- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☐ Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

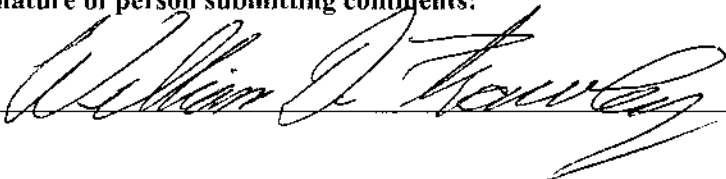

We purposefully bought a home away from the towers that currently run power lines in our neighborhood. Now we are finding

out that that we will be within 1000 feet of proposed route 184, Route Link E3&E8. Additionally other proposed routes are planned on

our walking trails and outdoor areas. These structures are not only an eyesore, they also obviously have a negative impact on all property

values for residents in the area. The PUC should deny this route and use the Army Core of Engineers land South of 1171 for this project.
