Please check one of the following:

- ☒ I own property with a habitable structure located near one or more of the utility's proposed routes for a transmission line.
- ☐ One or more of the utility's proposed routes would cross my property.
- ☐ Other. Please describe and provide comments. You may attach a separate page, if necessary. _____

Our property faces south and will be directly impacted by route E8, both through home devaluation and the negative environmental impact.

Route E8 will cut right through pastureland that is home to various wildlife and will impact their quality of life as well as ours.

Our home was valued higher due to the open land behind our property, transmission lines will devalue our home.

On the proposed routes there are options that follow 1171, C6 & E6, and would impact the home value and environment less.
