PUC of Texas,

I'm writing to comment on Docket No. 55067. My comments are in relation to potential routes C4, C5, C7, C8, C9, E5, E8, F3, F4, F8, G5, H6.

I am nearly 81 years old and have recently moved to the area with my son and daughter-in-law. We've invested in a piece of property and the construction of a home near the potential routes mentioned. The home will be finalized in 12 months or so and is certainly my last home. My great grand-kids, grand-kids and kids are all planned to actively enjoy our home.

I worry about my health if the transmission lines are close to our property. I worry about how it would impact my son and his previous health concerns. I worry about how it would impact my grand-kids and especially my great grand-kids.

I am also investing most of my financial resources into this home. I worry about the financial implications if the transmission line is close to our home.

I appreciate you hearing my concerns and how they have an impact on the decision of the routes.

Sincerely,
Mildred Strickland
