PUC Docket No. 55094; SOAH Docket No. 473-23-20742 – *Application of AEP Texas Inc. to Adjust Its Energy Efficiency Cost Recovery Factor and Related Relief*

A proposed order in the above-referenced docket is posted for consideration and action by the Commission. If the Commission approves the proposed order, I recommend the following changes.

The following ordering paragraph should be added for completeness and consistency with prior Commission orders.

7. AEP Texas must serve notice of the approved rates and the effective date of the approved rates on the retail electric providers that are authorized to provide service in its service area by the first working day after AEP Texas files its approved EECRF tariff with Central Records. The notice may be served by email.

Additionally, the Commission should delegate to the Office of Policy and Docket Management the authority to modify the order to conform to the Citation and Style Guide for the Public Utility Commission of Texas and to make other non-substantive changes to the order for such matters as capitalization, spelling, grammar, punctuation, style, correction of numbering, and readability.
