I am NOT requesting to intervene in this proceeding. As a PROTESTOR, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

- ☐ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☒ Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

I am reaching out to you today to highlight the considerable negative consequences associated with the proposed ONCOR transmission line routes E5, C9, C7, and C5. It is my strong belief that an alternative route, such as C3, C6, and E6, which would be closer to the road, should be seriously considered instead.

The impact of the current proposed transmission line routes E5, C9, C7, and C5 on our community cannot be understated. These routes pose significant challenges that could have far-reaching implications for our residents and the overall well-being of our community. In light of these concerns, I urge you to carefully evaluate and explore alternative routes, specifically C3, C6, and E6, which offer closer proximity to the road.

By adopting an alternative route that is closer to the road, we can address many of the potential adverse effects associated with the current proposals. This approach would not only alleviate the concerns expressed by our community but also help preserve the integrity of our surroundings and protect property values. Furthermore, a route closer to the road would strike a more favorable balance between the necessary transmission infrastructure and our community's desire to safeguard our natural environment.

In light of the above, I respectfully request that the Public Utility Commission of Texas reevaluate the proposed transmission line routes and give serious consideration to alternative options, specifically C3, C6, and E6. It is vital to prioritize the interests and well-being of our community while ensuring the successful establishment of the required transmission infrastructure.

Thank you for taking the time to consider my appeal. I trust that the Public Utility Commission of Texas will thoroughly assess the potential impacts of the transmission line routes and make a decision that reflects the best interests of our community as a whole.
