Comments in Docket No. 55067

Public Utility Commission of Texas,

As a resident of the Canyon Falls development in Northlake, Texas I have many concerns regarding the proposed route (E5) for the new transmission lines. One of the main reasons my husband and I purchased our lot was the view it would provide us from our backyard. Currently from our patio we can see acres upon acres of tree tops and natural scenery. We paid extra for this privilege and the price of our home reflects that.

The proposed route (E5) would run directly through this natural area of our community, obstructing the view my neighbors and I so deeply cherish. In addition to this obstruction of scenery and the loss of value to our home I am disheartened to see what it will do to the nature trails we all get to enjoy.

I hope you take my concerns of the loss of value to our home, negative environmental impact, and possible potential health effects to nearby residents into consideration and chose a route that has less of a negative impact on our community.

Thank you for your time,

Nancy M. Howard
