the PFD recommends route 179-C as modified by La Estancia's alternative 1 only and DCLC's modifications to links M1 and M5 (the PFD's secondary route).

The Commission declines to adopt either the PFD's recommended route or the PFD's alternative secondary route. The Commission instead approves Oncor's CCN amendment along route 179-C as modified by replacing links C7, E2, and E1 with links C4 and C6 (modified route 179-C), by DCLC's modifications to links M1 and M5, and by La Estancia's proposed modification to links E6 and G1. La Estancia's modifications to links E6 and G1 relocate these links southward away from tract 801 to be sited more than 500 feet from habitable structures nos. 256 and 257. The Commission approves this route because it affects fewer habitable structures than the routes recommended in the PFD. The modified route 179-C with DCLC's modifications to links M1 and M5 and La Estancia's modification to links E6 and G1 adheres more closely with the Commission's policy of prudent avoidance because it also avoids affecting the Livano Canyon

1839

Falls apartment complex south of link C7 and east of link E2 and the habitable structures on tract 801. Therefore, the Commission adopts the proposal for decision in part and rejects it in part, including findings of fact and conclusions of law, to the extent described in this Order.

The Commission makes the following modifications to the proposal for decision. The Commission modifies the following findings of fact to reflect the Commission's approval of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modified links E6 and G1 rather than the PFD's recommended route: 74, 75, 76, 77, 79, 82, 91, 93, 95, 102, 104, 109–128, 166, and 170. Because the Commission selects modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modified links E6 and G1 instead of the PFD's recommended route or the PFD's secondary route, the Commission adds finding of fact 75A, 82A, and 82B; deletes findings of fact 78, 80, 81, 83, 89, 94, 103, 105; and modifies conclusions of law 13 and 14 and ordering paragraph 2.

Additionally, the Commission modifies finding of fact 36 for accuracy. The Commission modifies findings of fact 37, 38, and 39 to delete duplicate references to parties within the same finding of fact. The Commission modifies finding of fact 42 to state the intervenors who were dismissed. The Commission modifies finding of fact 44 to add an intervenor who filed a statement of position. The Commission modifies finding of fact 168 to update a citation to the Texas Administrative Code. The Commission modifies conclusion of law 2 for consistency with the Commission's previous orders. The Commission adds a new conclusion of law after conclusion of law 15 for completeness. The Commission modifies ordering paragraph 2 to reflect that it is approving the modified route 179-C with DCLC's modifications to links M1 and M5 and La Estancia's modifications to links E6 and G1. The Commission adds ordering paragraph 2A to reflect La Estancia's commitment to make a \$500,000 contribution in aid of construction for the proposed modification to links E6 and G1. The Commission modifies ordering paragraph 14 for consistency with the Commission's previous orders.

Finally, the Commission makes non-substantive changes for such matters as capitalization, spelling, grammar, punctuation, style, correction of numbering, readability, and conformity with the Commission's order-writing format.

I. Findings of Fact

The Commission adopts the following findings of fact.

Applicant

1. Oncor is a Delaware limited liability company registered with the Texas secretary of state under filing number 800880712.
2. Oncor owns and operates for compensation in Texas facilities and equipment to transmit and distribute electricity in the Electric Reliability Council of Texas (ERCOT) region.
3. Oncor holds CCN number 30043 to provide service to the public.

Application

4. On June 8, 2023, Oncor filed an application, with an errata filed on August 28, 2023, to amend its CCN for a new double-circuit 345-kV transmission line to be built on triple-circuit-capable structures, between the proposed Ramhorn Hill switch, located in Wise County, and the proposed Dunham switch, located in Denton County.
5. Oncor hired Halff Associates, Inc. to prepare an environmental assessment and alternative route analysis for the proposed transmission line, which was included as part of the application.
6. On June 20, 2023, Commission Staff recommended that the application be found sufficient.
7. In State Office of Administrative Hearings (SOAH) Order No. 2 filed on June 28, 2023, the SOAH administrative law judge (ALJ) found the application administratively complete.

Description of the Transmission Facilities

8. Oncor proposes to construct a new double-circuit 345-kV transmission line to be built on triple-circuit-capable structures in Denton and Wise counties.
9. The triple-circuit-capable structures will include a vacant third circuit position to allow for the future addition of an underbuilt 138-kV circuit.
10. The transmission line will be located between the proposed Ramhorn Hill switch—which is approximately two miles south of the intersection of United States Highway 287 and State Highway 114 near Rhome, Wise County—and the proposed Dunham switch—which

is located approximately 1.4 miles southeast of the intersection of United States Highway 377 and Farm-to-Market Road 1181, in Flower Mound, Denton County.

11. In this Order, the term *transmission facilities* includes the new transmission line and Oncor's construction of the proposed Ramhorn Hill and Dunham switching stations.
12. Oncor will own, operate, and maintain the proposed transmission line and the proposed transmission facilities.
13. Both switching stations will be built in a 12-breaker, breaker-and-a-half arrangement and will tap into the existing 345-kV transmission system in the northwestern DFW Metroplex.
- 13A. Oncor's Hicks-to-Willow Creek line is an existing 345-kV transmission line.
- 13B. The proposed Ramhorn Hill switch will directly interconnect to the existing Hicks-to-Willow Creek 345-kV transmission line.
- 13C. Oncor's Lewisville-to-Krum West and Lewisville-to-Roanoke lines are existing 345-kV transmission lines.
- 13D. The proposed Dunham switch will directly interconnect to the existing Lewisville-to-Krum West and Lewisville-to-Roanoke 345-kV transmission lines.
14. The transmission facilities will primarily be constructed on steel monopole structures, generally within a 100-foot-wide right-of-way, except where alternate structures or additional right-of-way width are required to address engineering constraints.
15. The typical structure for the transmission line will be approximately 120 to 175 feet in height.
16. Oncor estimated that it would finalize engineering and design by October 2024, procure materials and equipment by October 2024, complete construction of facilities by December 2025, and energize the facilities by December 2025.

Public Notice and Input

17. Prior to filing the application, Oncor held two public meetings in Fort Worth, Texas on December 7 and 8, 2022.

18. Oncor published notice of the public meetings in the *Denton Record Chronicle* on November 26 and 27, 2022, and in the *Wise County Messenger* on November 23, 2022, which are the newspapers of general circulation in Denton and Wise counties, respectively.
19. Prior to the public meetings, Oncor mailed 2,068 individual written notices of the public meetings to all owners of property within 500 feet of the proposed route centerlines.
20. Oncor sent written notice of the public meetings to the Department of Defense Siting Clearinghouse.
21. At the public meetings, Oncor provided a questionnaire, which provided a space for participants to include any general comments, remarks, or concerns.
22. Seventy-seven individuals signed in as attendees at the public meeting held on December 7, 2022, and Oncor received 27 questionnaires at that public meeting. Ninety-five individuals signed in as attendees at the public meeting held on December 8, 2022, and Oncor received 44 questionnaires at that public meeting. Oncor also received questionnaires and other correspondence following the public meeting.
23. The questionnaires and comments indicated an overwhelming preference for maximizing the transmission facilities' distance from residences, schools, churches, and recreational areas.
24. Other areas of concern were the impact on the residential aesthetics; opposition to particular routes or locations; concerns of health effects of high-power lines; the efficiency and length of the project; impact on wildlife and natural resources; and impacts on farming or ranching.

Notice of the Application

25. On June 8, 2023, Oncor sent written notice of the application by first class mail to directly affected landowners of record; municipalities and municipal officials of the towns of Argyle, Bartonville, Corral City, DISH, Double Oak, Flower Mound, Northlake, Trophy Club, and Westlake, as well as the cities of Aurora, Denton, Fort Worth, Haslet, Justin, Keller, New Fairview, Newark, Rhome, Southlake, and Roanoke; counties and county officials of Denton County and Wise County; the Office of Public Utility Counsel; the

Department of Defense; Brazos Electric Power Cooperative; Denton Municipal Electric dba CoServ Electric; Texas Municipal Power Agency; Tri-County Electric Cooperative; Wise County Electric Cooperative; and certain pipeline owners and operators.

26. On June 8, 2023, Oncor mailed a copy of the environmental assessment and routing analysis to the Texas Parks and Wildlife Department.
27. Oncor published notice of the application in the *Denton Record Chronicle*, a newspaper having general circulation in Denton County, Texas, and in the *Wise County Messenger*, a newspaper having general circulation in Wise County, Texas, on June 10 and 15, 2023, respectively.
28. On June 28, 2023, Oncor filed the affidavit of Chris Reily, Regulatory Manager II at Oncor, attesting that notice was provided as described in finding of fact 25.
29. On June 28, 2023, Oncor filed another affidavit of Mr. Reily, including the publisher's affidavits of Alice McConnaughey, attesting to the publications of notice described in finding of fact 27.
30. On July 13, 2023, Oncor filed the supplemental affidavit of Mr. Reily, attesting to notices that were returned as return to sender or unable to forward as well as re-sent notices.
31. On August 8, 2023, Oncor filed the second supplemental affidavit of Mr. Reily, attesting to notices that were returned as return to sender or unable to forward as well as re-sent notices.
32. In SOAH Order No. 2 filed June 28, 2023, the SOAH ALJ found Oncor's proposed notice sufficient.

Referral to SOAH for Hearing

33. On June 9, 2023, the Commission referred this docket to SOAH and issued a preliminary order, establishing a decision deadline and specifying issues to be addressed in this proceeding.
34. SOAH ALJ Christiaan Siano convened a prehearing conference on June 26, 2023, via videoconference, to address a procedural schedule and other prehearing matters.

35. In SOAH Order No. 2 filed on June 28, 2023, the SOAH ALJ adopted a procedural schedule and set the hearing on the merits.

Intervenors

36. In SOAH Order No. 2 filed on June 28, 2023, the SOAH ALJ memorialized the prehearing conference held on June 26, 2023 in which the SOAH ALJ granted the motions to intervene of City of Argyle (modified to include the City of Justin in SOAH Order No. 4); Edgar Brent Watkins and Mary Ann Livengood, Co-Trustees of Watkins Family Trust; Matthew A Spaethe; DHL Supply Chain; Wayne and Norma Wilkerson; Town of Northlake; Eric and Diane Howe; GRBK Edgewood LLC; GBTM Sendera LLC; April Burrill; Alliance West, LP; Margaret and Antonio Chavez; Rodney Stokes; and Zachariah Linton.
37. In SOAH Order No. 4 filed on July 24, 2023, the SOAH ALJ granted the motions to intervene of PMB Rolling V Land LP; Jason Bailey; Jeremy Young; Seth DeLeon; Joanna Girard; Deborah N. Dallas; Sally Allen; Joseph Gerson; Tyrel Looney; Haihong Xu; Bettye Wiley Neely, Aubrey Eugene Wiley, David Randolph Wiley, Donald Bryan Neely, Dana Lauraine Tur, Howard Ray Schwope, and Janice Vardakis; Stephanie Cox; Brian Eddy; Dennis Tolleson; Stephanie Geddes; Kristopher Munn; Steve and Rhonda Boisvert; City of Argyle; Benito Gonzalez; Justin Butler; Ross Brewer; H3M Property Holdings LP; Janet Bresler; Stephen Jenkins (corrected to Stephan in SOAH Order No. 6); Curt Whitworth; Charles Dee and Gretchen Brown; Kimberley Ventrca (reverted to protestor status in SOAH Order No. 6); John Roddam; Yvette and Nick Deligny; La Estancia Investments, LP; Chandra Vipparla; Emily Rutherford; Greg Maberry; GFAT, LLC; Mallory Maberry; Joshua Chute; Haley Lane; David Bratton; Jerry Bratton; Jennifer Eller; Cory Lane; Michael Holyfield (corrected to Michael and Deborah Holyfield in SOAH Order No. 6); Anthony Lassetter; Carla Crockett; James Ehlinger; Jeffrey and Holly Cannedy; Russell Sherwood; Stevanna Matthews-Tyler; Joshua Marshall; Tracy Mills; Harold Woolsey; Jean Young; Martha and Robert Vinyard; J. Young Land and Cattle Co. Ltd.; Cora James; Keely James; Adler James; Bryant James; Dylan James; Min Sun; Fran Flores; Old WR Ranch I LP; SWC 1171-377 Ltd.; 64.3 SE 1171/377 LLC; Texas Municipal Power Agency; TCCI Range - Mead 2021 LLC; Deanna Turner; Shale Creek HOA; Garry DeLong (reverted to protestor status in SOAH Order No. 5); Danny and Gayle Hill; Dennis

Mortimer; Veronica Shields; Janet Beverly; Jose Aguilar; Michael and Marnie Hamilton; Scott and Trinda Mulkey; Daniel Jenkins; Lacey McVea; Seth McVea; Brandon Bennett; Vanessa Bennett; Brian Crawley; Terri Koehler; Melissa Humphrey; Richard Humphrey; David Bradley Cook; Sandee Cook; Stephanie Smith; Greg Scott; Andrew Wey; Janice Wey; Carla Gastineau; Randy Mirror; Gordon Sutherland; Jonathan Castro; Daniel Dennis; Melissa Dennis; Rachel Santini; Nicolo Santini; Robert D. Chambers; David Buchanan; Leah Buchanan; Curtis Tally; Henry Northlake Development LLC; Dawn Ehlinger; Amanda Crandall; Donald Dalrymple; Ronald Dalrymple; Crystal Boyd; Ryan and Linda Shawaluk; Ken Burrill; Randy Kaster; Ana Simmons; Timothy Simmons; Jeffrey Scott Brooks; Justin Butler; Gage Harris; and Shelly Butler.

38. In SOAH Order No. 5 filed on July 26, 2023, the SOAH ALJs granted the motions to intervene of Ashley Acker; James Allen Powers; Christen Powers; Rama Prasad Chalasani; Todd Family Holdings LP; James Kimmorie; Charles Gardtti; Jazmarae Moran; Brandon Wobb; Jason Trisko; Kelly Trisko; Heidi Sherman; Eric Jackson; Brian Voight; Carrie Kimmbrilo; Emigdio Torres; Jeffrey Shorman; Latrice Sharpe; Jasmine Mondmer; Rebekah Gaiotti; Becky Reed; Janette Purg; Charlene Jackson; Sandra Mills; David Rogers; Ruben Robles; Marjorie A. Pate; Michael Czap; Maureen Czap; Janet Michlitsch; Fanchon Casazza; Lorena Garcia; Alison Brooks; Milagros Vargas; Eagle Income Properties, LP, AIL Investment, LP, Petrus Investment, LP, HW Indian Springs, LP, HWC Justin 407, LLC HP Gibbs, LP, Pecan square Phase I, LLC, Pecan Square Phase 2A, LLC, Pecan Square Phase 2B, LLC Pecan Square Phase 3A, LLC, and Pecan Square Phase 3B, LLC; Cristina Chavez; Brenda A. 39. In SOAH Order No. 6 filed on July 28, 2023, the SOAH ALJs granted the motions to intervene of Denton County Land and Cattle LP; Denton County Land and Cattle 2, LP; Jeffrey True; Lance Roberts; Michael Allen; John Becotte; Kevin Oliver; Viktor Chopovenko; Anzhela Chopovenko; Martin Rojas; Connie Svoboda; Shelley Warner; Margaret L. Heygster; Craig and Alice D.K. Jones; Nicholas Lembotesis; Dudley Realty, LLC; Ben Weaverling; Edna Weaverling; Dennis Mirabel; Kari Mirabel; Sheron White; Archie L. White; Donella Wheeler; Pam Smith; Trevor Keele; Kimn and Terri Niermann; Ariel Keele; Martina Mitchell; Brian Mitchell; Robin Amerine; Nancy Acevedo; Zachary Osborne; Viktoria Nizhnik; Iakov Nizhuik; and Barry Smith.
40. In SOAH Order No. 8 filed August 9, 2023, the SOAH ALJs granted the late motions to intervene of Julie Mooney and Patrick Mooney. SOAH Order No. 8 also directed Oncor to file a written list of intervenors who did not file direct testimony or a statement of position by August 11, 2023, in accordance with SOAH Order No. 1.
41. On August 11, 2023, Oncor filed a list of intervenors who either did not file direct testimony or a statement of position.
42. In SOAH Order No. 9 filed August 16, 2023, the SOAH ALJs dismissed the following intervenors who were determined not to have filed direct testimony or a statement of position: City of Argyle; Lance Roberts; Jason Bailey; Michael Allen; Sally Allen; Joseph Gerson; Tyrell Looney; Haihong Xu; Stephanie Cox; Brian Eddy; Stephanie Geddes; Kristopher Munn; Steve and Rhonda Boisvert; Benito Gonzalez; Stephan Jenkins; Curt Whitworth; Yvette and Nick Deligny; Chandra Vipparla; Emily Rutherford; Haley Lane; Jennifer Eller; Cory Lane; Anthony Lassetter; Carla Crockett; James Ehlinger; Jeffrey and Holly Cannedy; Stevanna Matthews-Tyler; Joshua Marshall; Jean Young; J. White; Donella Wheeler; Pam Smith; Trevor Keele; Ariel Keele; Martina Mitchell; Brian Mitchell; Robin Amerine; Nancy Acevedo; Zachary Osborne; Viktoria Nizhnik; Iakov Nizhuik; Barry and Stephanie Smith; Julie Mooney; Patrick Mooney; April Burrill; Michael and Deborah Holyfield; Zachariah Linton; Robert D. Chambers; Ashley Acker; Debra Joiner; Bryan Crosby; Bettye Wiley Neely, Aubrey Eugene Wiley, David Randolph Wiley, Donald Bryan Neely, Dana Lauraine Tur, Howard Ray Schwope, and Janice Vardakis; Becky Bettis; Kevin Oliver; and Frankie Mercado.

Testimony and Statements of Position

43. On June 8, 2023, Oncor filed the direct testimony of its witnesses, Harsh Naik, Russell J. Marusak, Brenda J. Perkins, and Amy L. Zapletal.
44. The following intervenors filed testimony or a statement of position on or before August 1, 2023: Greg Maberry; the Furst Ranch Intervenors; Henry Northlake Development LLC; the Hillwood Parties; La Estancia Investments, LP; Texas Municipal Power Agency; the Town of Northlake; Deborah N Dallas; Jeffrey True; Jeremy and Katie Young; Seth DeLeon; City of Justin; DHL Supply Chain; Dudley Realty, LLC; TCCI Range-Mead 2021 LLC; Alan and Sara Yarbrough; Amy and Justin Roddam; Ana and Timothy Simmons; Anzhela and Victor Chopovenko; Bryan Crosby; Craig LaPlant; Daniel and Melissa Dennis; Daniel Jenkins; Eric and Diane Howe; HA Smith Properties LP; Hardeman Estates HOA, Inc; James and Holly Lewis; James, Pamela, Brenna, and Wyatt Matthews; Janet Bresler; Jennifer Address; Joanna Girard; JTS 3.8, LLC/Justin Town Center, Ltd.; Justin and Shelly Butler; Kimn and Terri Nierman; Meredith and Jason Guess; Robert B. Logan; Robert L. and Martha J. Vinyard; Rodney & Dian Stokes; Todd and Karen Templeton; Tracy Millis; Zac and Kim Harbert; Bill Beverly Jr.; Bobby Norris; David Bratton; Jerry Bratton; Denton County Land and Cattle; Edgar Brent Watkins and Mary Ann Livengood, Co-Trustees of Watkins Family Trust; the Floyd T. McCurdy

Testamentary Trust; GBTM Sendera, LLC and GRBK Edgewood LLC; GFAT, LLC; H3M Property Holdings LP; Janet Beverly; Margaret and Antonio Chavez; Martin Rojas; Matthew A Spaethe; Michael and Marnie Hamilton; New Dimension Investment II, LLC; PMB Rolling V Land LP; Rama Prasad Chalasani; Todd Family Holdings L.P.; Wayne and Norma Wilkerson; Alliance West, LP; Charles Dee and Gretchen Brown; Craig and Alice D.K. Jones; Crystal Boyd; Cynthia and Harvey Reeves; Deborah Atchley; Dennis Tolleson; Donald Dalrymple; Gage Harris; Harold Woolsey; Janet Zelnik; Jeffrey Scott Brooks; Joshua Chute; Katie and Ronald Morehead; the estate of Marjorie A Pate; Raymond Loustaunau; Rebecca and Joseph Schrimsher; Ross Brewer; Russell Sherwood; Shale Creek HOA; and Shawn Wells.

45. On August 14, 2023, Commission Staff filed the direct testimony of its witness, John Poole.
46. On August 14 through 17, 2023, the following parties filed cross-rebuttal testimony: New Dimension Investments II, LLC; La Estancia Investments, LP; Edgar Brent Watkins and Mary Ann Livengood, co-trustees of the Watkins Family Trust; the Hillwood Parties; Jeremy and Katie Young; and Seth DeLeon.
47. On August 21, 2023, Oncor filed the rebuttal testimonies of its witnesses: Dr. Edward P. Gelmann, Mr. Naik, Mr. Marusak, Ms. Perkins, and Ms. Zapletal.

Route Adequacy

48. Oncor's application presented 74 alternative routes for the Commission's consideration.
49. No party filed testimony or a position statement challenging whether the application provided an adequate number of reasonably differentiated routes to conduct a proper evaluation. No party raised a route adequacy challenge that resulted in a route adequacy hearing.
50. Intervenor Deborah N. Dallas filed a pleading styled as a challenge of route adequacy but in substance it was a statement of position and did not challenge the adequacy of the alternative routes, as found in SOAH Order No. 7 filed on August 8, 2023.
51. The application provided an adequate and sufficiently delineated number of geographically diverse routes to conduct a proper evaluation.

Hearing on the Merits

52. The hearing on the merits convened on August 28, 2023, and concluded on August 30, 2023, via videoconference. Oncor secured a meeting space in Austin for all parties who wished to attend the hearing on the merits in person.
53. The following parties made appearances and participated in the hearing on the merits: Oncor; Commission Staff; Old WR Ranch I, LP., 64.3 SE 1171/377, LLC, and SWC 1171-377, Ltd. (Furst Ranch); La Estancia Investments, LP (La Estancia); PMB Rolling V Land, LP; Eagle Income Properties, LP, AIL Investment, L.P., Petrus Investment, L.P., HW Indian Springs, L.P., HWC Justin 407, LLC, HP Gibbs, LP, Pecan Square Phase I, LLC, Pecan Square Phase 2A, LLC, Pecan Square Phase 2B, LLC, Pecan Square Phase 3A, LLC, and Pecan Square Phase 3B, LLC (collectively, the Hillwood Parties); TMPA; the Town of Northlake; Deborah N. Dallas; Seth DeLeon; the City of Justin; Dudley Realty, LLC; TCCI Range-Mead 2021, LLC; Jeremy and Katie Young; Edgar Brent Watkins and Mary Ann Livengood, Co-Trustees of the Watkins Family Trust; Bill Beverly, Jr., Matthew Spaethe; Margaret and Antonio Chavez; GFAT, LLC; David Bratton; Jerry Bratton; Janet Beverly, Rama Prasad Chalasani; Michael and Marnie Hamilton; Keith (Bobby) Norris; Martin Rojas; Peggy Logan McCurdy; the Floyd T. McCurdy Testamentary Trust; Wayne and Norma Wilkerson; Denton County Land and Cattle, LP; Denton County Land & Cattle 2, LP; GRBK Edgewood, LLC; GBTM Sendera, LLC; Alliance West, LP; DHL Supply Chain; New Dimension II, LLC; H3M Property Holdings, LP and Ross Brewer; Todd Family Holdings, LP; Charles Dee and Gretchen Brown; Robert and Martha Vinyard; Viktor and Anzhela Chopovenko; and Jeff True.

Need for the Proposed Transmission Line and Adequacy of Existing Service

54. The 345-kV transmission system in the north Fort Worth and Roanoke area is approaching its designed operating limits at current demand levels.
55. Oncor performed power flow studies and contingency analysis under NERC Reliability Standard TPL-001-4 and the ERCOT Planning Guide, which identified post-contingency system performance issues beginning in the summer of 2023, including thermal overloads, loading limitations, and voltage criteria exceedances on area transmission lines and autotransformers.

56. To address these issues, Oncor recommended the Roanoke area upgrades project to ERCOT for review.
57. ERCOT's independent review observed thermal overloads on ten transmission elements and voltage criteria exceedances on five transmission elements.
58. On August 16, 2022, ERCOT's board of directors approved the Roanoke area upgrades project as a tier 1 transmission project.
59. The tier 1 transmission project consists of several transmission improvements that are components of the Roanoke area upgrades project, and the proposed transmission facilities approved in this Order constitutes one of those components.
60. The transmission facilities are needed to provide additional transmission capacity that will resolve thermal overloads and voltage criteria exceedances in post-contingency conditions, enhance operational flexibility, and address loading limitations that are restricting Oncor's ability to interconnect new transmission service customers.
61. ERCOT's board designated the transmission facilities critical to the reliability of the ERCOT transmission system, and ERCOT recommended the transmission facilities as necessary to alleviate existing and potential transmission and distribution constraints and system needs within ERCOT in the annual report filed under PURA¹ § 39.155(b).
62. Commission Staff witness Mr. Poole concluded that, under the factors set out in PURA § 37.056(c), the transmission facilities are necessary and the best option to meet the need when compared to other alternatives.
63. Oncor demonstrated a need for the transmission facilities.
64. No party submitted evidence contesting the need for the transmission facilities.

Effect of Granting the Application on Oncor and Other Utilities and Probable Improvement of Service or Lowering of Cost

65. Oncor is the only electric utility involved in the construction of the transmission facilities.

¹ Public Utility Regulatory Act, Tex. Util. Code §§ 11.001–66.016.

66. Oncor will own the proposed transmission line and both of the endpoints, and the transmission facilities will not serve, connect to, or utilize the facilities of any other electric utility.
67. Certain links will cross transmission facilities jointly owned by Texas Municipal Power Agency, and Oncor will coordinate with Texas Municipal Power Agency to address any potential impacts or modifications to the existing facilities.
68. The construction of the transmission line along any proposed alternative route will likely not adversely affect service by other utilities in the area.
69. It is likely that the construction of the transmission facilities will enhance the reliability of the transmission system and facilitate robust wholesale competition.

Routing of the Transmission Facilities

70. To identify alternative route links for the transmission facilities, Halff Associates delineated a study area, sought public official and agency input, gathered data regarding the study area, and performed constraints mapping.
71. Of the 74 routes filed with Oncor's application, Oncor identified route 179 as the route that best addresses PURA and the Commission's substantive rules. Route 179 is composed of Links A0, A4, B1, B61, B62, C1, C21, C23, C7, E2, E1, E6, G1, G3, H41, H42, H8, I8, J3, K1, L5, L4, L3, L2, M1, M2, M3, R4, V2, and Z.
72. Commission Staff recommended route 179-C, a modification of route 179, as the route that best addresses PURA and the Commission's substantive rules. Route 179-C is comprised of Links A0, A4, B1, B61, B62, C1, C21, C23, C7, E2, E1, E6, G1, G3, H41, H42, H8, I8, J3, K1, L5, L4, L3, L2, M1, M5, R2, R5, U3, V3, V4, and Z.
73. Intervenor La Estancia Investments, LP proposed further modifications of routes 179 or 179-C, designated La Estancia Alts. 1 and 2.
74. La Estancia Alt. 1 is comprised of the same links as either route 179 or 179-C except it connects links C21 and C3 and then replaces C23-C7-E2 with C3-C6. The full route with route 179-C is: A0-A4-B1-B61-B62-C1-C21-La Estancia Alt. 1 link-C3-C6-E1-E6-G1-G3-H41-H42-H8-I8-J3-K1-L5-L4-L3-L2-M1-M5-R2-R5-U3-V3-V4-Z.

75. La Estancia Alt. 2 is comprised of the same links as either route 179 or 179-C except it modifies Links E6 and G1 to track FM 1171. La Estancia Alt. 2 also requires the consent of the owner of tract 801 as designated in the environmental assessment and routing analysis. The full route with route 179-C and La Estancia Alt. 1 and La Estancia Alt. 2 is: A0-A4-B1-B61-B62-C1-C21-La Estancia Alt. 1 link-C3-C6-E1-Modified E6-Modified G1-G3-H41-H42-H8-I8-J3-K1-L5-L4-L3-L2-M1-M5-R2-R5-U3-V3-V4-Z.
- 75A. La Estancia did not obtain the consent of the owner of tract 801. On February 26, 2024, La Estancia proposed different modifications to links E6 and G1 that relocate the transmission line southward at least 500 feet away from tract 801 on property owned by La Estancia.
76. Intervenor Denton Land and Cattle, LP and Denton Land and Cattle 2 (together, DCLC) proposed further modifications to route 179-C, designated as DCLC modified M1 and modified M5. Each modification seeks to modify a particular link of Route 179-C. The full route with modified route 179-C would be: A0-A4-B1-B61-B62-C1-C23-C4-C6-E6-G1-G3-H41-H42-H8-I8-J3-K1-L5-L4-L3-L2-Modified M1-Modified M5-R2-R5-U3-V3-V4-Z.
77. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 presents an appropriate balance of routing factors, and negative attributes can be addressed with mitigation and the application of best-practice engineering design and construction methods. The full route with modified route 179-C, DCLC modified links M1 and M5, and La Estancia's modified links E6 and G1 would be: A0-A4-B1-B61-B62-C1-C23-C4-C6-La Estancia's modification to links E6 and G1-G3-H41-H42-H8-I8-J3-K1-L5-L4-L3-L2-Modified M1-Modified M5-R2-R5-U3-V3-V4-Z.
78. DELETED.
79. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 is approximately 20.9 miles in length.
80. DELETED.
81. DELETED.

Estimated Costs

- 82. The estimated cost of the proposed transmission line facilities on Route 179-C with DCLC modified links M1 and M5 is \$177,016,432.
- 82A. Modified route 179-C is only 432 feet longer than route 179-C and has a similar number of turning structures. The estimated cost of modified route 179-C with DCLC modified links M1 and M5 is expected to be similar to unmodified route 179-C with DCLC modified links M1 and M5.
- 82B. La Estancia commits to making a contribution in aid of construction in the amount of \$500,000 to offset the estimate costs of La Estancia's modification to links E6 and G1.
- 83. DELETED.
- 84. The estimated cost of the proposed Ramhorn Hill switching station is \$33,510,000 and the estimated cost of the proposed Dunham switching station is \$41,348,000.
- 85. The total estimated cost for the transmission facilities is reasonable.
- 86. The transmission facilities will be financed through a combination of debt and equity.

Proposed Alternative Routes or Facilities Configurations

- 87. No party suggested alternative facility configurations.
- 88. Parties suggested alternative routing as referenced above.
- 89. DELETED.
- 90. No party contended that any requested modifications would diminish the electric efficiency or reliability of the transmission line.
- 91. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 would minimize adverse impacts on directly affected landowners and no additional alternative route configurations for the transmission line would have less overall landowner impact.

Prudent Avoidance

92. Commission rules define prudent avoidance under 16 Texas Administrative Code (TAC) § 25.101(a)(6) as the “limiting of exposures to electric and magnetic fields that can be avoided with reasonable investments of money and effort.”
93. There are 107 habitable structures located within 500 feet of modified route 179-C with DCLC modified links M1 and M5 DCLC modified links M1 and M5 and La Estancia’s modification to links E6 and G1.
94. DELETED.
95. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia’s modification to links E6 and G1 complies with the Commission’s policy of prudent avoidance.

Community Values

96. Information regarding community values was received from local, state, and federal agencies and incorporated into the environmental assessment and routing analysis and the transmission line’s route selection.
97. Oncor held public meetings which resulted in the submittal of completed questionnaires or other correspondence indicating primary concerns relating to community values.
98. Following the public meetings, Halff Associates made route link modifications in consideration of community feedback, where feasible.
99. Oncor implemented route link modifications after considering recommendations from certain development representatives in the study area.
100. The proposed transmission line adequately addresses the expressed community values.

Using or Paralleling Compatible Rights-of-Way and Paralleling of Property Boundaries

101. Oncor evaluated the use and paralleling of existing compatible rights-of-way and apparent property boundaries when developing route 179.
102. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia’s modification to links E6 and G1 parallels existing compatible corridors for approximately 25,136 feet or 22.84% of its length.

- 103. DELETED.
- 104. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 uses or parallels existing compatible rights-of-way to a reasonable extent.
- 105. DELETED.

Engineering Constraints

- 106. Oncor evaluated engineering and construction constraints when developing route 179-C or any of the recommended modifications to route 179-C.
- 107. Oncor did not identify any engineering constraints that would prevent the construction of transmission facilities along route 179-C or any of the recommended modifications to route 179-C.
- 108. Given the ongoing nature of rapid development in the study area, it is possible that new obstacles may arise before Oncor acquires right-of-way for the proposed transmission facilities.

Other Comparisons of Land Uses and Land Types

Radio Towers and Other Electronic installations

- 109. No commercial AM radio transmitters were identified within 10,000 feet of centerline of route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.
- 110. Two FM radio towers, microwave towers, or other electronic installations were identified within 2,000 feet of the centerline of route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.
- 111. It is unlikely that the presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 will adversely affect any communication operations in the proximity of the route.

Airstrips and Airports

- 112. There are four airports registered with the Federal Aviation Administration not equipped with at least one runway greater than 3,200 feet in length and within 10,000 feet of the

centerline of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.

113. There are three airports registered with the Federal Aviation Administration equipped with at least one runway greater than 3,200 feet in length and within 20,000 feet of the centerline of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.
114. There are no private airstrips within 10,000 feet of the centerline of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.
115. There are two heliports within 5,000 feet of the centerline of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.
116. It is unlikely that the presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 will adversely affect any airports, airstrips, or heliports.

Irrigation Systems

117. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 does not cross agricultural lands with known mobile irrigation systems.
118. It is unlikely that the presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 will adversely affect any agricultural lands with known mobile irrigation systems.

Recreational and Park Areas

119. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 does not cross any parks or recreational areas.
120. Four parks or recreational areas are located within 1,000 feet of the centerline of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.

121. It is unlikely that the presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 will adversely affect the use of recreational and park areas.

Historical and Archaeological Values

122. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 crosses one recorded cultural resource site.
123. There are three recorded cultural resource sites located within 1,000 feet of the centerline of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.
124. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 crosses areas with a high potential for historical or archeological sites for 58,203 feet.
125. It is unlikely that the presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 will adversely affect historical or archaeological resources.

Aesthetic Values

126. An estimated 63,502 feet of the right-of-way of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 is within the foreground visual zone of United States or state highways.
127. An estimated 40,152 feet of the right-of-way of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 is within the foreground visual zone of park or recreational areas.
128. It is unlikely that the presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 will have a significant adverse effect on the aesthetic quality of the surrounding landscape.

Pipelines

128A. The presence of transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 is not expected to adversely affect any oil and gas pipelines.

Environmental Integrity

- 129. The environmental assessment and routing analysis analyzed the possible impacts of the transmission line on numerous environmental factors.
- 130. Oncor and Halff Associates evaluated the effects of the transmission facilities on the environment, including potential consequences for soil and water resources, the ecosystem (including endangered and threatened vegetation and fish and wildlife), and land use within the study area.
- 131. Current county listings for federally and state-listed threatened and endangered species were obtained from the United States Fish and Wildlife Service and Texas Parks and Wildlife Department. United States Fish and Wildlife Service-designated critical habitat locations were included in the review.
- 132. Construction and operation of the proposed transmission facilities is unlikely to have significant effect on the physiographic or geologic features and resources in the area.
- 133. Construction and operation of the proposed transmission facilities is unlikely to have substantial impacts to surface water resources in the area.
- 134. Construction and operation of the proposed transmission facilities is not expected to adversely impact on the groundwater resources in the area.
- 135. In light of avoidance measures to be used, construction and operation of the proposed transmission facilities is not anticipated to have significant direct impacts to the area's aquatic resources.
- 136. There are 11 threatened or endangered plant species with potential to occur within the study area.
- 137. There are 42 federally- or state-listed endangered, threatened, proposed endangered, proposed threatened, or candidate species with potential to occur in the study area.

138. After Commission approval of a route, field surveys may be performed, if necessary, to identify potential suitable habitat for federally- and state-listed animal species and determine the need for any additional species-specific surveys. If potential suitable habitat is identified or federally- or state-listed animal species are observed during a field survey of the Commission-approved route, Oncor may further coordinate with the Texas Parks and Wildlife Department and United States Fish and Wildlife Service to determine avoidance and mitigation strategies.
139. Oncor can construct the transmission facilities in an ecologically sensitive manner on the proposed route.
140. Oncor will mitigate any effect on federally listed plant or animal species according to standard practices and measures taken in accordance with the Endangered Species Act.
141. It is appropriate for Oncor to follow the procedures to protect raptors and migratory birds as outlined in the following publications: *Reducing Avian Collisions with Power Lines: State of the Art in 2012*, Edison Electric Institute and Avian Power Line Interaction Committee, Washington, D.C. (2012); *Suggested Practices for Avian Protection on Power Lines: The State of the Art in 2006*, Edison Electric Institute, Avian Power Line Interaction Committee, and the California Energy Commission, Washington, D.C. and Sacramento, CA (2006); and the *Avian Protection Plan Guidelines*, Avian Power Line Interaction Committee and the USFWS (April 2005). It is appropriate for Oncor to take precautions to avoid disturbing occupied nests and take steps to minimize the burden of construction on migratory birds during the nesting season of the migratory bird species identified in the area of construction.
142. It is appropriate for Oncor to minimize the amount of flora and fauna disturbed during construction of the transmission line, except to the extent necessary to establish appropriate right-of-way clearance for the proposed transmission line.
143. It is appropriate for Oncor to re-vegetate cleared and disturbed areas using native species and consider landowner preferences and wildlife needs in doing so.
144. It is appropriate for Oncor to avoid, to the maximum extent practical, causing adverse environmental impacts to sensitive plant and animal species and their habitats as identified

by the Texas Parks and Wildlife Department and the United States Fish and Wildlife Service.

145. It is appropriate for Oncor to implement erosion-control measures and return each affected landowner's property to its original contours and grades unless the landowner agrees otherwise. However, it is not appropriate for Oncor to restore original contours and grades where different contours or grades are necessary to ensure the safety or stability of any transmission line.
146. It is appropriate for Oncor to exercise extreme care to avoid affecting non-targeted vegetation or animal life when using chemical herbicides to control vegetation within the right-of-way. The use of chemical herbicides to control vegetation within the right-of-way is required to comply with the rules and guidelines established in the Federal Insecticide, Fungicide, and Rodenticide Act and with Texas Department of Agriculture regulations.
147. It is appropriate for Oncor to use best management practices to minimize the potential burden on migratory birds and threatened or endangered species.
148. It is unlikely that the presence of transmission facilities along the proposed route will adversely affect the environmental integrity of the surrounding landscape.

Texas Parks and Wildlife Department's Written Comments and Recommendation

149. The Texas Parks and Wildlife Department (TPWD) provided information and recommendations regarding the preliminary study area for the proposed transmission facilities to Halff Associates on October 7, 2022.
150. The TPWD was provided a copy of the environmental assessment and routing analysis for the proposed transmission facilities.
151. On July 20, 2023, the TPWD filed its comments and recommendations on the proposed transmission facilities.
152. Before beginning construction, it is appropriate for Oncor to undertake appropriate measures to identify whether a habitat for potential endangered or threatened species exists and to respond appropriately.

153. Oncor represents that it will use avoidance or mitigation procedures, as appropriate, to comply with laws protecting federally listed species.
154. Oncor represents that it will re-vegetate the right-of-way as necessary and according to Oncor's vegetation management practices, the stormwater pollution prevention plan developed for construction of the proposed transmission line, if any, and in many instances, landowner preferences or requests.
155. Oncor's standard vegetation removal, construction, and maintenance practices adequately address concerns expressed by the TPWD.
156. Oncor represents that it will use appropriate avian protection procedures.
157. Oncor represents that it will comply with all environmental laws and regulations, including those governing threatened and endangered species.
158. Oncor represents that it will comply with all applicable regulatory requirements in constructing the transmission facilities, including any applicable requirements under section 404 of the Clean Water Act (33 U.S.C. § 1251, et seq.).
159. Oncor represents that it will cooperate with the United States Fish and Wildlife Service and the TPWD if threatened or endangered species' habitats are identified during field surveys.
160. Oncor represents that, if construction affects federally listed species or their habitat, or affects water under the jurisdiction of the United States Army Corps of Engineers or the Texas Commission on Environmental Quality, Oncor will cooperate with the United States Fish and Wildlife Service, United States Army Corps of Engineers, and Texas Commission on Environmental Quality, as appropriate, to obtain permitting and perform any required mitigation.
161. The standard mitigation requirements included in the ordering paragraphs in this Order, coupled with Oncor's standard practices, are reasonable measures for a transmission service provider to undertake when constructing a transmission line and are sufficient to address the TPWD's comments and recommendations.

161A. No modifications to the transmission facilities are needed to address the TPWD's recommendations and comments.

Permits

162. Before beginning construction of the proposed transmission facilities, Oncor will obtain any necessary permits from the Texas Department of Transportation or any other applicable state agency if the facilities cross state-owned or -maintained properties, roads, or highways.
163. Before beginning construction of the proposed transmission facilities, Oncor will obtain a miscellaneous easement from the Texas General Land Office if the transmission line crosses any state-owned riverbed, navigable stream or other property interest.
164. Before beginning construction of the proposed transmission facilities, Oncor will obtain any necessary permits or clearances from federal, state, or local authorities.
165. It is appropriate for Oncor, before commencing construction, to obtain a general permit to discharge under the Texas pollutant discharge elimination system for stormwater discharges associated with construction activities as required by the Texas Commission on Environmental Quality. In addition, before commencing construction, it is appropriate for Oncor to prepare a stormwater-pollution-prevention plan if required, to submit a notice of intent to the Texas Commission on Environmental Quality if required, and to comply with all other applicable requirements of the general permit.
166. It is appropriate for Oncor to conduct a field assessment of modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 before beginning construction of the transmission facilities approved by the Commission's order to identify water resources, cultural resources, potential migratory bird issues, and threatened and endangered species' habitats disrupted by the transmission line. As a result of these assessments, Oncor will identify all necessary permits from Denton and Wise counties and federal and state agencies. Oncor will comply with the relevant permit conditions during construction and operation of the transmission facilities along modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1.

167. After designing and engineering the alignments, structure locations, and structure heights, Oncor will determine the need to notify the Federal Aviation Administration based on the final structure locations and designs. If necessary, Oncor will use lower-than-typical structure heights, line marking, or line lighting on certain structures to avoid or accommodate requirements of the Federal Aviation Administration.

Coastal Management Program

168. No part of the proposed transmission facilities is located within the coastal management program boundary as defined in 31 TAC § 27.1(a).

Agreements of Parties on Routing

169. The parties reached no agreement as to routing.

Modification of Applicant's Proposed Route

170. All municipalities, utilities, counties, and directly affected landowners to the modifications identified in modified route 179-C with DCLC modified links M1 and M5 were previously noticed.
171. All landowners directly affected by the La Estancia Alt. 1 modification consented to the modification.
172. Except for the owner of tract 801, all landowners directly affected by the La Estancia Alt. 2 modification consented to the modification.
- 172A. All landowners directly affected by La Estancia's modification to links E6 and G1 consented to the modification.
173. Except for BNSF Railway Company, all landowners directly affected by the DCLC modified M1 consented to the modification.
174. All landowners directly affected by the DCLC modified M5 consented to the modification.

Limitation of Authority

175. It is reasonable and appropriate for a CCN order not to be valid indefinitely because it is issued based on the facts known at the time of issuance.
176. Seven years is a reasonable and appropriate limit to place on the authority granted in this Order to construct the transmission facilities.

II. Conclusions of Law

The Commission adopts the following conclusions of law.

1. Oncor is a public utility as defined in PURA § 11.004 and an electric utility as defined in PURA § 31.002(6).
2. The Commission has authority over this matter under PURA §§ 14.001, 32.001, 37.051, 37.053, 37.054, and 37.056.
3. Oncor must obtain the Commission's approval to construct the transmission facilities and to provide service to the public using the facilities.
4. SOAH exercised jurisdiction over this proceeding in accordance with PURA § 14.053 and Texas Government Code §§ 2003.021 and .049.
5. The application is sufficient under 16 TAC § 22.75(d).
6. The Commission processed this docket in accordance with the requirements of PURA; the Administrative Procedure Act,² Texas Government Code §§ 2001.001 through 2001.093; and the Commission's rules.
7. Oncor provided notice of the application in compliance with PURA § 37.054 and 16 TAC § 22.52(a).
8. Additional notice of the approved route is not required under 16 TAC § 22.52(a)(2) because it consists of properly noticed links contained in the application and, for the modifications identified, all affected municipalities, utilities or counties landowners previously received notice.
9. Additional notice of the approved route is not required under 16 TAC § 22.52(a)(3)(C) because it consists of properly noticed links contained in the application and, for the modifications identified, all directly affected landowners previously received notice.
10. Oncor held public meetings and provided proper notice of those public meetings in compliance with 16 TAC § 22.52(a)(4).

² Tex. Gov't Code §§ 2001.001–.903.

11. The hearing on the merits was set, and notice of the hearing was provided, in compliance with PURA § 37.054 and Texas Government Code §§ 2001.051 and 2001.052.
12. The Texas Coastal Management Program does not apply to the transmission facilities, and the requirements of 16 TAC § 25.102 do not apply to the application.
13. Modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 best meets the routing criteria set forth in PURA § 37.056 and 16 TAC § 25.101, including the Commission's policy of prudent avoidance, to the extent reasonable to moderate the impact on the affected community and landowners.
14. The transmission facilities using modified route 179-C with DCLC modified links M1 and M5 and La Estancia's modification to links E6 and G1 are necessary for the service, accommodation, convenience, or safety of the public within the meaning of PURA § 37.056 and 16 TAC § 25.201.
15. ERCOT is an independent organization as defined by PURA § 39.151.
- 15A. The Commission must approve or deny the application not later than the 180th day after it was filed under PURA § 37.057.

III. Ordering Paragraphs

In accordance with these findings of fact and conclusions of law, the Commission issues the following orders:

1. The Commission adopts the proposal for decision, including findings of fact and conclusions of law, to the extent provided in this Order.
2. The Commission amends Oncor's CCN number 30043 to include the construction and operation of the transmission facilities, including a new double-circuit 345-kV transmission line to be built on triple-circuit-capable structures along route 179-C modified with links C4 and C6 replacing links C7, E2, and E1 and with modifications as described as the Denton County Land and Cattle's modifications to links M1 and M5 and La Estancia's modification to links E6 and G1 (comprising routing links A0, A4, B1, B61, B62, C1, C23, C4, C6, La Estancia's modification to link E6 and G1, G3, H41, H42, H8, I8, J3, K1, L5, L4, L3, L2, Modified M1, Modified M5, R2, R5, U3, V3, V4, and Z) and

construction of the proposed Ramhorn Hill and Dunham switching stations. The Commission is not certifying a third circuit through this Order.

3. La Estancia must make a contribution in aid of construction in the amount of \$500,000 to accommodate its requested modifications to link E6 and G1.
4. Oncor must consult with pipeline owners or operators in the vicinity of the approved route regarding the pipeline owners' or operators' assessment of the need to install measures to mitigate the effects of alternating-current interference on existing metallic pipelines that are paralleled by the proposed electric transmission facilities.
5. Oncor must conduct surveys, if not already completed, to identify metallic pipelines that could be affected by the proposed transmission line approved by this Order and cooperate with pipeline owners in modeling and analyzing potential hazards because of alternating-current interference affecting metallic pipelines being paralleled.
6. Oncor must obtain all permits, licenses, plans, and permission required by state and federal law that are necessary to construct the transmission facilities approved by this Order, and if Oncor fails to obtain any such permit, license, plan, or permission, it must notify the Commission immediately.
7. Oncor must identify any additional permits that are necessary, consult any required agencies (such as the United States Army Corps of Engineers and United States Fish and Wildlife Service), obtain all necessary environmental permits, and comply with the relevant conditions during construction and operation of the transmission facilities approved by this Order.
8. If Oncor encounters any archaeological artifacts or other cultural resources during construction, work must cease immediately in the vicinity of the artifact or resource, and Oncor must report the discovery to, and act as directed by, the Texas Historical Commission.
9. Before beginning construction, Oncor must undertake appropriate measures to identify whether a potential habitat for endangered or threatened species exists and must respond as required.

10. Oncor must use best management practices to minimize the potential harm to migratory birds and threatened or endangered species that is presented by the approved route.
11. Oncor must follow the procedures to protect raptors and migratory birds as outlined in the following publications: *Reducing Avian Collisions with Power Lines: State of the Art in 2012*, Edison Electric Institute and Avian Power Line Interaction Committee, Washington, D.C. (2012); *Suggested Practices for Avian Protection on Power Lines: The State of the Art in 2006*, Edison Electric Institute, Avian Power Line Interaction Committee, and the California Energy Commission, Washington, D.C. and Sacramento, CA (2006); and the *Avian Protection Plan Guidelines*, Avian Power Line Interaction Committee and the USFWS (April 2005). Oncor must take precautions to avoid disturbing occupied nests and take steps to minimize the burden of the construction of the transmission facilities on migratory birds during the nesting season of the migratory bird species identified in the area of construction.
12. Oncor must exercise extreme care to avoid affecting non-targeted vegetation or animal life when using chemical herbicides to control vegetation within the right-of-way. Herbicide use must comply with rules and guidelines established in the Federal Insecticide, Fungicide, and Rodenticide Act and with Texas Department of Agriculture regulations.
13. Oncor must minimize the amount of flora and fauna disturbed during construction of the transmission facilities, except to the extent necessary to establish appropriate right-of-way clearance for the transmission line. In addition, Oncor must re-vegetate using native species and must consider landowner preferences and wildlife needs in doing so. Furthermore, to the maximum extent practicable, Oncor must avoid adverse environmental effects on sensitive plant and animal species and their habitats, as identified by the Texas Parks and Wildlife Department and the United States Fish and Wildlife Service.
14. Oncor must implement erosion-control measures as appropriate. Erosion control measures may include inspection of the right-of-way before and during construction to identify erosion areas and implement special precautions as determined reasonable to minimize the effect of vehicular traffic over the areas. Also, Oncor must return each affected landowner's property to its original contours and grades unless otherwise agreed to by the

- landowner or the landowner's representative. However, the Commission does not require Oncor to restore original contours and grades where a different contour or grade is necessary to ensure the safety or stability of the structures or the safe operation and maintenance of the line.
15. Oncor must cooperate with directly affected landowners to implement minor deviations in the approved route to minimize the disruptive effect of the proposed transmission line approved by this Order. Any minor deviations from the approved route must only directly affect landowners who were sent notice of the transmission line in accordance with 16 TAC § 22.52(a)(3) and have agreed to the minor deviation.
 16. The Commission does not permit Oncor to deviate from the approved route in any instance in which the deviation would be more than a minor deviation without first further amending the relevant CCN.
 17. If possible, and subject to the other provisions of this Order, Oncor must prudently implement appropriate final design for the transmission line to avoid being subject to the Federal Aviation Administration's notification requirements. If required by federal law, Oncor must notify and work with the Federal Aviation Administration to ensure compliance with applicable federal laws and regulations. The Commission does not authorize Oncor to deviate materially from this Order to meet the Federal Aviation Administration's recommendations or requirements. If a material change would be necessary to meet the Federal Aviation Administration's recommendations or requirements, then Oncor must file an application to amend its CCN as necessary.
 18. Oncor must include the transmission facilities approved by this Order on its monthly construction progress reports before the start of construction to reflect the final estimated cost and schedule in accordance with 16 TAC § 25.83(b). In addition, Oncor must provide final construction costs, with any necessary explanation for cost variance, after completion of construction when Oncor identifies all charges.
 19. The Commission limits the authority granted by the Order to a period of seven years from the date the Order is signed unless the transmission line is commercially energized before that time.

20. The Commission denies all other motions and any other requests for general or specific relief, if not expressly granted.

Signed at Austin, Texas the 6th day of May 2024.

Subject: PUC Docket No. 55067 – Application of Oncor Electric Delivery Company LLC to Amend its Certificate of Convenience and Necessity for the Ramhorn Hill Switch – Dunham Switch 345 kV Transmission Line in Denton and Wise Counties, Texas

Dear Landowner:

On June 8, 2023, Oncor Electric Delivery Company LLC ("Oncor") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") requesting authorization to install a new double-circuit 345 kV transmission line on triple-circuit capable structures between the proposed Ramhorn Hill Switch and the proposed Dunham Switch, located in Denton and Wise Counties, Texas. At that time, formal notice of the filing was mailed to you as a property owner whose property could be directly affected by the outcome of the proceeding at the Commission.

Pursuant to 16 Texas Administrative Code ("TAC") § 22.52(a)(6), this letter serves as notice that Oncor's application was considered and approved by the Commission, through an Order on Rehearing that was issued on May 6, 2024. This letter serves as notice that, based on public property tax records at the time of filing, your land as identified by the tract number(s) above will not be directly affected by the approved facilities and is no longer the subject of a pending proceeding at the Commission. If you have other tracts in the project area that are not listed above, you may receive a separate letter identifying those tracts as directly affected property. Information relating to the project can be found at <https://www.oncor.com/transmissionprojects>, by selecting "Ramhorn Hill - Dunham 345 kV Transmission Line" from the drop-down menu.

If you have any questions about this notice you may contact Chris Reily of Oncor at (214) 486-4717.
