I am NOT requesting to intervene in this proceeding. As a PROTESTOR, I understand the following:

- I am NOT a party to this case;
- My comments are not considered evidence in this case; and
- I have no further obligation to participate in the proceeding.

Please check one of the following:

☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.

☐ One or more of the utility's proposed routes would cross my property.

☒ Other. Please describe and provide comments. You may attach a separate page, if necessary. The proposed

route falls under the areas where my children go to school & play. As a
concerned parent who dealt with childhood leukemia, we do not feel very
comfortable having these lines being installed around the areas where my children
are going to be for most of the days. Not to mention the growing community may
have other concerns. I believe there are other safer & easier options.

with a history of childhood leukemia we are concerned about the proposed transmission routes that would go over parks, businesses and schools where we frequent. These would not only affect the aesthetic and value of our growing town that we call home but also bring potential health concerns that would alter the way that our family lives in our community including limiting our use in local parks and being concerned about sending our kids to schools that would be located near these lines.
