~~We purchased our home in 2012 to specifically to live on the greenbelt and creek near the park. We sold at the end of 2016, because we wanted to move to the country. However, in July of 2018 we purchased the same home back again because we couldn't find a more perfect house and community anywhere else. We love our neighborhood, creek, trees and parks and feel that this would destroy our home and its value. We are also very concerned about the health risks associated with living so close to these transmission lines.~~
