Protest comments for Gary E. Bird 604 Ridge View Way, Justin, TX 76247, resident Hardeman Estates.

My concerned is the impact that will be felt by the residents of the city of Justin. After looking at a map I can't even count the number of multi-family units on the south side of the line for one proposal that would be affected and there are 3 dozen homes and many apartments on the other side. The main reason for protesting the proposed routes of the lines is the health of ALL resident. Putting an obvious health hazard in our back yards is not acceptable, why not impact as few residents as possible and take the lines across acres of land with little to no housing structures and miles of fields for the lines.

The loss of all the trees along Trail Creek will greatly affect air quality and destroy the natural habitats. Also, the development of the Justin City Center will be affected as well as Bishop Park and community park.

Property values of the property in close proximity will diminish to a level that is unsustainable. Any idea where the hundreds of people will go if their homes are destroyed by this project

The sheer number of structures and residents need to be taken into account when final decisions are made.

Our money is as valuable as the money of ONCOR.
