**Subj: Intervention Comments on Docket No. 55067**

Proposed Ramhorn-Dunham power line segment M8 would cross just north of the Guy James Ranch neighborhood and within 1,200 feet of my home and would directly affect my home value and the health of my family and pets. This would directly affect the home values across the entirety of Guy James Ranch neighborhood. Moreover, this line segment would pass just south of Propwash Airport (16X) virtually shutting down the use of this public use airport facility, directly affecting safety of flight, right of way obstruction clearance, airport airspace encroachment, departure and approach procedures, and endanger the lives of all pilots and passengers flying in and around Propwash Airport. This is in direct violation of the PUC policy of prudent avoidance.
