1701 N. Congress Ave.
Austin, TX 78701

First Name: STEVE & Rhonda Last Name: BOISVERT
Phone Number: 817-915-6376 Fax Number: _____
Address, City, State: 1105 Denton Creek Dr. Justin, TX 76247
Email Address: rlboisvert36@hotmail.com

I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.

☐ One or more of the utility's proposed routes would cross my property.

☒ Other. Please describe and provide comments. You may attach a separate page, if necessary.

See attached list of comments & concerns

Signature of person requesting intervention:

Comments and Concerns

1) Transmission Lines Emit 'Radiation'

- Currently, I am an active cancer treatment patient and the potential (unknown) long-term health risks from excessive radiation exposure from this project in our backyards is **unacceptable**. There are many others in our immediate community fighting the same battles.
- Many young families with active children live in Legacy Ranch who would also be exposed as they play outside in their yards. Most families also have swimming pools in their backyards.
- Numerous families raise chickens as pets in their backyards while they also provide a food source.
- Most families have dogs in their backyards.
- Lots of wildlife and migratory birds are in this area.

2) Miscellaneous Concerns

- Constant buzzing sound
- Property values affected
- Metal Fencing around all of our properties (could be an electrical shock hazard during a storm/rain, etc.)
- Potential fire hazard (lightning strikes, etc.)
- Proximity to 8" gas pipelines (could cause induction coupling between the metal pipeline and the magnetic field from the powerlines) Maintenance of the gas pipelines could be negatively impacted.

Please take all the above (and much more) into serious consideration because with all this being said, the bottom line remains:

THIS PROJECT WILL NOT PROVIDE ANY POWER TO JUSTIN!!!!
