1701 N. Congress Ave.
Austin, TX 78701

First Name: Floyd T. McCurdy Testamentary Trust Last Name: _____

Phone Number: 512-585-4235 Fax Number: _____

Address, City, State: P.O. Box 293, Rhome, TX 76078

Email Address: The_PPP@outlook.com

I am requesting to intervene in this proceeding. As an INTERVENOR, I understand the following:

- I am a party to the case;
- I am required to respond to all discovery requests from other parties in the case;
- If I file testimony, I may be cross-examined in the hearing;
- If I file any documents in the case, I will have to provide a copy of that document to every other party in the case; and
- I acknowledge that I am bound by the Procedural Rules of the Public Utility Commission of Texas (PUC) and the State Office of Administrative Hearings (SOAH).

Please check one of the following:

- ☐ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☒ One or more of the utility's proposed routes would cross my property.
- ☒ Other. Please describe and provide comments. You may attach a separate page, if necessary.

See attached comments.

Signature of person requesting intervention:

Re: Docket No. 55067, Tracts #2196, 2197, 2223, 2826, 2827

To Whom It May Concern,

We oppose the proposed Ramhorn Hill – Dunham 345kV transmission line that crosses two separate properties of our agricultural land. The land has been in our family over 100 years and has been continually operated by our family for 5 generations. We would like to maintain this undeveloped prairie land for generations to come.

On the larger of the two properties, the proposed transmission line (link sequence Q1) splits apart our family farming and ranching operation. During construction of the line, our ability to access the cattle and crops on approximately 2/3 of this acreage could be severely impeded. We would incur considerable expense to relocate the cattle and forgo the income and forage from the cultivated crops. The proposed line is 420 feet directly behind our family home where our 91-year-old mother resides. The proposed line does not directly parallel existing rights-of-way or property lines. There are many other options for the transmission line that do not cross this property, and in fact only one proposed route (#67) crosses this tract of land. The existence of a transmission line from one end of our homestead to the other would be especially egregious to us. (Note: link sequence P7 also affects this property, but it parallels the property line on the southern border of our land and is not as impactful as link sequence Q1.)

The smaller of our two properties affected by the transmission line involves proposed link sequences O6 and P1. During construction of the line on this land, access to cattle would likely be cut off because there is no other access point except from the county road, which the line would parallel.

Thank you for your consideration of our concerns.

Sincerely,

Peggy Logan McCurdy
